conference in Hamburg today

Stern's announcement on

Friday has provoked astonishment and enormous interest

here. The magazine has brought

forward the publication of the issue revealing the diaries, and

printed a record edition over

the weekend of more than two

German papers and reports have had to rely so far for

details on the extracts already published in *The Sunday Times*, retranslating quotations from the diaries back into

German. Newspapers, publishing pictures of the Nazi leaders mentioned in *The Sunday Times* extracts, have also gone

into detail about the way the documents were discovered and

acquired by Stern.

Hitler's secret diaries

Was Dag Hammarskjold, Secretary of the United Nations, really a post-war hero? Paul Johnson argues in Spectrum that be was not: that he was wrong about that he was wrong about Suez, wrong about the Soviet invasion of Hungary – "which he treated as a tiresome distraction" – and wrong about the Cnngo. Has Thatcherism been applied to law and nrder? Peter Evans looks at the main changes in British policing in recent years and the Conservative changes in the law relating to crime. Suzy Menkes looks at the growing fashion for middleclass mail nrder; and Roger Scruton reflects nn a recent visit to New York.

BL stewards may defy leaders over strike vote

By David Felton, Labour Correspondent

A return to work by the 5,000 he could not predict which way assembly workers at BL's the vote would go.

Cowley plant could rest on Under the terms of the whether shop stewards decide today to make any recommen-dation on the peace formula to be put 10 a mass meeting BL officials were confident

ommendation to throw it out could influence the workers.

It is thought the stewards may try to make a recommendation, in apparent contra-vention of the agreement reached between national nnion

officials and BL management on Saturday morning after three negotiating sessions spanning 39 hours. The formula was agreed only half an bour before BL's deadline for sending out dismissal letters to the strikers. It was proposed that the formula would be put to the mass meeting factually and without recommendation, but Mr David Buckle. Oxford district secretary of the Transport and General Workers' Union, said last night that he

did not believe the stewards were barred from making a Under the terms of the understanding, Mr Buckle and the other full-time union officials would address the meetings today and tomorrow without indicating approval or rejection. If the mass meeting decides to end the four-week

A national union official involved in the negotiations said union leaders would be extremely angry if the stewards made a recommendation. There was a specific point made during the negotiations that while there could be consul-tation with the stewards, it would be inappropriate for them to put any recommen-

dation to the meeting.

Mr Buckle said: "The stew-ards will be asked at their meeting to go along with the formula, but if they want to pass Turkey's ruling military council has lifted the 1980 ban on political activities, paving the way for a general election would be too bappy if the stewards backed the formula Cowley will be open, the unions

He predicted that the mass ing. The strike has led to the meeting would be "difficult, to put it mildly" and in the present "highly charged" atmosphere.

Under the terms of the

formula, a four-week "cooling off" period will allow time for negotiation on the introduction of productivity measures and the ending of the six minutes a day "washing time" which has that the formula would be been at the centre of the accepted hut a stewards' reo- dispute.

At the same time, a four-man committee will examine indus-

Jaguar sales boom

Jaguer is breaking all productively and sales records, especially in the United States, where the strong dollar is helping BL profits. Sales of Jaguars in the US in the first quarter of this year were 60 per cent more than in the same period last year. Sales in Europe also rose by 58 per cent, and almost doubled in West Germany. Productivity this year is 41 per cent up nn that for the first quarter of 1982.

trial relations at the Cowley assembly plant. That team will comprise two BL managers and two union officials, all from outside the Cowley area, and will consider "any specifie complaint either party may have about the other".

BL bas agreed to give Cowley assembly audited plant status after agreement on productivity proposals and the ending of washing time, which would increase the weekly bonus cciling from £18.75 to £30.

Union officials believe they have secured two real gains from the management in a formular which, on the face of it, appears to be a victory for the management's determi-nation to introduce "bell to bell" working at the plant. The unions claim that the old

style of management by imposition will be replaced by a regime which seeks to introduce changes by agreement. The company believes it has come out of the dispute with its position very little changed and

the prospect of an early end to the washing time practice. Some of the strikers are expected to try to return lo work this morning hut although BL has said that the gates at but failed to make a recommen- are planning to mount a picket to prevent production resum-

Two aims of Shultz Middle East tour

From Nicholas Ashford, Washington

As the United States received up? Maybe we can't afford to do back the bodies of those who that. State, left for the Middle East in the talks with the US, Israel, a renewed US effort to bring and Egypt. I think it is as well peace and stability to that for them (the Arabs) to talk troubled region.

The main purpose of his journey is to press for a speedy withdrawal of Israeli, Syrian, and Palestine Liberation Orga-Jozef Pinior, a fugitive Solid-But it is also designed to received earlier this month after the refusal of King Husain of

Jordan to participate in the talks on Palestinian autonomy. Mr Sbultz sounded a deliberately upbeat note on the eve of his departure. In an interview with the Washington Post he said there were signs that Arab leaders may be taking a second

look at the Reagan peace plan.
"It does seem to me," he told the newspaer, "that there is a certain shock that has taken hold, as I read the cables from various Arab capitals, in which people are saying to themselves: are we really going to pass this

Explosion sends fumes over city

Four people were taken to hospital after a huge explosion sent a mushroom cloud of chemical fumes into the air over the city of Nottingham yesterday. The blast ripped off a large part of the roof at the Boots chemical factory in Sneinton, near the city centre.

A man inside the factory, two outside contractors and a passing motorist were taken to bospital, where they were detained for observation. None was seriously burt. They were admitted as a safety precaution after coming into contact with chemical fumes which temporarily cause a tingling sensation

Firemen and officials from the Severn Trent Water Authority were yesterday working to prevent the chemical Bronopal, from seeping into the River

Mr Terry Steele, a director of Boots, said that the cause of theexplosion was not yet known hut was being investigated. The blast took place in a reaction vessel which was producing the chemical which is used to kill bacteria and mould in pharmacentical products.

"When the vessel exploded some acid fumes went into the air but were quickly dispersed. There is no danger to people in the area", he said. Other parts of the factory would be back to production today.

The explosion damaged a local public house and debris from the roof narrowly missed a pedestrian. The motorist was don. One major told met driving past when a cloud of When you feel that you are out chemical dust descended on his bere doing something for peace, car.

1440 to 5 fuss-free favourite

As thousands of existing Trianco anthracite boiler owners will confirm, all it takes to secure warmth, central heating comfort and hot water for 1440 minutes in every 24 hours is less than 5 minutes a day. You simply clear the firebed with a couple of pulls on a lever, top up the gravity feed hopper with fresh fuel, and that's it.

Done. No fuss, no bother, no dust. And from then on it takes care of itself - steadfastly working away under the automatic control of your thermostat and programmer just like any other boiler.

Except that the Trianco G is not quite like any other boiler.

After beating your home it doesn't go off and let it get cold again. It slumbers down to g lazy economical 'tickover' which keeps the chills away when you're away, night and day, weekends included, and gives you constant inexpensive hot water during the summer.

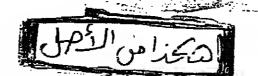

Trianco G boilers are quality engineered. They bear the Royal Warrant. There's a neat and compact model to suit most homes, and there are plenty of anthracite grains available the finest clean, natural high performance smokeless solid fuel in the world.

It all adds up to a surefire favourite - a 1440 to 5 investment. The time is right, For Trianco central heating, plus low summer solid fuel prices. Send for a brochure today. It could be the beginning of a lifelong friendship.

Tories likely to weather the storm

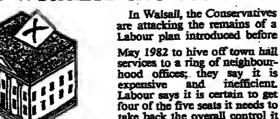

By David Walker Local Government Correspondent

A mooth ago councils in the West Midlands clubbed together to seek extra government aid for a regioo hit suddenly, sharply and probably irrecove-rahly by industrial recessioo. Two out of five school-leavers io Birmingham are johless. A single factory closure in Walsall - Rubery Owen - put 4,000 out

of work. But, in the words of Mr Keith Andrews, the Conservative agent in Birmingham: "Mrs Thatcher has brought about a sea change of opinion. People are oot blaming the Govern-ment for the high level of

unemployment." Publicly, Labour's view is that the national opinioo polls are wrong canvass returns suggest voters are swinging their way. Privately, regional officials are sure only that Labour will keep what it has: the solid areas of Wolverhampton, Coventry. Stoke and Sandwell (West Bromwich and Smethwick).

municipal crown. Since May last year the city has been Conservative; not Thatcherite, cuts in the schools; in the but canny in the administrative second, the Tory-led "anti-fraditions of the great Birming-socialist coalition" in charge of but canny in the administrative firaditions of the great Birming-ham politician Joseph administration is in disarray. Chamberlain. The council has But the position in neither council is likely to change.

lost last year.

Labour needs a swing of 6 to per cent from 1982's voting figures to get the six extra wards it needs for outright control. Given the unemployment, the ostentatious moderation of Labour leaders in the city and the disappearance of the "Falk-lands factor", Labour ought to

triumph. But there is no such optimism. At best, Labour might gain two seats from the Liberals and force the Conservatives to govern without an overall

If Labour had the wind in its sails, it should take over Dudley Birmingham is a jewel in the and Walsall. In the first, the Conservative council has created opposition by its spending

May 1982 to hive off town hall services to a ring of neighbour-hood offices; they say it is expensive and inefficient. Labour says it is certain to get four of the five seats it needs to take back the overall control it

The Social Democrats and Liberals are not much in evidence in the Birmingham coourbation. The Liberals are strong to the west, in Hereford-shire. The Alliance claims to be on the poiot of toppling Labour from its control of Worcester. The Social Democrats talk of inroads in rural Warwickshire and Worcestershire.

In the wider west Midlands region there are potentially interesting contests in such places as Redditch and Rugby, where there have been changes io boundaries: in both, Labour gains could threaten the pos-ition of Conservative MPs if translated into general election terms. In The Wrekin, the district around Telford oew town, Labour is confident of holding its position.

But the question for the West Midlands Labour Party remains why do people who are acutely feeling the pinch not coalesce into a solid block of anti-Tory votes?

Stricter legislation against under-age drinking demanded by JPs' clerks

crimes, particularly among the young, are called for by the Justices' Clerks' Society today. Under-age drinking is now so grave that draconian measures are needed to cope with it, the society of 350 chief legal

advisers to magistrates in England and Wales says in a Publicans widely flout the law against selling intoxicating liquor to people aged under 18 or by allowing them to consume it, and yet there are few

prosecutions, the society adds. The link between sales to the young and their subsequent involvement in crime was "too strong to ignore and is an area of grave concern not only to the courts but to the public in general and to parents in particular.

The evidence pointed to

alcohol consumption and abuse having risen to such levels that it was having a severely adverse effect on the incidence of crime; there was a demonstrated link day by day between under-age drinking and crime. Courts daily saw the effect of

excessive alcohol consumption in offences of drunkenness, drunken driving, public dis-order, assault, criminal damage, rder, assanlt, criminal damage, ishonesty, burglary and theft.

Many of the crimes were stricter criteria governing the

Tribute to hero of the skies

From Arthur Osman, Birmingham

Special tribute will be paid to a wartime hero this week with the unveiling of a painting of the aircraft in which the Halifax homber's only Victoria Cross was won.

Mr Kenneth Hancock's picture of the Excalibur was commissioned by former members of 578 Squadron Bomber Command in memory of all aircrew and, in particu-lar, of Pilut Officer Cyril Barton, the captain who died winning the Victoria Cross.

The painting will be un-veiled at a preview in Birming-ham on Wednesday, to which Marshal of the Air Force Sir Arthur Harris, the former head of Bomber Comman has been invited.

The picture will be repro-duced in unlimited edition for

Museum, Hendon, and the RAF Benevolent Fund.

More than 200 Halifax crews, including three who baled out of the Excalibur and became prisoners of war, will attend the preview.

The Excalibur flew from Burn, Yorkshire, oo the illfated Nuremberg raid on March 30, 1944. Bomber Command suffered its worst disaster on that Thursday, night with 96 out of the 795 aircraft failing to return.

The Excalibur was attacked by fighters near the target and severely damaged. Pilot Officer Barton's subsequent Victoria Cross citation said: "At the

was misinterpreted and the navigator, air bomber and wireless operator left the aircraft by parachute".
Pilot Officer Barton pressed

oo and, released the bombs himself but turning for home, the Excalibur lost a propellor and fuel. He flew for nearly five hours without navigational aids against strong head winds, but avoided heavy defences. He crossed the English coast 90 miles from his base at Ryhope, near Sunderland.

With only one engine working and almost out of fuel, he attempted to land and avoided houses over which he was flying. He died in the crash, but the three crew members still with him sur-

Volunteers to police illegal rare bird trade

By Hugh Clayton

Almost 200 voluntary inspec ors have been chosen reinforce the one full-time official appointed by ministers to police the registration of rare. captive birds. The new system is aimed at ending the illegal trade in wild birds of prey, for which the breeding seasoo is

Britain is thought to have fewer than 800 pairs of wild peregrine falcons and fewer than 500 pairs of the smalle

The golden eagle, one of the largest and most handsome of British birds, is down to about 300 pairs, of which all but a handful are in Scotland. One of the very few English eyries is under permanent guard by naturalists.

Wild peregrine falcons can be worth huodreds of pounds each. Breeders have sometime taken eggs from nests of wild hirds, elaiming later that the oewly born young were bred in

The Royal Society for the Protection of Birds is involved io about twenty-five prosecutions a year coocerning illegal possession of hirds of prey, which have the highest degree of protection under the Wildlife and Countryside Act.

So far this year four clutches of wild goshawk eggs have been stolen from British nests. The hird, which is more common in Central Europe, is down to between 50 and 100 wild pairs

All captive hirds of prey must now be registered with the Government, oumbered and fitted with an official leg ring which carries the oumber.

The inspectors, who will be paid £3 an hour and expeoses, are expected to witness the rioging of birds, Some are amateur naturalists.

Dispute threatens gypsy site

Two hundred gypsies may face eviction from one of their few sites near central Loodon because of a long-running dispute involving a Conserva-tive-cootrolled Londoo borough and the Labour-cootrolled Greater Londoo Council.

The GLC owns the Westway Further condemnation of the practice, which is not illegal, is expected next year from the condemnation of the practice, which is not illegal, is expected next year from the it runs out in June. Hammer, smith and Fulham countries and the site of says it has surveyed more than a hundred other sites but can find oo snitable alternative.

> The site lies under a motorway, next to a railway line, and suffers from very high levels of lead pollution. Earlier this year the borough council was or-dered by magistrates under the Public Health Act to monitor lead levels every three months.

Three quarters of the travellers tioo from the Department of the are children. But the tussle over the site

forms part of a wider conflict between the GLC and several Loodoo boroughs, many Con-servative-cootrolled, over the provisioo of legal pitches for gypsies. The GLC has mounted a campaign to provide more space because of the oumber of Loodoo as a consequence of the own money oo providing sites. A report to be submitted to

the GLC's ethnie minorities committee this week estimates that there are at least 500 gypsy families camping oo unauthor-ized sites in Londoo and therefore liable to be moved on. There are, by contrast, only 383 official pitches.

Councils have a duty to provide pitches or gain exemp-

Environment under the Caravan Sites Act, 1968. The GLC has offered land to boroughs for the travellers, but says the offer has been rejected.

It says it has also been told by Mr Neil Macfarlane, Uoder-Secretary of State at the Department of the Eovirooment with responsibility for travellers being drawn to central gypsies, that it cannot spend its

fought a three-year campaign over the site's health hazards, and vandalized lavatory blocks.

This culminated in February in a series of public health orders against Hammersmith council. But the council says the gypsies themselves cause many of the problems.

The gypsies, who want another site, sought help from the GLC last year. The GLC, which agrees the site is a health risk, has already agreed to one extension. However, last week, for another year Hammersmith will not take any action and we could all be in the same position

A spokesman for the ethnic Mr Kenneth Livingstone is chairman, said the GLC would including accumulations of oot evict the gypsies from the ruhbish, bad drainage, fire risk site but added: "If Hammersmith pull out and switch off powers whatsoever to provide the travellers with electricity. toilets and washing facilities, rubbish collection or anything

He told the union's annual nizes only the ABS Probation strike attacked

Lord Harris of Greenwich, president of the breakaway National Association of Senior Probation Officers, has criticized "extremists" who he said leading Wednesday's

But Mr Harry Fletcher, assistant general secretary of the rival National Association of Probation Officers (Napo), which has called the strike, immediately countered, saying.
I wish I knew who these extremists are. I have seen oo signs of any extremism. On the contrary, the association is led by people who are of the centre or centre left."

He expected between 50 per cent and 60 per cent of officers to strike. About 1,200 would take part in the London demonstrations and about 3,000 to 3,500 in protests nationally against cuts in

There was, he said, the leaders must be told that it was political views of any individ-enisode of the Napo banner on for Parliament to make the nal."

Hearing begins today on risks and benefits of injectable contraceptive

By Pat Healy, Social Services Corresponde

controversial injectable contraceptive, Depo-Provera, begins in London today. It will be the first public hearing on the risks and benefits of a drug to be held under section 21 of the Medicines Act, 1968.

The hearing has been demanded by Upjohn, the American manufacturers, to appeal against the Government's desisinn to refuse a product a licence for the drug's long-term use as a contraceptive. That decisinn was taken by Mr Kenneth Clarke as nne nf his first acts on becoming Minister nf Health, against the advice of the Committee on Safety of

A panel of legal and medical experts will take evidence for a week befire deciding whether the risks of using the drug nutweigh the benefits of a contraceptive widely acknow

ledged to be effective.

If the panel accepts the arguments of the 15 experts Upjohn is intending to call to give medical and scientific evidence its use will be recnmmended as a lnng-term

But if it accepts the written arguments produced by the main opponents, the Coordinating Group on Depo-Provera, it term use only, for example to prevent pregnancy after vacci-nation against German measles.

Under the rules governing the hearing the opponents have been allowed to provide written evidence but cannot appear as independent witnesses. That has angered the coordinating group, which brings together a wide range of women's health groups. The health groups argue that evidence from women using the drug is crucial because many tragedies have occurred through inadequate drugs re-

Upjohn appears to be equally angry that the group has been allowed to give evidence at all. Last week the company published a response to the group's written evidence, dismissing it as "anecdotal case reporting which should not be accorded weight with scientific evidence. Nevertheless, Upjohn also in-cludes anecdotal case histories from satisfied women users of

Depo-Provera. The company acknowledges some of the side-effects of using the drug, but argues that they are acceptable compared with the risks of becoming pregnant.

Evidence collected from 88 women by the group suggests that in addition to disruption of the menstrual cycle and disturbof cancer. The group is also concerned that Depo-Provera has been prescribed to women whn have nnt been fully cological Pathology, Manch informed of the associated risks. University.

The Committee on Safety of Medicines concluded that Depo-Provera should be approved for women for whom other methods of contraception were inappropriate, but Mr Clarke said that the possible

risks outweighed the benefits.
He said the drug might be given to mentally handicapped women who could not give informed consent, and it could be used for women having

The police Bilk 1

Officers' wider powers are at centre of concern

The controversial Police and Criminal Evidence Bills which gives new, widerunging powers to the police, will shortly emerge on the floor of the Commons for its final stages before entering the House of Lords. In this three part series Frances Gibb looks at the Bill in detail and the change made to it after changes made to it after widespread criticism.

The Police and Criminal Evidence Bill, the main plank of the Government's law and order policy, will bring in wide range of new police powers to stop, search and arrest; new procedures for holding and questioning suspects and a new police complaints proceedures with provision for police community consultations.

Much critisized in the Commons for not providing safeguards for suspects' rights to balance the new police powers, it could also receive a bumpy ride in the Lords,

The Bill has come under fire first for what it omits. Based in part on the report of the Royal Commission on Criminal Procedure, it omits two of that body's main proposals: an independent prosecution sys-tem, separate from the police interrogations. Both are now under review by the Home

The Bill's central concept, and trigger for many of the powers, is the "serious arrestable nffence". That is an nffence that police, or a magistrate, deem sufficiently serious to justify use of certain powers. After much criticism, the Bill's approach to this has

seriousness of the offence, backed by guiding factors such

the country.

However, the President will doubt whether this will ever be be met with considerable possible.

However the most contentious issue at present is the covert aid which the US is giving to the Nicaraguan con-tras. This is not just because the assistince is felt to be in violation of the spirit if not the letter of the Boland Amendment (which forbids aid to guerrillas "for the purpose of overthrowing the Government of Nicaragua") but also because

it reeks of similar secret operations in South-east Asia during the 1960s. Such small beginnings can quickly get out of hand and culminate in huge US iovolvement.
Whatever its deep-felt con-

cerns, however, Congress will be cautions in its reponse and will probably not let the President go away empty-handed. Legislators are aware that if they are seen to be tying the President's hands too tightly, be could lay the blame squarely on Congress in the event of El Salvador being overrun by the guerrillas.

So it seems likely that Congress will ultimately agree to most of what the Adminis-tration is asking to terms of increased military assistance for El Salvador, although probably with some conditions attached But Coogress will try to restrict as for as possible clandestine US activities in and around

FLY THE LEADE

BOEING 737-300

The most popular jetliner in the U.K. today is the Boeing 737. Seven U.K. airlines will carry 12 million passengers in 1983 alone. Forty million have flown this fleet since the first 737 was introduced. Over this period of time the 737 has compiled the best on-time record of any major fleet. Soon the even larger 737-300, with greater fuel efficiencies, more passenger comfort and even quieter performance characteristics will be available. It's one more way Boeing is working to keep air fares one of the world's best travel values.

Killer's accomplice to go to electric chair that took 10 minutes to work

The seventh American to die in the electric chair since 1976 was put to death on Friday night. It was grotesque. It took three separate jolts each of 1.900 volts over a 10-minutes period to kill the convicted murder, John Louis Evans.

The affair has raised fresh controversy over the death penalty and provoked new calls for its abolition.

Evan's lawyer, Mr Russell Canan, prison officials and several journalist were at the execution. Evans was wearing white prison clothes when be was strapped into the Alabama electric chair. A skull cap fitted with electrodes was placed on

The electrode on his left leg burnt through and fell off during the first 30-second jolt. Prison guards repaired it and reattached it after doctors said

he was not dead.

A second 30-second jolt was sent surging through his body. A puff of smoke and a burst of flame crupted from his left temple and leg. Doctors put stethoscopes on his chest; but said they still were not certain

The ufficial observers became

Mr Canan then appealed to Evans's execution and had the prisoner commissioner in already successfully electro-Holman Prison for clemency cuted 154 Alabama convicts. from Governor George Wallace Evans, he suggested, might have and shouted that the penalty was "cruel".

There was an open line from the prison to the governor, but there was no response to the

The third jolt was given at 8.40pm and four minutes later Evans was officially pro-nounced dead.

Mr Canan said: "John Evans was burnt alive tonight the state of Alabama... tortured tonight in the name of vengeance and in the disguise of justice. He added yesterday: "I bope that the method of execution

will inspire the complete abolition of the death penalty because ritualized murder is barbaric in any form". It was disclosed at the

weekend that the state plans to use the same electric chair to execute Evans's accomplice. Wayne Eugene Ritter, on Friday

soldiers .

The desert army glad to stay forgotten

From Christopber Walker, El Gorah, Sinai

As we approached the acres nf uneven, weed-filled rubble, all that remains of the once thriving Israeli settlement of Yamit, two Egyptian soldiers came running with fixed bayonets on their antiquated rifles pointed menacingly at our stomachs.

almost lazy atmosphere that now prevails in Sinai a year after the final Israeli withdrawal that all they wanted was to be photographed and to some elementary English.

colourfully dressed group of Bedu children scavenged in the hulldnzed remains of the Jewish "dream city", which had obviously remained untouched in the 12 months in Egyptian hands - and where, with a bitter irony, the synagogue is still the nuly structure still standing.

The same encouraging lack of tension has marked the first year of the Multinational Force and Observers (the MFO), the experimental peacekeeping army put together by the Americans to monitor the Camp David treaty after Russia had vetoed the idea of a United Nations force.

It is a tribute to the 10nation force and its Norwegian commander, General Fredrik Bull-Hansen, that in the period leading op to today's first anniversary celebrations it has become known as "the forgotten army" whose activities are rarely reported either

The smoothness with which the MFO now operates contrasts with the controversy surrounding its birth, with many countries reloctant to earn Arah disapproval by joining and others suspicious nf America a motives in using troops from the crack 82nd Airborne Division to form the bulk of its predominant contin-

ment on withdrawal was "the minumm condition" for the success of the Shultz tour. Mr Shultz is scheduled to confer with President Mubarak

tomorrow and then fly on to Israel on Wednesday on the seconmd leg of his tour. Mr Mubarak found the celebrations in El Arisb a little more lively than be had expected as some of 300 local people who had gathered to

meet him began to protest at the lack of facilities provided for them since Egypt recovered the territory. Because of the heck-ling Cairo radio broke off its live coverage of the proceedings, but not before the President had been heard to say: That's enough for the televison and the press" and ordered foreign correspondents out of

the local Provincial Assembly. who had asked if he could air "certain issues and certain demands" that he had come for a celebration. "There is no room whatsoever to air only demands. This is not the place" the President said as a heckler shouted: "Our palm trees have died".

The heckler was dressed in Bedu robes to emphasize the complaint of some local people that "The authorities treat us like nomads, whereas El Arish has been settled for 5,000 years.

Nevertheless, the Presiden agreed to let people air their grievances once the press had en escorted from the room.

somewhat implausibly, that live radio coverage of the proceed-ings had never been plaumed because it was an occasion for discussing problems, not for

Israel holds back on unilateral pullout

From David Bernstein, Jerusalem

The Israeli Cabinet yesterday discussed withdrawing its troops unilaterally to a 45km reports. (28 miles) security zone in southern Lebanon, but did not take a final decision pending the arrival in the Middle East this week of Mr. George Shultz, the United States Secretary of State.
The proposal for a unilateral Israeli-withdrawal to southern Lebanon's Awali river, which was placed before the Cabinet

by Mr Aharon Uzan, has been gaining support as the nego-hations with Lebanon have remained deadlocked and Israecasualties have continued to Jerusalem is placing consider-able importance on Mr Shultz's

visit however, and was not prepared to prejudice the outcome of his mission by taking any hasty action. But there is a clear feeling that there is running out, and that if Mr Shultz is unable to persuade Lebanon to be more forthcoming on Israel's security demands, some form of uni-lateral action will be unavoid-

Fanfani seeks to avoid blame From Peter Nichols. Rome

Senator Amintore Fanfani's coalition Government will almost certainly resign within the week although a formula has yet to be found for allowing a general election without appearing to blame the Government

itself for falling apart. The Administration has been doomed since the Socialists, the second largest partner in the four-party coalition after the Christian Democrats, announced on Friday that they intended to force an election by ners, they wish to avoid being seen as solely responsible for

the dissolution of parliament. Senator Fanfani himself is understandably angry at the highly improbable. conduct of his principal allies. He was called back to the prime the Senate on Thursday about

ministership on December 1, after 20 years, and gave up the comfortable post of the Senate's presiding officer. Five months later, be is about

to lose office but he feels the period was not without success, including a long sought agree-ment on labour costs, and approval of the budget estimate. He had hoped for further achievements, but they are now denied him. All he can now do is to attempt to defend his Government's good name withdrawing their support combined with an effort to However, like the other part- arrive at a preelection agreement between his own Christian Democrat party and the Socialists in the next Parliament, Such an agreement, bowever, looks

Senator Fanfani will address

the Socialists decision to abandon bim. He has to wait because Monday is a public holiday and on Tuesday and Wednesday Dr Helmut Kohl, the West German Chancellor will be in Italy and on Tuesday evening the Schate has to vote finally on the budget estimate. Signor Fanfani should there-

fore be ready for his call on

President Pertini on Friday at

the latest to inform him of his

Government's resignation. He

is not expected to wait for a Important local government elections are due on June 26, and the Socialists feel that voting in the general election should take place on the same day. The Christian Democrats differ.

Difficulties of Maoris given royal sympathy

From W. P. Reeves Wellington

It was a day steeped in Maori culture aand tradition for the Prince and Princess of Waless vesterday when they were entertained at Te Poho O Rawiri Marae io Gisborne. Under cloudless skies representatives of tribes and schools of the east coast presented hakas and action

songs on the lawns in froot of

the carved meeting house. Responding to spe ches of welcome, the Prince began with a greeting in Maori, a gesture which delighted the crowd. He went on to talk about the problems of adjustment and adaptability in a complex and technological society, difficulties of special relevance to the Maori people, particularly the young as they moved from traditional rural areas

Today we live in an era of bewildering change which makes adaption to modern conditions extremely hard", the Prince said. "Developments in technology and in industrial methods, together with the spread of urbanization and all that that means, have helped to wrench us from the sheet anchor of our past, from culture and traditional skills and those things which help to provide us

The royal visitors moved freely among the crowd before meeting tribal elders inside the meeting house.
Prince William took the

spotlight on Sunday. Making his first publi appearance of the tour, t 10-month-old Prince starred before the 100 cameras of the press corps. Dressed in a emon shirt and apricot rompers he crawled, stood, gurgled, smiled, said something that might pass for "Dada", and otherwise delighted his parents any political role for himself.

Zia 'sallies forth into political arena'

From Hasan Akhtar

In a bylined front-page news analysis yesterday the editor of Islamabad's only English daily, The Muslim, said General Zia ul-Hag, Pakistan's military ruler since July 1977, has embarked on a three stage political plan leading to his emergence as an acceptable political leader by March 1984. Pakistan has been ruled for most of its 35-year

history by Army chiefs.

Mr Mushahid Hussain, the editor, recalled General Zia's recent "Civic Jalsas" - another name for restricted public meetings - in the interior of Sind and at Gujranwala in the heartland of the Punjab, and observed: This is definately a new style of politics which the President has embarked on after being firmly in the saddle for six

"The President seems to be seriously entering the political arena as one of the options available to him in the near

future. He said General Zia had decided to discard the intention to give the country a khakicoloured constitution - one that would provide a permanent constitutional role for the armed forces in running the country

The editor believes General Zia has been buoyed in his political ambitions by his foreign visits since the Soviet intervention in Afghanistan, including his meetings with the leaders of the United States, China and the Soviet Union as well as by "the improvement in ties with India". Several other political ob-

servers do not agree, bowever. They assert that General Zia will not quit his "military constituency", and will not risk

Twists in Poland's politics of

food From Roger Boyes

Warsaw
Food is high politics in
Poland in the past when food prices have risen, regimes have fallen and sometimes it seems as if there is more political volatility in a meat queue than in the Communist Party Central Committee.

Small wonder then that

Polish and Western observers have been both fascinated and confused by the latest twists and turns in the politics of food. Mr Jerzy Wonecki, the much respected Agriculture Minister. has resigned because of fatigue. A new acti-inflation programme entails the taxatioo of farmers. Warsaw bakers complain that unless they can raise the price of bread - kept artificially low for political reasons - they will go bankrupt. Rumours abound of a reduction in the meat ration from next

What is going oo? On the surface the food economy seems to be ticking over adequately indeed supplies appear to have

improved in the past year. Western estimates of grain productioo suggest that the picture has not radically changed since last year's record crop, thanks to a mild winter and early spring. Based oo winter sowings. Poland should produce 19.8 million tonnes of gram compared to 21.2 million

last rear.
But problems are tucked away behind the figures. The White persuade the farmer to sell more of his product to the a small fuction of their west a grain crep was actually given to the state (and therefore the state

The farmer does not trust the Government and he does not trust the doty. He has plenty of money at present but oothing to speed it on - there's not enough fertilizer or machinery to soak up his income. «

The reason why Mr Wojtecki resigned, informed observers. say, is bound up with this dilemma. The Government has set itself two main priorities

SPECTRUM

When applied to sport, the frozen moment of a single photograph can analyse the psyche and anatomize technique. Even the humblest weekend player can learn from Borg's footwork and Mrs King's balance. These words and pictures are from a forthcoming book by Catherine Bell, the editor of Tennis magazine, and the sports photographer Roy Peters

Passing shots

John McEnroe

Wimbledon 1982

McEnroe is improvising a volley. His style is no style. It's instantly recognisable, and as hard to grasp as all those dinks and chips he's always hitting. He dangles the racket, drags the head lower than his wrist, waves it away from his body, jumps at the ball, does all the things you're not supposed to do. McEnroe makes nonsense of the usual geographic descriptons of grips – Eastern, Western, Continental. He holds the racket whichever way he wants. His grip here is a little higher on the racket handle than textbooks would advise, hut this gives him extra feel and flexibility -

"wristiness" In spite of his vocal aggression. John's always heen a gentle player, a deflector of volleys and precise placer of ground strokes. He's 5ft 11 in tall and weighs around 165 pounds, but he often gives an impression of frailty. He's prone to injury, a young man whose physical and mental condition are interrelated and fincly tuned.

Chris Lloyd

Wimbledon 1982

Left: Everything is excluded from this portrait of Chris Lloyd. There's no ball, no racket, no sense of place. It's difficult even to say which stroke is about to be

Chris is shorn of glamour, nearly the pure athlete that part of her always wanted to be. Her hair's damped down with sweat, her face is boyish. The modest earnings are a gesture to fashion. to the well-groomed modern woman she'll change back into in

the dressing room.

Mrs Lloyd looks like herself as a voung girl; those wide and steely eyes would fix an opponent and will the victory. For several years almost all women players were afraid of her.

Growing up as a famous person Chris developed a personality at once reserved and sociable, vulnerable and calculating, introspective yet immediately affable. She can express a cynical wit, and in the next breath, a cosily conventional sentimentality.

She likes to be called "Chrissie".

an incongruously dainty namefor a woman so fundamentally

Tennis is a game of recurring crises – again and again you'll see this fearful look in a player's eves as the future hangs on a split

Above right: Chris invented this backhand drive. Her position calls to mind golf, or cricket. Her balance is perfect - right leg

braced against the body rotation following through high and controlled. Unlike Jimmy Connors or Borg, she doesn't release her left hand at any time during the shot. This is because her whole manner of execution is more static, and there's no room for improvisation in movement Mrs Lloyd usually dictates the tempo of play so well that she is seldom caught having to change her mind at the last minute, so thousands of times. She won many tournaments because her hackhand was absolutely reliable; she learned new stroker and different strategies but it was always there to fall back on. Every great champion has a certain way of hitting the ball which is a signature. This is how Chris signed herself into history

Bjorn Borg

Billie Jean King

Birmingham 1982

If all the tennis players who ever lived were wiped from human memory and only Billie Jean King remained, you could reconstruct from the perfection of her technique the complete competitor.

Here Mrs King is running into a Volleying is the heart of

aggressive, intelligent tennis, and no one, man or woman, ever volleyed better than Billie Jean, or ever understood so well the aesthetic and tactical possibilities of this beautiful

Today the arid strategies of topspin have forced everyone back to the baseline and taken

Martina Navratilova

Wimbledon 1982

Miss Navratilova is on her way out of the Centre Court after beating Chris Lloyd and winning her third Wimbledon singles

The flowers are an equivocal intrusion. They remind us that the woman athlete remains a

Most of her life Martina has been caught in this dilemma, for in every respect hut sheer muscle power she plays tennis exactly like a man. Our culture won't give her the freedom to do this unless she makes regular symbolic gestures asserting her femininity. So she dyes her hair blonde andwears make-up.

Once on the tennis court Miss Navratilova must forget all these gestures and try to win through strength and intimidation.

Wimbledon 1981

Above right: Alone, Bjorn Borg changed the way tennis was played during the 1970s. He didn't invent topspin, and he wasn't the first player to use a double-handed grip, but no man had used either of these techniques to such effect. Here, Borg is hitting his twobanded backhand on the Centre Court at Wimbledon. Experts said his style could never adapt to grass, which is slippery and Borg won Wimbledon five times between 1976 and 1980, proving

subdued. All Borg's wizardry is in this picture Precise footwork has brought him a perfect position to

that for a man of genius the

surface only exists to be

meet the ball early; the high. straight backswing will allow him to hit up and over the ball with heavy spin and good disguise.

His concentration is perfect. Those close-set eyes in a somewhat beaky face give away his secret weapon. Many other tennis players have copied his style; no one can share the rigorous application of his mind. Around his neck and on his wrist Borg wears the gold chains which are obligatory personal adorational for the modern male. tennis professional, but on court he is without frivolity, immune

Above left: Borg hasn't missed the ball here. He's swung it away and closed his eyes. The power of impact and the need for

to distraction.

hand from the racket; his legs are caught half way into that stcp. which will bring him around 60 the baseline to see what's happened to his shot and to. prepare for a reply. Although Borg's eves are shut he's always known where the ball is. This picture shows very clearly the points in Borg's physique which made him the ideal tennis player, broad shoulders, muscles bursting out of his shirt on his serving arm, narrow hips, In 1982, after 15 years of constant tennis, Borg left the game suddenly. He never publicly discussed his troubles. he never complained. He simply became indifferent. The mastery. the elemental dominance, will never come back.

Ivan Lendi

Paris 1982

Ivan Lendi resembles a mariocette temporarily detached from the puppet master. He's about to strike his fearsome forehand on the loose red clay of the Stade Roland Garros. Only a man of great strength can hold the racket like this. Lendl's Continental grip almost breaks the wrist coming under and over a high bouncing ball and whipping it with topspin.

Lendl's personality invites persi lage: he's proud and inflexible, a high-cheeked Slav from the industrial heart of Czechoslovakia. Justice dictates that this sometimes pompously upright youth should be caught by the camera in a most ridiculous

Passing Shots will be published in paperback by Frederick Muller on May 26, price £4.95

The greatest little railway in the West

mile or two in length, the line from Padding-ton to Old Oak Common runs through some of the most interesting industrial scenery in London. Jos Pinter's Biscuit Factory, the Nu-Quik Tyre Change Depot, The Harrow Road Jeans Mart, Albert Spandau's Wig and Mask Theatrical Second-Hand Exchange - all these line the route, as a memory of Britain's everchanging role in world affairs. They are all now, unfortunately.

The line was originally built to take workers from their homes in Paddington to their places of employ at Old Oak Common, or vice versa, and was planned by Isambard This is the 9,15 Inter-City to

Little | Kingdom Bruncl as part of his grandiose scheme whereby travellers could go hy train 10 Bristol, empare in the Great Britain to go to America, and travel on by the world's first all-metal airship, the Royal West-ern, to the town of Brunel, Pennsylvania, which he planned as the world's first steam-powered civic centre.

At Paddington Station, built by Brunel himself, with the help of 40,000 Trishmen, I inquire the plaform for the train to Old Oak Common A friendly Caribbean employee points, and moments later I am sitting in the comfortable purlieus of a first class carriage, still stamped BR in memory of Brunel Railways.

As we move out of Padding-

MOREOVER ... Miles Kington

Many passengers, 'ike myself, start up from their seats at the discovery that we are on the wrong train, and moments later ss Old Oak Common at about 60 mph. It appears that it is now the custom to announce the destination of the train after its departure, to promote ticket sales among those who are taken hundreds of miles out of their way. But philosophically I sit down to enjoy the scenery of the line which was driven by Brunel with fanatical energy through such suburbs as Ealing West Drayton and a place whose name I did not catch, hut which boasts the Second-Hand

Piano Foundry, perhaps built by Brunel himself. Near Reading I am honoured

Bath Spa, stopping at Reading. himself, a Welshman in spec-Thank you. Yes. Ha." tacles who informs me that a tacles who informs me that a Common does not entitle me to sil where I am Brunel's tremendous eye for detail is not dead yet. I hand over a cheque for £11 and am resituated in the second class, where I take the opportunity of studying my fellow passengers.

They seem to fall into three groups. Those reading the Sun-newapaper and hitting their children over the head when they become noisy. Those listening to popular music on their headphones, which allow the drum beats to be heard two carriages away. And those business persons studying docu-ments called Export Market Feasibility Studies.

Near Didcot, whose museum now houses many of Brunel's have been smoked grey and

old engines, a new voice greets us over the loudspeaker. "Hello. Um. This, Is the Buffet extendent The buffet is now open in the middle of the train for the sale of light refreshments, snacks and drinks, Thank. You." Immediately, all my neighbours arise and form a

queue stretching for three

carriages.
At the entrance to each carriage there are automatic doors which open and close at one's approach. The one nearest to me is kept permanently open because a young traveller has placed his rucksack on the spot which controls the door, resulting in the most tremendous draught. I go to engage him in cooversation and he tells me with rough good humour what I can do with myself.

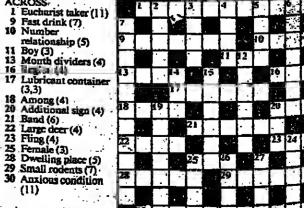

We are now going through the most tremendous scenery which it is just possible to make out through the windows which

adorned with dust, no doubt the very same dust excavated by Brunel's men these many years an field of elder ulde thes more fields, and, round the corner, different fields, though very similar at first sight to the previous fields. Great country

for field-lovers. Very soon we arrive in Bath Spa, an ancient country town hold by Brunel for the comfort and relaxation of people escaping from London to take the baths, which have now been closed. I enquire of a friendly employee how I should reach Old Oak Common Why, sir, he says, you must go to Padding-too and then change. He indicates a train lying waiting and pretty soon I am aboard and heading for, as it turns out.

Weymouth, the seaside town built by Brunel.

FINDINGS

A weekly series reporting on scientific research: EXPLORATION

Adudadus do verynicely in Greenland

Along the cold fringe of East Greenland, any young Briton is likely to be known to the locals as adudate. The term, which is entirely complimentary, dates back to the British explorer Gino Watkins, who hunted among the ice floes in these parts, introducing himself to the locals with a formal "How do you" do?" The greeting was turned quaintly into a noun and has stuck ever since. Since Watkins's day (he was drowned after failing out of his was crowned after failing out of his kayak), there have been a number of adudadus from the British School Exploration Society and other expeditions undertaking projects and exploring the same magnificent arctic wilderness for bona fide scientific reasons.

The other day, as my dog team pulled to a panting half in the centre of a sealing village north of Angmagsalik, I met a group of wind-bronzed young adudadus led by Mr Ray Ward, economics teacher at Kingston Grammar School, They had been out on the far glaciers and snow-choked valleys for several weeks measuring the depths of snow to discover the potential for hydro-

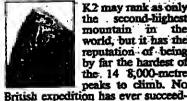

It must have been clear to them that lifestyles have changed in Greenland since the innocent days of Gino Watkins, and the honest Greenlander might now reply "Not very well, thank yon" to his polite adudadu. Brigitte Bardot and a host of other conservationist-minded folk have, they feel, ruined the inter-national market for seal skins, which is the mainstay of many a local economy in Greenland. Alcoholism is a severe problem, and m a community, where rifles are ascommon as walking sticks, the mirder rate is climbing alarmingly. There is some political pressure to return "to the old values", but the era of the video, of smart fashion and the cordless telephone is not

Taking to the air 🔔 A new way of explor-

ing hostile ground covered by ice and cut by fast-flowing rivers will be tried out this summer by an expedition that plans to combine the merits of canoes and micro-light-aircraft. An international team, led by Mr Paul Vander-Molan, a British research engineer and widely experienced canoeist is to make a south to-north crossing to Reliand manigating the full length of the Jokulsa River that pours from the Vatnajokil

The explorers will arrive in July at the point on the Iceland coast where the first settlers set foot in AD 847. From a lake in the centre of the glacier, kept from freezing by geo-thermal warmth, the powered hang-glider, fitted with floats and flown by Mr Gerry Breen, will survey the surface of the glacier, while chre explorers penetrate beneath the tec-Then follows a descent into the crater of the Astria volcant, and a fast trin of the Askja volcano and a fast trip down the wild waters of the river. about the wild waters of the trivi-shooting a 178-foot-high waterfall by attacking the caroes to the undercar-riage of the micro-light aircraft. "The neutical will become the aero-nautical . Mr Vander-Molen confidently declared. Finance for the project is coming from Britain and France, and films will be made.

Crusading in a fantasy world

Iris Murdoch publishes The Philosopher's Pupil on Thursday. It is her twenty-first novel. Her first Under the Net was published m 1954. The Sea, The Sea (1978) won her the Booker Prize for

First we were to meet in Steeple Aston. Her place, Then we were to meet in London. My place. Next there was the question of a French trip. Not, him now as so much rather nasty for me, unfortunately. Finally, stuff which he had made up out of we compromised on Salisbury: nothing Artists have beauty and By kind permission of Mr and nature at their side but a Mrs. Bayley's hostess for the philosopher must contain his weekend, the widow of a dis-world inside his head until. it

and a Fellow of St Catherine's College, Oxford.

I was sorry to miss Steeple Aston. In particular, the romantically wild garden through which John Bayley draws paths with a lawnmower. I would have liked to see for myself the greenhouse wherein sits the tank in which Iris Murdoch luxuriates, watched over by a classical bust.

Water is a pervasive theme in many of the Murdoch novels. In early books such as The Bell a lake casts an almost magic presence over the action. In The Sea, The Sea, it is even more-

central. In The Philosopher's Pupil much of the action, including the ghastly denouement, takes place at a once

As it turns out, the house in Salisbury is built, English cottage turned Venetian palazzo, right over the deep waters of the River Avon. Professor Bayley regrets that they have not yet swum there. But the regret is tinged by confidence in the future. Sitting above the fiercely swirling water, Iris Murdoch looks a very pretty person. Huge bright blue eyes and child-like complexion. A

china cat. She wears a blue and white blouse with a frill. Not the expected philosopher's uniform. Iris Murdoch was for 15 years a lecturer in Philosophy at St Anne's College, Oxford. She has published three books of philos-

ophy. Sartre, Romantic Rationalist, The Sovereignty of Good

and The Fire and The Sun

Two informants had tried to give me a descriptive preview. "kindly, like a philosopher and not at all like a wicked authorperfect reflection of her novels. mous Bosch - the very nicest China and, indeed, in England on one's image of a philosopher. we should learn to accept the The Philosopher of the new dark side of our natures. She says

philosophy is a mug's game. There were not even any books any more. All the books were inside him now Even the familiar act of reading had been taken from him. It had been his fate not to be interested in anything except everything. If he could live another hundred years, could time reverse its sense and lead him gently into a precious clarity? As it was, he saw through every notion that he had ever had the 'insights' won by a. sustained asceticism appeared to

The words echo Miss Murdoch's reported view that philosophy is almost impossibly difficult. The Iris Murdoch who sits above the waters of the Avon denies any relationship to her tragic catalyst: (The only-character Miss Murdoch admits to drawing

Unless one is a genius, philosophy is a mug's game

from life is the very human dog in her latest book.) Philosophy is difficult, she admits. Particularly her sort which does not divide the intellect from the will. Much recent philosophy sees things of the intellect as "clear and hard and factual" while the will and the emotions are "peripheral and unclear" and that is where the religious instinct is presumed to lie. She says rather regretfully, "I've gone along my own road. I'm really very separate now from Oxford philosophers, which is a pity in a way. . . The excitement of discussing philosophy has passed out of my life..." Not however out of her mind, nor out of her books, nor even. as a matter of fact, entirely out of her life.

In November, 1982, Iris Murdoch gave the Gifford Lectures Edinburgh with the title "Metaphysics as a guide to

It is inevitable that any discussion with Iris Murdoch on philosophy soon leads to what would generally be called a discussion of religion. Having discovered that I am "croyant" a certain freedom seems to enter her conversation. She does not believe in God, "a personal God", which is why Buddhism has such an appeal for her. She does believe in "spiritual change". Christ is no more than One had suggested someone a prophet. But the Christian mythology is," in her opinion, very important as "a mode of ess". The second saw her a understanding. The religious dimension is essential. Here she like a character out of Hierony- bewalls the lack of religion in character". On the whole I am now. She cites as very dangerous inclined to agree with the first the modern notion "that good estimate. Though it must depend and evil can be blurred" and that novel is a man. John Robert that "the absolute difference of Rozznov. He has, in his creator's good and bad" is almost a words, "despaired of philos definition of religion. She picophy".

the property of out between these things. So

To me this brilliantly de-

scribes the effect her novels produce. The characters seem to walk on a tight rope, with only darkness below and no particular end in view. Yet sustained by the very act of staying on and, as Miss Murdoch says, constrained to be always in movement. Our conversation, therefore, moves to the novelist. Though in a sense any attempt to separate novelist and philosopher is

But first there is an interruption in the form of a cheerful John Bayley appearing out of the rain. He has just bought an excellent tweed cap which his hostess later reveals as a product of the Bayleys' favourite shop - "Good as New". We stand up to tinguished artist.

be unified, clarified until ne stretch and per attributed lines.

It is Murdoch, married John can become a god or else the soaring confidence of the bayley in 1956. He wastin the Philosopher's Pupil.

One of the most pleasurable p. 130

aspects of reading Iris Murdoch's novels is the feeling of confidence she inspires. The voice is so sure, instantly recognizable in the way Pinter or Powell are recognizable. She acknowledges this, though gently pointing out that she's had a few years to work on it and also warning of the danger of complacency, the barrier to progress. She brings to our discussion a wave of en-thusiasm and, yes, enjoyment in the battle for creation. None of the fashionable anguish here. She rather gives the impression of a well-equipped warrior going into battle with blood up and determined step.

The novel is, after all, her great love and has become her life. The traditional novel, that is. She describes it as a "hall of reflection", a great huge place, "a happy form" which can en-compass every sort of comedy, of tragedy. Shakespeare was the first novelist... or perhaps Murasaki Shikiby, who in the eleventh century wrote The Tale of Genji, the great Japanese masterpiece, should be allowed first place. This attitude makes clear why her books cover so many pages.

Of the last three novels by Iris Murdoch, none falls below 500 pages. The Sea, The Sea is 501 pages. Nuns and Soldiers is 505 and The Philosopher's Pupil is

Critics, even those essentially admiring, have suggested that editorial work would improve the overall impact. But you need volume to fit in all the different aspects of life, as Miss Murdoch describes life. She sees herself as belonging to the Anglo-Russian tradition. She reads the great nineteenth century novels over and over again - "They feed one". She has little time (perhaps literally) for contemporary fiction. But she feels it is in an "interesting" state, the writers unnecessarily concerned with technical problems when all they need to do is "relax" and learn the great form that is there waiting for them. Perhaps her critics would feel she, herself, is too relaxed. Certainly there is a modern brand of impatience which does not wish to chew over images and character in the Murdoch manner.

I find her enthusiasm exhilarating, making me appreciate what an exciting teacher she must have been. (A clever and ebullient friend of mine attending St Anne's in the 1960s had always painted a happy picture of their tutorials together.)

Humbly offering the information that I have written one novel to rival hers in length and another inspired by the story of Anna Karenina, I am rewarded by an encouraging "Well done!" Novel writing, it is clear, is a matter of constant hard work and hard thought. Inspiration is another matter altogether and cannot be profitably discussed. "Hard reflection" is the way

she describes the early planning stage for a new novel. By the time this stage is over, every chapter is created in note form, every character moulded. And, as a crowning nod, given names. Characterization and the shifting relationships between a fairly large cast of characters are the meat of Iris Murdoch novels. She likes "a wide lens", distrustive the meating the meating the meaning the same statement of the meaning the same statement of the same ing the novelist's tendency to concentrate on one or two characters whose point of view thus dominates the whole work. The Philosopher's Pupil, for example, although pivoting on the relationship between master and pupil; also moves its axis on to other characters. Indeed, the book is some way forward before it becomes clear that George, the pupil, has no worthwhile existence outside the sphere of his teacher, John Robert Razanov. And it is only gradually that John Robert himself takes command of the centre of the stage. Other themes, notably the death of one child set against the continued existence of his cousin, are allowed to seem more important than they turn out to be. Again, a kind of delaying

most modern writing, in which an immediate impact is sought. But this is part of the Murdoch game. The eye of perception alters continually, subtly. There are tricks, red herrings. Even the God-like author does not get it right all the time. A described action may be modified by the word "prob-ably". Besides this, the flow of the story is often interrupted by a narrator. Miss Murdoch says this is to make it easier to do some moralizing and also to give another perception to the story. The Sea, The Sea is notable for an enthralling opening section which is immediately denied:

tactic which goes counter to

"I had written the above. destined to be the opening paragraph of my memoirs, when something happened which was so extraordinary and so horrible that I cannot bring myself to describe it."

With such teasing in mind, it is interesting to hear Miss Murdoch talk admiringly about the virtues of the "straightforward" novel. My suggestion that her novels are as straightforward as an eel is countered with the advice that "There are a hundred ways to tell a straight tale". And it is absolutely true that a coldblooded analysis of most of her stories (very difficult to achieve) will reveal a surface narrative which could be in the old Boots lending libraries. However, she has chosen to uncover the underside of her stories, the dark secrets and obsessions which motivate the characters. This is where the oddness that people pick out as the Murdoch characteristic comes from. "The dramas of the human heart" make the central matter of her books. she says. And the human heart is notable for its passion for 'secrecy.

Much of what she uncovers is, unsurprisingly, sinister and frightening Iris Murdoch's preoccupation with the battle changing role of women? It between good and evil ensures sounds terribly dull, even to my

that there are always unpleasant figures hardly rising above the ever-threatening darkness below. Yet there is hope too. The struggle continues. Battered and bruised, the human spirit fights

In simple terms of readability, Iris Murdoch has two great gifts. She has a superb ear for dialogue, treating her conversationalists like dualists wielding words like rapiers. Backwards, forwards, in and ont. It takes a supple mind to bring off several pages filled with nothing but the spoken word. The other gift is the unfashionable one of description - both of geography and character. She is not afraid of adjectives and will sometimes use a whole row of them without self-consciousness.

"Earler Alex had again seen the pretty vixen reclining while four fluffy milk-chocolate brown cubs with light blue eyes and stubby tails played tig on the lawn"
"THE PHILOSOPHER'S PUPIL"

This visual concern was doubtless why The Bell was chosen to be turned into a recent television serial. And, indeed, why it worked so well, despite the very untelevisual psychological complications of its characters. Broaching the subject of description with Miss Murdoch; I am met with a lovely smile and "I like descriptions. I like places.

Our own visual imagery has now included a swan on the river, hailed in a friendly way by Iris Murdoch as "Old boy". This for some reason reminds me of the subject of children. The Bayleys have none, "Alas!". And Iris Murdoch was berself an only child, enjoying a "perfect trinity of love" with her mother and

There are a hundred ways to tell a straight tale

father. Elswhere she has said that her lack of siblings led her towards creating characters. Her fictional child - they usually come one at a time - is a powerful being, possessor of a secret greater even than the adults. This might be a product of Miss Murdoch's own solitary childhood imaginings, or of a lack of familiarity with the more ordinary, loud-mouthed variety parents learn to treat with contempt

Raising the subject, I am answered by the unarguable point that "the entry of a child into any situation changes the whole situation". Besides she admits cheerfully to enjoying creating children and "to having a very nice child" in the book she's writing at the moment.

Yet again, I'm struck by the gleam of excitement. Another book in progress, more creation. More reaching to something beyond the every day. Art, in her view, is one of the best ways of getting to the meaning of life. True art, that is, good art. For, as Plato pointed out, art can be a terrible trickster . . .

But before we return inevitably to "religion and morals" -Iris Murdoch's own summary of her major concerns - I want to stay with the everyday a moment longer. What are her views on politics, for example, and the

Life and works

born Dublin, July 15 1919 educated at the Froebel Educational Institute, London; Badminton School, Bristol; Somerville College, Oxford.

ears, but we persevere. She used to vote Labour but now finds herself out of tune with modern politics. More particularly, she is a very convinced European. feeling the Common Market vital to Britain's interests "politically, spiritually and commer-cially." Earlier she had responded to my half suggestion that her vision of life might be limited after 30 years living in Oxfordshire by pointing out very firmly that she had travelled to America, Russia, Australia, Thailsad, Singapore, India, Iceland, Japan, to name but a few.

Feminism she commends, though she is very opposed to its segregationist elements. She notes that the position of women, children and homosexuals have all improved over the past 20 years despite the prophecies of the disintegration and decay of our society.

Later, over lunch, I get a real whiff of crusading feminist spirit. And it is, of course, only after we have drifted back to "religion and morals". Like all sensible people, Iris Murdoch does not enjoy the formal interview. Before going to our meeting, I'd been given a clipping which opened: "Iris Murdoch makes good books and bad interviews." Possibly because of our position over the racing river (a way of ultimate escape?) our talk was relatively painless. However it was not till lunch that I realized that Miss Murdoch absolutely loves talking. And that she is very good at it - particularly when there's a move towards argument.

An extremely good restaurant ("Oh isn't food a pleasure!") in the wet streets of Salisbury is the location. Snbjects, as they say, are wide-ranging. Herpes is an improbable opener. But it is the subject of women for the priesthood that really arouses the passions. Iris Murdoch is the most vociferously in favour and myself - daring pupil and teacher - most determinedly against. Although our hostess, daughter of a bishop, might claim more knowledge of the

matter.
Argument, conversation was always the hallmark of the Oxford don. Perhaps it still is. The conversation of ideas is unfortunately rare among my contemporaries. Soon we move from the sex of priests to the more general question of spirimal belief. Excitement rises, the core of the matter probed more and more fiercely until in a haze or words and ideas I hear Iris Murdoch cry, "Christ is real! Christ is real!" John Bayley looks somewhat anxious, feeling, possibly, that the statement is open to misunderstanding. But I presume to see what she means.

Christ is real for her in the way a work of art is real. During the interview she had said, "I believe we live in a fantasy world, a world of illusion. And the great task in life is to find reality." Christ's story is one way of arriving at the truth which Miss Murdoch perceives as a religious sense. In her dramatic words, both philosopher and artist are present. It confirms my belief that, whatever the individual strengths or weaknesses of this year's Murdoch offering, the novel has seldom had a more original, more energetic or serious practioner.

I am also reminded with astonishment of the warning of a friend who had sat next to Iris Murdoch at a dinner party: "She doesn't speak. She hums.'

Rachel Billington

THE TIMES **DIARY**

Bloods up

This week's issue of The Field suggests that Michael Foot may have raced off after a false sceot when pledging his party to ban hunting. It reports a debate attended by more than 100 trade unionists at Huddersfield Friendly and Trades Club. Proposing a motion to fight any party that tried to drag field sports into politics, G Woodrow catalogued trade union involvement an alogued trade union involvement in the Colne Valley Beagles: "One of the ex-Masters, Keith Brook, AUEW shop steward; huntsman P Wood, Nupe: whippers-in C Ridsdale, AUEW, M Fitton, Nupe; on the committee K Vickerman, Textile Western Page 15. Workers' Union, T Reast, Fire Brigades Nupe, myself, AUEW . . . Master of Mink Hounds, G O'Brien, Nupe, huntsmen and whips from the unemployed." Woodrow's resolution was passed, unanimously.

Bolt from the blue

That the right-wing historian David Irving should question the authen-ticity of the Hitler diaries occasions no surprise. In a recent issue of The bookseller his publishers, Macmillan, readvertised his offer of £1,000 to anyone who could provide documentary evidence to refute any statement in his book Hitler's Wor. If the diaries are accepted, the money must be sorely at risk.

Singalongakiri

Dame Kiri te Kanawa goes pop this week, with a recording label all of her own. Her single, released this week with the catalogue number KANA-1, is culled from her classical album, Songs of the Auvergne, which has climbed higher in the LP charts than any previous Decca Classical release. It is currently at No 57.

What's in a name?

There could be some nominal confusion over the new issue of The Fiction Mogazine. It has a story entitled "Outward Journey" topped with an etching of a departing train. It is by Peter Parker, Not that Peter Parker, this one is a writer who was a contributor to Gay News. Then Clive Sinclair makes two contributions; one is an interview feature, the other a gift of £3,000 sponsor-ship. Not the same Clive Sinclair, though. One is the young novelist and literary editor of Jewish Chronicle. The money is from Clive Sinclair of the microchips, and very welcome it is since the Arts Council has drastically cut the magazine's grant for the coming year.

Lacklustre

Britoos, you fail to fire the literary imagination. The verdict is Anthony Burgess's, voiced in his Afterword to The Heritage of British Literature, to survey of post-war writing Burgess says Britain produced nothing to compare with America. There are oo British writers to compare with Bellow, Mailer and Gore Vidal Braine, Wain, Sillitoe and the 1950s new wave were not "a true literature of revolt", though he does bave guarded praise for such Common-wealth writers as Doris Lessing, V. S. Naipaul and Patrick White. "The trouble generally with the English novel was the lack of anything to write about", he postulates. "I myself had to go to Malaya to learn how to write fiction."

Architect Peter Benton tells me that o copy of the Building (Third Amendment) Regulations 1983 which he recently purchased was three pieces of paper six inches by nine and a half costing £1.25. "I think", he says, "my next set of building regulations will have to come from the Japanese."

Chew choice

I have it from the British Food Export Council's latest bulletin that toffees, are much in demand from Israel, the West Bank, and the Gaza Strip. The Israelis like tham dried, which must be tough, and the people in Gaza prefer them in decorated tins. The Lebanese, in contrast, crave more whisky, and who can

NItpicking

Mike Scott wrote to his local (Bletchley) DHSS requesting a new national insurance card and enclosing a cheque to cover seven selfemployed stamps. He has so far received the following replies, in order: the new card; a note acknowledging receipt of his letter; a receipt for the cheque; and a note asking the name and number of the person whose card is to be credited with the sum. He has replied, and is expecting quite a lot of correspon-

When Sasan Baker gives her next concert, at the Fairfield Halls on May 3, there will be a newcomer among her score of violins. It was fashioned by 2 Sicilian prisoner of war held in an African camp during the last war. Baker was given it by an elderly fan who worked in a music shop and who paid £2 for it out of sympathy when the shop manager turned away a woman anxious to sell. She says the instrument is beautifully made, but being all hard Malawi wood does not resenate as well as traditional maple and pine. John Bunyan, Baker reminds me, made a tin fiddle during his imprisonment, and it is still to be seen in Bedford Museum. Naturally Baker has a tin fieldle of her own. It is made of two Spanish olive oil tins and an Australian beer can, carries a seal of purity, and "makes a fine olenginous sound".

Bernard Levin: the way we live now

Don't jump, Denis, don't jump!

During the Mau Mau rebellion in Kenya in the 1950s, there was much talk, usually after the ladies had left the room, of an oath taken by those admitted into the inner ranks of the insurgents. The Mau Man oath, so the story ran, was of such unspeakahle and obscene barbarism in what its swearers pledged themselves to do, and was accompanied by acts of such frightful bestiality as part of the ceremooy, that it put the initiates beyond the furthest limits of civilization, and left them ready to do any act of darkness required of them thereafter, so eotirely de-humanized were they by their participation in the grisly rites.

It has often occurred to me since that there are parallels for the Mau tively genteel political process, in the form of actions which, once taken leave the taker unable to find any good reason for refusing any subsequent demand made noon him, however unthinkable it would have been only a short time before:

... I am in hlood Stepp'd in so far that, should I wade no more. Returning were as tedious as

I have argued in the past that the Suez affair of 1956 was the Tories' Mau Mau oath; the shameless, uoqualified naked lying on the part of the Government - to Parliament, to the country, to the press, to the United Nations, to the Americans, to Nato, to the troops themselves severed a tenuous but real link with principle that until then had survived all the exigencies and necessary compromises of politics, and in doing so rohbed first Conservatism and then British polities in general (without Eden there could have been no Macmillan, and without Macmillan there would have been no Wilson) of something that has never been subsequeotly restored, though in recent years Mrs Thatcher has shown some sign of meaning what

All of which brings me to Mr Healey, Whenever the election takes place, and on whatever grounds it is fought, be will be the key figure in the Labour campaign. Mr Foot is a burnt-out case, taken seriously by nobody on his own side or the other: Mr Shore's attempts to produce a coherent and realistic economic policy for his party have succeeded only in reinforcing the truth of the well-known computer-programmers' acronym GIGO ("garbage in, gar-bage out"); Mr Wedgwood Benn is the figure whom the other Labour

she says and vice versa.

mings in the Daily Express last week

leaders will conspire to pretend does not exist; Mr Merlyn Rees needs no such conspiracy, for he doesn't exist, oor is it necessary to invent him; Mr Silkin - but I think I had better stop here, lest I should say something we would all regret.

Mr Healey, however, is real, intelligent, skilled, forceful and almost ready. I say almost: "Oh, the little more, and how much it is! And the little less, and what worlds away!" For Mr Healey has a decision before him, and it is no light one. He has to decide whether he is going to take his own Mau Man

Some say that he has taken it already, that he is forsworn beyond redemption. I think oot, despite some ominous evidence; but his decision cannot be put off much longer, oor concealed ooce taken.

The nature of the decision he faces, is obvious. Is he going to reject his party's policy of unilateral nuclear disarmament - which includes not only giving up our nuclear weapons hut expelling our Nato allies from Britain - or is he going to stump the country telling lies? I put it as hluntly as that because there is no third choice for him, wriggle as he may. If Mr Healey says he believes that Britain ought to disarm on her own, he says that which is oot true, for he does not believe it, and no amount of

drawing attention to the small print io the draft manifesto (so full of weasel words, incidentally, that it might have been written by Sir Harold Wilson himself) will save him. Mr Healey believes in multilateral disarmament; he believes that unilateral disarmament is not, as CND falsely claims, a step towards that goal, but the negation of it; he knows that the inevitable consequence of Britain's abandonment of ouclear defence is our ultimate withdrawal from Nato, and he believes that we should not with-draw from Nato. In short, he believes that his party's policy is dishonest in conception, wrong in principle and disastrous in effect, and to assert that this is what he believes it is not occessary to hug his

Now he stands oo the cliff edge of his personal doom. Once he jumps, Newton will do the rest; ooce he begins to say he supports his party's policy of neutralism and surrender, the Mau Mau oath will take irreversible effect, and he will be indistinguishable from Mr Hattersley. Mr Hattersley, after all, is oo more in favour of his party's ouclear policy than is Mr Healey, hut neither is he in favour of cannibalism, yet he will support both the one and the other without the smallest disturb-

pillow-talk; everything he has said

and done for 30 years puts it beyond

ance to his equanimity if he thinks such action will bring him closer to the attainment of his political

And is Mr Healey to step into the And is Mr Healey to step into the same mire, to insist, for the same ignoble reason, that hlack is white, hot cold, treachery loyalty, surrender resistance, war peace, falsehood truth? I was in the hall at Scarborough when Hugh Gaitskell promised to fight and fight and fight again to reverse his party's disastous commitment to nuclear trous commitment to nuclear surrender, and I watched those who thought like Mr Healey applaud that speech, while Gaitskell's enemies who were, and are, Mr Healey's enemies and this country's enemies - sat with their arms folded. The policy was reversed, and Mr Healey played his part in its reversal. Nothing in principle has changed then, save that Britain's commitment to Nato and its policy has become more important, and her abandonment of her commitmeet has become concomitantly more dangerous.

Mr Healey, of course, has not abandooed that commitment. The question is whether he is going to pretend that he has, whether that is, he is going to cross a river which, for his character as an honest, honourable and patriotic man, will be not the Rubicon, but the Styx.

David Watts, in the first of a series, reports on the rag-tag army fighting communist insurgents in the Philippines

Purging peasants Vietnam had never been

Davao, Miudanao

Torches bobbing in the darkness, four boys walked through the tropical night. From the roadside came a stream of machine gun fire. One was killed immediately. The three others lay wounded.

As a jeep pulled up to belp them, the gunmen waved the driver away. "We'll take them to hospital", they said. But they never got there. The following day their bodies were found stahbed to death after a night in a "safe house" used by the Philippine Constabulary. The boys

had been out frog hunting.
Soon after, the agent alleged to
have led the killers shot three men in broad daylight in front of a school in the provincial town of Tagum. After representations he was reluctantly arrested, only to be released within

two weeks. Nasario Lasaca was already a the paramilitary intelligence ranks of the constabulary. He was recruited in the war against the communist New People's Army (NPA), and he is one of the reasons why the Philippines is the only country in Asia where communist insurgents are gaining ground.

Lasaca's methods are repeated all over the Philippines. Wherever the communists are active, civilians are "borrowed" or "salvaged", in Filipino terminology by the military.

They are never seen alive again.

The Government's proclivity for using men like Lasaca, who kill, torture and maim, and then decline to discipline them, is convincing the hard-pressed people of Mindanao that they cannot expect justice from the local military and government. The threat from the NPA seems to have convinced some police and paramilitary units that anything is justified in maintaining law and order and rolling back the insur-

In a gruelling, rainless summer, the burned red-brown hills of Mindanao, long stripped of timber, typify the exhausting problems of the whole country. The rains will come in the next month or so, hut relief from oppressive one-man rule and economic policies which dispro-portionately benefit the multi-nationals and the Manila elite is nowhere in sight.

Falling world prices for its principal exports - cocoout oil, sugar, fruit and minerals - over the past few years have left the government on the defensive.

communist forces

Mindanao sees a concentratioo of the effect of Manila's unwillingness to rein in some of its more corrupt elements and its concentration on development of a kind which pays little heed to local needs. Earlier this year, nine battalions of troops were brought in to fight the NPA.

Regular units, notably the mar-ines, have carned a good reputation with the local people for correct behaviour. When ooe marine unit prepared to pull out of a provincial town recently the mayor begged them to remain and burst into tears at the thought of being left to the mercies of the Constabulary and the undisciplined Civilian Home Defence Force, a rag-tag force recruited from local Barrios armed with

American M16s.
The Constabulary is being used to run the country, and is thoroughly corrupt," a priest told me. "They are oot innoceot of this in Manila. It goes to the highest levels of the

The people have nowhere to seek redress except the church or the NPA. In the Davao area, representations to the church rarely get top-level attention: the bishops prefer to keep their links with the rich and politically influential.

When a priest asked his hishop to take up the case of three young people detained as NPA suspects and tortured for three days, the bishop quickly changed the subject.

"The church has a very high social standing in the Philippines," said the priest. "Church men move at two greatly different levels, at the top end of society and at the very bottom. They have the opportunity to do good, and also to be

In contrast, the NPA has a reputation for an austere morality and for remnving corrupt officials, if only by assassination. A civilian official normally gets at least one warning and the opportunity to mend his ways before the killer squad moves in Last Monday an execution squad was waiting for the manager of a large banana plantation with a reputation for exploiting his workers. The operation was betrayed and the squad withdrew after an exchange of fire. But it will

The operation was apparently at the insugation of a young NPA official who took a job on the plantation simply to mobilize its workforce. At 28 he is indistinguishable from the other young Filipinos in jeans and T-shirts on the plantation. Only his language and the occasional hardening of his bright, dark eyes hint at the years of guerrilla activity behind him.

He says of the plantation manager: "He has been responsible for five 'salvagings' since 1980. He is a bad man and he has influence with the military around here. Armed struggle is the last resort for us, but we use arms only against the

manipulators".
Ironically, the NPA man learned fundamental western rights from an American teacher; for seven years from 1971 he was a guerrilla in the duties. He is engaged and is buying a house with a bank loan, but sees nothing inconsistent in that. "Filipino-style communism", as he calls it, "has a little bit from Mao and a little bit from Marx.". He insists that the NPA is largely self-sufficient, acquir-ing most of its weapons from the armed forces, but receiving some financial aid from "friendly nations". The NPA is at the start of a three-year build-up of military pressure in the south.

At any one time there are thought to be about 7,500 guerrillas under arms throughout the country, about 1,300 of them in Mindanso.

Support for them is often through fear. They have to live off the people, even collecting their own taxes, and can offer little except some hope for the peasants that one day things will get better. The guerrillas seidom last more than five years; then either disease or a bullet ects them. That has not deterred dozens of well-educated university graduates from joining their ranks. In Mindanao, the communists do not have to search for rallying issues: most are created for them by low wages and government policies which force more and more peasants off their lands in favour of agri-

business interests.

The military tackles the war as though Vietnam had never been. Thousands of peasants have been moved from their farms to "strategic" villages in the hope that this will deprive the NPA of support and protect the people. The villagers hate the military for it. Anyone who does not agree to the transfer is branded as an NPA supporter and his house is burned down.

The farmers, used to plenty of space, now find themselves jammed next to their neighbours, their rudimentary hygiene spreading dis-ease in such a close community. In one hamlet 200 children died of disease in a week. Farmers must walk miles to their plots in the morning and return before the curfew at dusk.

In other areas in south-east Mindanao, land coveted by the big corporations has recently seen a big increase in military operations. The soldiers are there ostensibly to protect plantations and other investments from the NPA. But to many it looks as though the army is intent on clearing out the people to enable mining or timber companies, under presidential powers, to take over the land. The landless become potential recruits for the NPA.

The government persists in trying to tackle fundamental socio-econimic problems through military means, and the military, judging by recent operations in the north of the island, is intent on treating the people as guilty of being NPA sympathizers until proved innocent. In one recent sweep through three hamlets, the army so terrorized the population that 200 families fled. Hearts and minds will never be

salvaged this way. Tomorrow: The Government's re-lationship with the Roman Catholic Church.

Gerald Kaufman

Caught in the Act of giving grants

I was out of order in seeking to pursue a constitutional point while we were debating the sittings motion. This motion simply authorizes the committee to meet at 10.30 am on Tuesdays and Thursdays. However, while MPs were discussing it, we stumbled into a major matter of substance whose implications are much more substantial than the scope of the legislation

The Local Authorities (Expenditure Powers) Bill is, by any standards a minor measure. Fortyone lines long and consisting of two clauses, it sams simply at putting right one of the innumerable mistakes to which the Department of the Environment is victim. The Government has launched an urban development has inunched an urban development grants programme, aimed at assisting local authorities to promote employment in their areas. Embarrassingly, however, the Secretary of State, Mr Tom King, discovered that although there was no doubt about his powers to pay the relevant moneys to the local councils, there was considerable. councils, there was considerable doubt about the legality of the councils passing on that money as grants to businessmen.

Accordingly, this little Bill was introduced, as Mr King put it, to "clarify" the situation. In the Lexicon of King's English which I shall shortly be issuing for general edification, "clarify" will be defined as: "To seek to put right in a hurry legal provisions which are faulty because they themselves were rushed through Parliament without

proper consideration."

Sadly, however, it has done no such thing. In fact, after a week of committee debate, the position, far from being clarified, is more confused than ever. Certainly, relevant grants by local authorities will be lawful if made after the Bill is enacted. The trouble is that councils may have made such grants before the Royal Assent is obtained. Sir-George Young the Under-Secretary, told the committee that "the schemes are proceeding" and that they are safe to do so because "the Bill gives cover to local government expenditure in the financial year

Unfortunately, no Bill can give cover to anything. Only an Act can do that, and this Bill will not become an Act until the middle of next month at earliest. Six weeks of the financial year will have clapsed, in which time the schemes will have proceeded — but without the protection of the indemnifying Act.

When the Uoder-Secretary was asked what he intended to do about

Quite rightly, Sir Donald Kaberry, the chairman of House of Commons us that, really, mobody needed to worry at all. Even if there was some doubt about the legality of local authorities grant-making powers during this penumbral period, the Secretary of State could issue a certificate which would remore the ability of the district auditor to DOUNCE.

Have the councils, then, herred sigh of relief and agreed that everything is now all right? Far from it. The auditor is not their only problem. If they have been making problem. If they have been making payments during the period before the Bill becomes key, they are still liable to legal action by, say, a businessman who is not gotting a peritor, and the Secretary of State has no power to issue a certificate preventing such litigation.

So the local authorities, who

asked for this Bill because they felt the previous legislation was defin-tive, now find that this indemnifying legislation, even before it is enter legislation, even octore it is enacted may be defective as well. We, as a benevolent and public spirited Opposition, are seeking to purmatters right by tabling amendments to the Bill which by rendering its provisions retrospes-tive, will provide genuine cover to payments made before enactment The Government, at last having go this new problem into its thick her is considering how test to react without being compelled to admit that it has made an even bigger mess of things than usual.

Incompetence by Evironment Secretaries in this government is not, however, the constitutional point which Sir Donald most properly prevented me from discussing on the sittings motion. The issue is much more profound than that. In Standing Committee D we are reminding the Government that in our democracy no statement by ministers has of itself the force of law. It is no good the Secretary of State emolliently telling councils that they are secure just because he says they are; they know better. They know their only protection is an Act of Parliament so drafted that it covers every contingency in which they may be at risk.

This may be boring for the Government, even irksome. It is however, very healthy that a small and unassuming measure such as this can remind ministers that what they say is of no consequence just because they say it. Their words have force only if they are uttered in accordance with statutes endowed with anthority by our sovereign Parliament. The author is Labour MP for

Charles McKean

Dénmark Hill for the salvation line

Straddling the south London ran-way, Denmark Hill station was a glorious 1866 vintage Tuscan palaz-zo. As such, it was part of British Rail's inconvenient heritage in a part of London where heritage is not part of London where heritage is not the first concern of the inhabitants.

The first concern - after unemployment, blight and lack of housing - lies just across the road from the station, sternly fronted by the commanding statues of General and Mrs Booth frozen in full flight: it is the Salvation Army training headquarters. The second concern is King's College Hospital and the Mandsley, spreading inexorably like a tumour through this part of the metropolis. The third is Nunhead cemetery, a few moments along the

In the early 1970s, Denmark Hill . station retained considerable vestiges of its former glory. The booking hall was a veritable palace; there was fine ironwork, brickwork, glazed arcades, a good booking office, a stationer's shop, a grand; long-case clock, and some original timber filigree work. Little by liale, British Rail let it go. The clock stationers closed; the imberwork remained unvainted the imberwork remained unvainted. the timberwork remained unpainted and rotted; some was sawn off, broken windows were sealed with hardboard; rubbish collected on the embankment, and puddles on the

Day by day commuters witnessed the accelerating consequences of neglect. By 1976, the station's condition had reached such a state that it was selected to represent London in the national Facelist competition organized by The Architect magazine (now defunct).

One entry, by Tom Jestice, extrapolated from the hill-palace nature of the station, and proposed status a fountain contract.

statues, a fountain, cypress trees, pedimented station signs, and a painted Sistine-chapel roof beneath painted Sistine-chaper root between the road bridge which passes over the platform - all at least two years before such ideas became accepted as mainstream post modernism (and he only meant it as a jeu d'esprit). Despite considerable public inter-

est, there was no response from British Rail. They had relegated Denmark Hill to eventual replacement, to the steel and glass boxes that pass for stations in Maze Hill

and Streatham.
Indeed, the underlying policy had been clearly stated by the then Southern Region general manager in his contribution to Railway Stations of the Southern Region. "the complete reconstruction with modem methods and materials is the only way to get rid of a picture of an outdated form of transport in the public's mind?

A godsend for British Rail arrived one night in March 1980 when an arsonist hurnt out the roof of the booking hall Enter British Rail hastily, with gangs of workmen to make things safe and by doing so demolishing far more than the arsonist, destroying spectacular

told by a BR public relations spokesman that they should, instead of complaining, "put their money where their mouths are" to pay for the difference between a modera station and the restoration of the old, promenaded the streets collects

They opened an appeal which, raised £4,000 from local people. Jeremy Bennett, the society's chairman, aided by Jack Jones (former-TGWU general secretary) and Terry Jones (former Monry Python) then handed the operation over to the Southwark Environment Trust, which would become the agent is further restoration, together with the cheque for £4,000 duly blessed by Sir John Betjernan.
Enter Sir Peter Parker, with an

environmental penel from BR. Perhaps the local initiative could extricate BR, quite literally, from a hole, by taking on responsibility for the station building. Negotiations took a year, at the end of which the Southwark Environment Trust had an option of a 40-year lease on the huilding, a beneficial occupier, and an interesting pattern of financial contributions: £34,000 raised by itself through collections and private charities; £56,000 from the Historic Buildings Council for the restoration of a listed building, £20,000 from the GLC; and a grant from British Rail to match the total pound for pound (probably still cheaper for BR than the costs of demolition and rebuild-

The proposed use for the building is a real ale pub with beer brewed on. the premises. The locals are enthusiastic since the building if being restored with a community

Most importantly, the laborious ground work undertaken by the Camberwell Society should make it casier for similar organizations to do the same elsewhere. For once British Rail had grasped the concept of leasing out, its staff proved particularly helpful. On the other hand, not every community is blessed with former trade union general second retaries or Monty Pythons, so they will have to nely on this case as a precedent

Unfortunately, not every station building for which British Rail is little affection can be so easily isolated and re-used.

On Saturday the Creit Trust presented the Camberwell Society with its Pride of Place commen-dation for their efforts to save the station, at a ceremony - con with real ale - in the station itself in two weeks Bovis begins the restoration work. It could be the start of a new era for our railway

FIRMNESS PAYS AT COWLEY

The return of industrial strife to the Cowley factory of British Leyland was taken in many quarters as the most convincing evidence yet that the economy was truly on the mend. Within weeks of the company launching a car with great sales potential, the Maestro, and being for the first time in some years in a positioo to promise its workers not retrenchment and cutbacks, but production bonuses and secure jobs, 5,000 of that same workforce went on strike and brought the plant to a standstill.

Four weeks later the two aspects of the dispute which stand out most are its apparent triviality, and the obvious bitterness and resentment that many of the strikers feel towards BL.

Now, with the prospects of a return to work brighter than at any time since the strike began. thanks to a night of hard bargaining between the management and the leaders of the two main unions involved. Mr Terry Duffy of the engineers and Mr. Moss Evans of the Transport and General Workers, the question is whether that bitterness will force a continuation of the strike, or whether the proposed settlement will allow more normal industrial relations procedures to reassert themselves.

But first, how does the settlement deal with the seemingly trivial issue which provoked the strike - the desire by the management to make all its employees work "bell to bell" and so to abolish the established practice whereby they all clocked union leaders to feel that they ment, and they probably will.

April 25 in Lisbon: the day of the

red carnations, when the young

officers of the Armed Forces

Movement overthrew the half-

century-old dictatorship, open-

ing the way to independence for

Portugal's African colonies and

to democracy for Portugal itself.

How long ago that seems. Today

is in fact the ninth anniversary.

Democracy is not mainly to

blame for economic troubles

which Portugal shares with the

rest of the world. But 'elected

governments have not been

notably successful in managing

those troubles. The expected victory of Dr Mario Soares's

Socialist party in today's poll

will not, if it is confirmed, be a

sign of renewed confidence in

proposals for social betterment

through democratic change. The

electorate will be calling back to

power a man and a party who have failed before (in 1976-78),

for little better reason than that

things have now got even worse

worn off.

of each shift?

Here the company has gained

a victory. It seems to have persuaded the union leaders that it is not going to withdraw its demand, that all its employees must work for the full time for which they are paid. So it should be in a position to secure a further increase in output, which on the company's figures is equivalent to a hundred more cars a week, worth an extra £25 million a year. Moreover, the company can fairly claim to have demonstrated its willingness to stand firm and to face a potentially crippling strike at a time when it would have been all too easy for it to return to the practice of the 1960s, when strikes were simply bought off in order to keep the production lines moving. It has therefore given its answer to many who. believed that the determination of management to manage would crumble once the unions reasserted themselves and were no longer cowed by the threat of unemployment.

off a few minutes early at the end too have some honour from the proposed peace. What management has agreed to is the creation of a joint committee which will examine the state of industrial relations in the plant with the specific purpose of finding out what has gone wrong at the plant. This should in union eyes at least provide the key for a less autocratic style of management - a shift away from the take it or leave it approach, personified by Sir Michael Edwardes, in favour of consultation and agreement.

Whether or not this is desirable depends on whether both sides can be trusted. Management must not use it as an excuse for weakness; unions must refrain from being mindlessly obstructive. And it has to be said that the precedents on both sides have not always been encouraging.

That said, it is surely in the

interests of both sides to try to move forward along this path so that the resolution of this conflict does not merely fertilize the seeds of the next one. Trade with Japan From Mr James Y. Bourlet

Primarily, this arises because Britain's "comparative advantage" lies in "invisibles", whilst that of Germany and the other members lies in manufactures. Strong "invis-ible" exports from Britain 10 Japan result in an overall surplus oo corrent account, year after year - in 1981 nearly \$2bn. Other leading Commonwealth countries, though for different reasons, also run surpluses with Japan - Canada nearly three quarters of a billion dollars in 1981 and Australia/New

Zealand a similar sum. In contrast, the rest of the EEC runs heavy deficits - in particular, Germany, which Bundesbank figures showed had a current account deficit with Japan in 1981 of \$3bn.

The EEC Commission stance here in Tokyo is to emphasize visible trade deficits (arguing for Japanese export restraints, higher prices in Europe and increased penetration for manufactures into Japan) and completely ignore "invisibles". Correspondingly, one can observe a major campaign by German exporting companies in Japan - every where one now sees BMWs, Mercedes and VWs - and German wine is available in all "off licences". German exports to Japan

increased dramatically during 1982. One result of this is that German-Jananese industrial links are being greatly strengthened; witness the rapidly increasing direct investment by Japanese companies in Germany and the dramatic fall in the proportion of Japanese-EEC investment coming to Britain - down to only 12 per cent in 1981. Another result is that Japan will take steps to reduce "invisible" imports, perhaps by deliberately "assisting" shipping

Motive for attending Prague conference Tempting myth of party manifestos

From the Chairman of the National that it is improper or worse for non-

Sir. Your leader, "The peace of Prague". (April 21), was unworthy and a confirmation that disagreement on important issues has given way to enmity of spirit which vitiates mutual understanding and conciliation. I do not refer to your remarks on the World Peace Council but to those directed at "people concerned with day to day manage-ment of the CND", one of our member organizations.

To assume malign intent or manipulative wizardry is somewhat presumptuous (although bandwaggon-jumping is not unknown) particularly by those whose own political preferences do oot encompass an urgent or constructive approach to disarmament issues.

A phenomenon tike CND might be expected to provoke curiosity and sober analysis rather than dam-nation but even quite reputable critics, such as the Bow Group, have failed to use the openness of the peace movement to get hold of the real facts, oo which credible opinion should be based.

For anyone who knows people like Joan Ruddock or Bruce Kent, or who has witnessed the dedicated energy of their colleagues, the insinuations and attacks on their integrity are incomprehensible and deeply disillusioning. They serve a popular and growing movement which is oot susceptible to manipu-

lation or anything resembling the discipline with the political parties. The peace movement is oot interested in "one-sided disarmament". It is interested in initiatives which would start the disarmament process moving after 35 years of fruitless multilateral negotiations. Joan Ruddock surely has a point when she criticizes the Government's record. Certainly international tension and conflict has not noticeably diminished and armaments have increased in both oumbers and sophistication throughout the world without cease

since 1950. Committee.

matic links and jointly run inter-national agencies, who is to suggest

with all cassettes, radio, wedding ring and my husband's silver Parker pen. He visited a sauna that fateful afternoon. Nothing was searched or

gooe through!

Having been round the world over the past 27 years I had to come to the frecest, most civilised country in the world to have this revolting

and deeply hurtful experience.
Feeling absolutely frightened and insecure my stay in London, to which I had looked forward with great joy and expectation, has been spoiled. The police, just like the police in Seville, seem powerless to cootrol and stop the thieves which are round and about London town. Sincerely.

CORONA MARKS. Embassy of the Federal Republic of Germany, Beigrave Square, SW1.

gaining weight" by the EEC is laughably irrelevant.

For British ministers to leave such Sir, In dealing with Japan, British interests differ greatly from those of other EEC members. trade oegotiations in the hands of the EEC, resulting in wrong policy decisions (for example over video cassette recorders) suggests a disin-terest in British interests bordering

on negligence! Yours faithfully. JAMES Y. BOURLET. Faculty of Commerce, 15-45 Mitz 2-chome,

Minato-ku, Tokyo 108, Japan. April 8.

From the Director of the Anglo-Japanese Economic Institute. Sir, Mr Norman MacLeod's letter (March 16) on the United Kingdom's invisibles surplus with Japan reminds me that the British side has never seen eye to eye with the Japanese on this subject. This institute tried in vain for years to secure British figures to set against those produced annually by the

published the Japanese version and the British went by default.

Eventually the United Kingdom side talked of "differences in the ways Japan and the United Kingdom collect and assess their statistics" and gave figures falling far short of the Japanese estimates: and now Mr MacLeod says Japan's method "greatly exaggerates the

Bank of Japan, so we always

surplus". But the Bank of Japan's details like Britain's, I presume, and other nations' - are compiled in accordance with the International Monetary Fund's Balance of Payments Manual. The British Committee on Invisible Exports, in surveying world invisible trade, seems perfectly happy to quote IMF sources in

relation to Japan and Britain. I do hope Japanese experts won't start calling British figures "greatly exaggerated" or "misleading". Yours faithfully.

REGINALD CUDLIPP, Director, Anglo-Japanese Economic Institute, 342/6 Grand Buildings, Trafalgar Square, WC2.

April 7.

From Lord Alport

Sir, As all political parties are in the process of producing their manifestos for the next election, it is an appropriate moment to try to dispose of the myth of the

The manifesto of any party is at best a statement of its aspirations in the event of its being returned to power and at worst an attempt to fool most of the people most of the time. It is oot a commitment to any detailed policies, nor does it entitle a future government to carry out every item in its manifesto regardless of current public opinion of the changing character of the national interest. No party - and least of all a party in opposition - can foresee the practicalities of power for a year, let alone five years, ahead.

The myth of the manifesto was given some substance - strangely enough - by the late Lord Salisbury's doctrine that the Cooservative majority in the House of Lords would not oppose in principle any egislation coming to it from a Labour government with a majority in the House of Commons, provided that the measure had been embodied in its election

I suspect that Lord Salisbury was

more concerned for the continuation of a scond Chamber in the

British Parliament than he was with constitutional proprieties. When the electors of this country vote at an election they do so, not because they necessarily agree with or have even read all the small print of the party manifestos, but because in their judgment the time has come either to get rid of the

present government or to give il a w more years of power. Those who give a party a majority at an election - the socalled floating voters - are influenced by the previous govern-ment's record, the personalities of the various parties, both national and local, and an instinct as to where the public and their private

interests lie. It would be a pity if the late Lord Salisbury's brilliant essay io constitutional pragmatism were thought to justify successive governments in giving effect to every detail in their election manifestos. After all, we know that there is always a temptation to try to fool some of the people some of the time.

Yours faithfully, ALPORT, House of Lords.

April 19.

Minister and shares From Lord Cockfield

Sir, Io the House of Commoos oo March 30 Mr Dennis Canavan, MP, sought to introduce a Bill to prevent any takcover of Anderson Strath-elyde ple by Charter Consolidated. In the course of his speech he suggested in the clearest terms that my public denial that I had abused my positioo as a member of the Cabinet and of the Government by dealing in the shares of a company which was seeking to take over Andersoo Strathelyde was untrue. I oeed oot emphasize the gravity of this allegation. It is without a scintilla of justification.

The facts are that on November 6, 1974, four and a half years before I became a minister and seven and a half years before I became Secretary of State, I added to my small portfolio of Stock Exchange boldings 2,500 shares in Charter Consolidated. I have retained these sbares in unchanged beneficial ownership since that date and retain them still.

On April 6, 1982, I was appointed Secretary of State for Trade. On

April 9, 1982. I requested my bankers to arrange the transfer of all the shares I owned into their name. The transfer was duly carried out and all my shares are oow held in the bank's name.

So far as the Charter Consolidated affair was concerned, I decided that even though my small shareholding represented only 0.0025 per cent of Charter Consolidated (ridiculously referred to hy Mr Canavan as my vested interest") I should take oo part in the decisioo on the reference and I bave played oo part in it. I have oeither been consulted oor . expressed any view about any official decision relating to it.

Mr Canavan apparently observed that the entry in the company's register relating to the shares in my own came had been closed. He failed to note that the same shares were held in uninterrupted ownership by a comince so that there had in fact been no dealiogs of any kind with my shares on my behalf. Yours faithfully,

COCKFIELD. House of Lords.

Aid to Third World

Sir, We were interested to read Professors Baner's and Yamey's views on aid and development published in Monday's issue of The Times last week (April 11). Their assertions that "aid cannot significantly promote Third World development nor relieve poverty" will surprise the villagers of Abora Patoako in Ghana, who have increased their own food supplies through initially using the skills of a VSO agriculturist; and the Eritrean refugees who have requested training by a VSO mobile building unit so that they can construct their own schools and health centres in the South Sudan: and the Nepali weavers who are expanding their markets and increasing their sales with the assistance of VSO volunteer, Pam McLaochlan; and the

throughout the Third World who are From the Director of Voluntary and capacity for self determination with technical cooperation from western development agencies.

Western aid has been an indispensable part of the means through which the people of the Abora cooperative, the Showak building unit, Dhankuta village industries and many more community initiatives throughout the Third World have achieved some ecocomic and social progress for themselves. And because these projects exist, others of the poorer people in many parts of the world have some hope for a better future.

Aid is effective if channelled in the right direction. The people of Abora, and Showak, and Dhankuta will tell the learned professors so. Yours faithfully, FRANK JUDD, Director,

Voluntary Service Overseas. 9 Belgrave Square, SW1. April 15.

Endangered species?

many millions of other people

From Mr Christopher Ward

Sir, As Fleet Street is never at its most accurate when reporting its own affairs. I would be obliged if I could correct errors in various reports about my recent departure from the Doily Express. I was not dismissed. I would still

be editor today if I had accepted Lord Matthews's proposal to ap-point Sir Larry Lamb as editor-inchief. Lord Matthews envisaged a successful partnership betweeo Sir Larry and myself. I saw the appointment as an unacceptable erosion of the editor's authority, a recipe for internal anarchy and a dangerous precedent for all editors. I was not willing to stay on and edit in those circumstances and conse-quently Sir Larry was appointed editor instead of editor-in-chief.

Reports of a pay-off totalling £160,000 are, unfortunately, an exaggeration; my farewell wasn't tearful, it was cheerful; my grandfather, not my uncle, drowned oo the Titanic and he played the violin, not the clarinet, io the ship's orchestra; I didn't tell my staff, or anyone else, that April 15 was an unlucky date for my family - it wasn't until I read The Times oext day that I was even aware of the "coincidence" of losing my job on the anniversary of the sinking of the

I am not re-joining the Daily Mirror, as the current issue of the Speciator confidently states. I am enjoying a well-carned rest before deciding what to do next.

Incidentally, Daily Express editors are oot the endangered species Lord Cudlipp suggests in his amusing letter to you last Friday. History shows that Express editors, when dislodged from their nest, flap their wings and soar off to new habitats where they thrive.

Mr Robert Edwards, Mr Roger Wood and Mr Derek Jameson all became successful editors of other newspapers and remain so today. Mr Alastair Burnet is a distinguished television news pre Indeed, the experience of fighting off predators at the Express only sharpens the survival instinct and enables us to adapt to any terrain or

Yours faithfully, CHRISTOPHER WARD, 43 St Maur Road, SW6. April 24.

In camera

From Mr H. Justin Evans -

Sir, In 1957, with a colleague, I gave evidence to a select committee of the House of Commons as a representa-tive of a national voluntary body. I am aghast at the suggestion that television cameras might have been allowed admission to the proceed-

Their presence would have radically altered the whole atmosphere of the session at which questions were answered freely and frankly without any inhihiting factor, such as would have been provided by the presence of cameras. As the whole of the oral evidence was published verbatim in the committee's report, it is difficult to see what public interest would have been served by the measure proposed yesterday in the House of Commons Yours faithfully,

H. JUSTIN EVANS, Glebe House, Church Stretton, Shropshire. April 14.

Sotheby's 'synergy'

From Mr Michael Vallely

Sir. When Geraldine Norman described (April 15) Sotheby's use of the term "synergy" to explain the percieved lack of understanding in the proposal by Mr Cogan and Mr Swid, she quoted Webster's definition: "combined action or operation (as of muscles or nerves)

Perhaps your correspondent underestimates Sotheby's mastery of transatlantic jargon which, she suggests, may be distorting communication between the parties. Professor H. Igor Ansoff, of Vanderbilt University, Nashville, used the word "synergy" to describe "an effect which can produce a combined return on the firm's resources greater than the sum of its parts - frequently referred to as '2+2 ' (Corporate Strategy, Pelican, 1981 p75) and accepted usage by, for example, John Argenti and D. E.

This is, therefore, apposite in relation to a takeover, merger or developing a new product. Sotheby's, in alleging an absence of synergy, may be giving faint praise. Yours etc. MICHAEL VALLELY.

cessor. For all the opprobrium of world public opinion, the USSR now has proops only a few hundred miles from the Indian Ocean, and is in a strong position to influence the course of events in neighbouring Iran internal crisis.

and Pakistan at a time of Markist-Lenimist rule might have brought some progress to backward Afghanistan. The coup Dand on April 27, 1978 installed populations, have instilled m a coalition government opposed Aghans a hostility against the to "feudalism". It hanned forced USSR which will live for

Soviet plans to enforce "cele- marriages - and any marriage of bration" parades in Kabul on a girl not yet sixteen. The crushing debts of the poorest peasants were cancelled, and usury was abolished. Muchneeded agrarian reforms were

promised. Within months the Khalq party ousted its Parcham rivals and took sole control. Attempts at progressive reforms continued, with women gaining full Afghans the regime was damned legal rights, for example. But trying to implement agrarian reform by crude restrictions on individual land holdings showed a complete lack of understanding for the complexities of Afghan peasant farming. The population was further alienated from the regime by the thousands of Soviet "advisers" in Afghanistan, with their colonialist attitudes and determination to install the same Soviet "civilization" enforced in the 1920s in casualties suffered by Soviet the neighbouring Muslim lands

of the USSR. The "white man's burden" was an acceptable attitude for many enlightened people in the last century, but even then the Russian Empire was not an attractive example of imperialism. The present Soviet version would be particularly repugnant in a devout Muslim country. Five years of leftist and even if it were not being imposed by force of arms. The thousands of casualties inflicted during operations against the insurgents. d'etat which overibrew President and in atrocities against village

generations even after the fight-

tinues with its colonialist war.

and the non-aligned countries must redouble their efforts to persuade the Soviet leaders that much more is to be gained by withdrawing their forces than by reinforcing them. No doubt Mr Malcolm Rifkind will be stressing this message on behalf of Britain in Moscow today at the beginning of his official visit.

The governments of the West

A BLEAK ANNIVERSARY

ing stops. The Soviet invasion of December 1979 certainly ensured that the Kabul regime would remain an obedient Soviet puppet. But it could not put an end to the vicious factional strife among the Afghan Marxist-Leninists, and it certainly guaranteed that in the minds of most as the mouthpiece of a hated alien invader. Material progress for the population is clearly impossible while Moscow con-

Suggestions that a change of policy would follow when Mr Andropov succeeded Brezhnev have proved premature. There has been a tendency in the West to exaggerate "indications" such as the increased reporting in the generally reticent Soviet press of troops in battle with the insurgents. In fact some of the cases recently given prominence in Moscow newspapers were actually the same "heroic deaths" reported months before for propaganda reasons in the local Soviet press.

now a permanent ingredient in It is, perhaps, a "Western" response, and will be all the more Western as the new the British population, have not been very responsive to Arab attempts to offer them leader-European Council of Mosques begins to spawn its inevitable

ship.
The Arab communities in whole better Britain, oo the whole better educated but more transient than those from the subcontinent, are divided by what divides them in the Middle

There is a Libyan connexion to the new European Council of Mosques, in that the sponsor-ship of the first conference came from a body based in Tripoli. but support for the idea is in fact more broadly based than that. Jealousy and rivalry, however, are one of the gauntlets that the new organization will have to run. Lacking a strong sense nf

unity, this largest of all nonpension fuod arrangements.

It is boped that with a recognized British source for Christian minorities in Britain has had difficulty in knowing precisely what it wanted to do, in response to enormous difficulties - most nf all, how to preserve a recognizably Muslim culture with their children exposed to Western education, pop music, television, and general Western moral standards.

coherence and a sense ni identity, and various initiatives Some have dreamt of a kind of Muslim ministate, an oasis to speed that up have run into within secular Britain where Islamic laws and customs will has tended to mirror many ni the divisions in the wider prevail; others talk of seeking identity as a religious denomi-nation like one of the Christian churches, an influence rather than a way of life.

In pursuit of the former,

bodies such as the Union of Muslim Organizations have tried to campaign for recognition in British law of a special status for Muslims, so that issues of divorce and inheritance would be controlled by Islamic institutions under Isla-

mic law. Akin to that is the demand for an entirely separate system

of Muslim education. But Parliament is never likely to pass laws removing a section of citizens from the jurisdiction of the British legal system; and those behind the new council of mosques seem to recognize that.

They also recognize that most Muslim children will be educated in state schools, and the most they can hope for is a say in the type of religious eduction their children receive. Building up the professional status of the local Imam would help to open school doors to them.

More can be done to adapt Muslim structures so that they make the best of the oppor tunities that exist. The British legal system is not entirely incompatible with Islamic law, nor is the eduction system incompatible with the essentials of Islamic education.

Exploring that potential is the necessary next stage in the creation of a genuinely British Muslim culture, but it is hard to see it happening without some national representative body leading the effort. Which body it is, nuly the Muslims themselves can decide.

OBITUARY

EARL HINES Innovative jazz pianist

Earl Hines, the jazz planist and handleader who was an early colleague of Louis Armstrong died on April 22 at a hospital in Oakland, California to which he had been admitted earlier in the week following a heart attack. He had performed his last engagement the previous weekend in San Francisco, where he had lived for many years; he was 77.

His partnership with Armstrong in the late 1920s brought him to prominence as one of the great innovators of jazz piano-playing his style was subsequently copied and adapted to such an extent that it become the control of the control became the foundation for almost every succeeding generation. Throughout the jazz world he was known by an appropriate nickname, "Fatha". Born Earl Kenneth Hines in

Born Earl Kenneth Hines in haps it was there that be Duquesne, Pennsylvania on acquired the detached, insoncing and are a musical family: his father played the trumpet with a brass band and his mother was an organist. The young Hines studied with teachers in Pithodology and strength and, while still at school, performed by night in clubs, assembling and strengthening the components of a man intent of any intention of a man intention intention. The propose is acquired the detached, insoncing the farmer that he acquired the detached, insoncing the farmer than a man intent on the farmer than the seventh with its pinking the farmer than the seventh with its pinking the farmer that he seventh with its pinking the farmer than acquired the detached, insoncing the farmer than ening the components of a technique which were to make him a virtuoso.

He moved to Chicago with his first full-time employer, the singer Lois Deppe, in 1922; there he met many of the young jazz musicians who had moved north from New Orleans during the great migration of that cra, including the clarinetist Jimmy Noone, with whom he played at the Apex Cafe, and, in 1927, Louis Armstrong, Hines recorded with Armstrong's Stompers in May of that year, but collaboration was not to blossom until the latter half of 1928, when Armstrong's new Hot Five, including Hines, recorded both as a unit and as members of Carroll Dickerson's Orchestra. Among the masterpieces they created were "West End Blues", prefaced by Armstrong's classic introduction, and Francisco, occasionally leading "Weather Bird", a duet for a small group; he was contentrumpet and piano.

Whether in imitatioo of Armstrong or oot, Hines was developing a piano technique which became known as trumpet style". His right hand concentrated on single-note lines, as if transcribed from a wind instrument, while his left chagrin, including a pop singer hand became a support, feeding as light relief), visiting Britain, a variety of harmonic inforwhere he performed at the mation and rhythmic impetus. American Embassy as well as at When, later on, his playing Ronnie Scott's Club, on several became more orchestral in occasions.

scope, this was because he had some big bands for many satisfactions of his later years, years and, in the context of a however, Hines's true destiny small group, he chose to had been played out in those six translate the mass and the drive months of 1928, when his of brass and reeds to the creative imagination introduced

including an adaptation of pression.

Armstrong's terminal vibrain Such attention to detail, added to the new kind of tension created between left and right hands, formed the basis of a stylistic evolution which in volved such as Teddy Wilson Nat Cole and, most vitally, Bud Powell, who took the approach mto the modern era.

The crucial work with Armstrong, which practically redefined the roles of jazz soloist and accompanist, was acromplished within a remarkably short time. In December 1928 Hines opened with his own big band at the Grand Terrace Ballroom in Chicago, South Side district. He was to remain there for a dozen year, performing straight through the turbulent Capone years; perhaps it was there that he acquired the detached insone

Hines's big band never achieved the unmistakeable character of those of his contemporaries Ellington and Basie, but the ensemble was highly regarded and invariably included outstanding musicians and arrangers, such as the clarinettist Omer Simeon and the tenor saxophonist Budd Johnson. In the early 1940s when the band toured North America, Hines acquired and encouraged musicians of the next generation: Dizzy Gille-pie, Chartie Parker, Wardel Gray, Billy Eckstine and Sarah Vaughan passed through his ranks, turning the band into an important breeding ground for the coming stylistic convulsion of bebop.

The ensemble was disbanded in 1948, and Hines rejoined Armstrong's group, the All Stars, for three years. Thereafter he fived relatively quietly in San plating retirement when, in 1964, three concerts at the Little Theatre in New York led to his rediscovery by the jazz world.

By now Hines was the complete jazz pianist, the master of every technique, and he toured the world with his groups (usually, to the critics' where he performed at the American Embassy as well as at

THE ARTS

Donald Pleasence, long the odd man out among our leading actors, tomorrow appears as Dr Johnson in BBC1's controversial The Falklands Factor. Interview by Bryan Appleyard

The personification of uncommonness

Donald Pleasence gazed into the pale spring light of Albermarle Street, a more control in live television. Millions of people watching and you the bald head swivelled chameleon-like in response to the movement of a waiter in a far corner of the room.

The poor minion scuttled away.

Most of this did not happen, It should have done but it did not. Pleasence in the flesh is not at all sinister, displays very few signs of madness and only swivels at the request of the photographer. Indeed he is evidently a little impatient with the very word "sinister". "I'm a kind of lovable figure really. I'm loved by middle-aged women. They're my fans. When men stop me in the street for my autograph it's always for their wives, who must be about 50."

But, whether he likes it or not, the latter half of Pleasence's career has been marked by sinister roles, odd characters and, failing that, people under pressure to the point of madness. Nothing could have more completely made the point than the television ads for Pils - "the odd

It was not ever thus. In the late Fifties he was everybody's idea of the common man, a role he played month after month in the live television dramas of the time. Happily he recalls those interminable travelling salesmen and the days when directors used to cry "Let's get

Pleasence for the ordinary bloke!" But even as he hankers after the commonplace he exposes his anmillions of people watching and you can do anything. I used to have this fantasy that I would go home in the middle of a play and turn on my set to watch my next entrance — I knew that reched. that nobody was going to come on." He unleashes his wheezy chuckle, his most characteristic sound apart from the sudden, unnerving swoop into a whisper which punctuates his con-

But, after the dramas, came the television series Armchair Mystery Theatre of which he was host and occasional star. The public attached the name to the face and the face to an air of mystery, to a sense that something rather strange was going on. But it could not simply have been the effect of casting. At the age of 18 Pleasence left his first joh as a booking clerk at Swinton Station in Yorkshire - "my parents had influence". He told the station master he was off to become an actor. Finding this very odd the railway company sent in a high-powered auditor to discover if he had been selling bogus first-class tickets and was attempting to abscond with the proceeds. The label "odd" was stuck

Labelled or not, he is now an eminently bankable property. Stage parts appear to be available whenever he wants them and he travels continually to play in a steady flow of sac. The essence of that film is what

films. Now he is in Mexico working on Frankenstein's Great Aunt Tilly. "I only make odd films, that's the point. If they made interesting films then I would appear in interesting films. But the fact is that only horror movies are made at the moment. This at least is a funny horror film and I'm quite looking forward to it." With a little prompting he drifts into

a happy reminiscence about Cul-de-

sac, the Roman Polanski film in which he portrays a mice guy driven mad by his wife and friends. "I was watching a couple of films I'd rented from the video shop round the corner, and I thought films have got so complicated. They're all shot like commercials - your nose, your glasses and so on. And I thought how wonderful to see a film like Cul-deyou read into it, not what the director puts into it by way of fancy cutting. It sense that it could have happened -like Waiting for Godot. The weirdest things are those which bear a resemblance to the truth."

The Falklands Factor - Don Shaw's play to be shown on BBC I tomorrow - bears a very close resemblance to one truth and a slightly more distant similarity to another. The first is the invasion of the Falklands by the Spanish in 1770 and the second is the invasion by the Argentinians in 1982. The BBC is running it as a *Play for Today*, the first historical drama to appear in the slot. Pleasence plays Dr Samuel Johnson, who was persuaded by the Prime Minister, Lord North, to write a pamphlet against war with Spain.

Johnson at the time was struggling with poverty and the fear of madness, not to mention a vigorous hatred of the pro-war writer Junius, the scribe Who Supported Our Boys. "I think it's very important to

remember that when Johnson was doing the pamphlet on the Falklands be thought himself to be on the verge of insanity. It was a genuine fear so far as I can tell from the books I've read..." - he swoops into the whisper - "... but how do you know about history? He didn't have any money, never had any money, just worried all the time about what was his place in the world and whether he'd made a terrible mistake.

Pleasence's thoughts on the great Doctor have produced a performance which is startlingly at odds with the Pleasence: "I'm a kind of lovable figure really. I'm loved by middle-aged women. They're my

coffee-table book image of the portly mandarin of Eng. Lit. There are still the perfectly turned sentences but they are delivered as from the depths of a vastly depressed soul. The Pleasence whisper is used to elabor-ate the effect of a man drifting back Small wonder that he gets so few common man parts when he does the

But it all leaves him with a slightly maverick image, as if all this oddness somehow puts him outside the scope of the term "distinguished actor". And "maverick" is certainly a term ne warms to a good deal more than

Yes, I think so, I don't like establishment people who know what they're doing or . . . I must be precise about this . . . I think everything changes from day to day and I can't see myself as a precise figure, as somebody who always knows what is right and what is wrong . . . I don't. I don't know what is going to happen tomorrow . . " (whispers) "The world is full of people who know exactly what's going to happen tomorrow, which seems to me to be a

He drifts off into thought but turns abruptly back into the alert pro-fessional when the photographer asks im to pose. Obediently he turns up his collar and gazes out into the pale spring light of Albemarle Street, a hint of madness in his eyes. . . .

Television Ill-starred scenario

James Galway's Music in Time is the title of a good popular introduction to music published jointly by Mitchell Beazley and Channel 4. On the cover, in smaller type, it says "written by William Mann". In coffee-table television spin-offs the real author counts for less than the star who lends his glittering

Music in Time the series (Channel 4) is a big international co-production for which Mann acts as "music consultant". Someone else conributes a "scenario", and Galway pops out like a jack-in-the-box to add what the handout calls his "infectious enthusiasm" to the proceedings. Yesterday, while the cameras ranged over choristers, candles, carvings, crucifixes and more choristers (the scenario?), Galway piped up with little remarks designed to prove that medieval music is not really frightening at all. One wished he would either pipe down, or else get his own pipe ont and play it. The musical juxtapositions were indeed interesting hut what this eye-glazing programme desper-ately needed was some of that genuinely infectious enthusiasm which Mann brings to the book. But that, alas, would not have been permitted by the scenario.

I have not yet caught up with Jane Glover's Orchestra, which BBCI are running at roughly the same time, but I have not missed a minute of BBC2's riveting series Affred Brendel Masterclass. "The pedal markings Beethoven wrote are not there for nothing. Whoever ignores them is committing a ignores them is committing a crime", said the guru apropos a noted trouble-spot in the "Tempest" Sonata. "If you feel something you shouldn't interfere by knowing it." The tuneless growl and almost spastic facial expressions with which be accompanies his own which he accompanies his own playing somehow reinforce the impression that he is right in

there among the mysteries. In Wise Man and the Wheel (Channel 4) James Bellini delivered a new hlow to the portly person of Richard Attenborough by suggesting that his emaciated hero was not so much a revolutionary as a misguided Victorian eccentric. The programme, which dwelt at length among the dispossessed poor, based its simple but devastating case on the fact that Gandhi's most enduring legacy has been a cruelly efficient system of capitalist exploi-

The textile workers of Bombay have been on strike for over a year, and have even been joined by the police in demon-strating for higher wages. Violence, said Bellini with pugnacious glee, was now a real possibility. Underedited and overlong, this programme was none the less a timely reply to all those Oscars.

When even Radio Times pokes fun at the Eurovision Song Contest (BBC1) it behoves the rest of us to fall silent.
"Vivre!" sang the French
contestant, heaving over his
keyboard. "Vivre! Encore un
réveil ivre!" "Do re me fa so la ti do!" sang the Norwegians, determined not to rest on the laurels they had won two years previously be scoring zero points. The suprise was that the winner, a torch singer from Luxembourg, really could sing. Terry Wogan officiated with his customary hlend of derision and reverence.

The opening edition of The Late Clive James (Channel 4) was, as Dennis Hackett observed last week, duff beyond belief. Nice to see that the rotund maestro has now pulled his finger out: Saturday's show was well up to standard.

Dance Oasis of sensitivity

Contemporary **Ballets**

Paris Opéra/ Théâtre de la Ville

The big hit with most of the public in the Soirée de Ballets Contemporains at the Paris and Lyle Mays, is restless, with Opéra was Alvin Ailey's Au an edgy pulse, but there is something déja vu about the something déja vu about the destruction of a pop-star musician through adulation, sexand drugs. Across town at the obvious. The energy and glam-Theatre de la Ville. Karole our of the dancers explains the Armitage has been astonishing Experimental Group (GRCOP) knowing and blatant as He not only by the violent energy (Charles Jude, in another cast, of her dancing but by the rock-lacks confidence in his own hipconcert volume of her music.

pletely different and no less the rising star who eclipses him original. The other creation in the hectic finale – definitely a the programment are the programment. the programme at the Opéra. itself was a work lasting half an hour for only two dancers and a pianist. The music is eight of the 12 Etndes for piano by Debussy, excellently played by Georges Pludermacher. The choreographer is Andrew de Groat, who first won attention with his work for Robert Wilson's "operas" but lately has made ballets as a freelance and

for his own group. The dancers were Wilfride Piollet and Jean Guizerix, husband and wife stars of the Opera, who have long been interested in using their prodigious classical technique for contemporary ends. De Groat says he has tried to make the work an equal collaboration of dancers, choreography and music; there are set and free passages, and the relation of dance to music is different in each Etude

Nouvelle Lune starts with solos, gradually building a relationship between the two dancers that makes the most of their remarkable rapport, so that communication sometimes occurs right across the huge stage, and they even seem mutually aware without needing 10 he able to see the other. A decor (by de Groat) of deliberately artificial-looking plastic clouds is brought into the action, descending and rising again; two doves also take partat one moment

The action is an extraordinary mixture of natural movement and ballet technique, huilding on Piollet's strong feet and Guizerix's powerful jump, also the remarkable control that enables both to accomplish the most delicate gradations of effect, as subtle and varied as the music. Physically, to sustain such movement so long and accurately is a tour de force, but equally impressive is the

emotional quality they convey. This work was an oasis of quiet, sensitive and absolutely gripping artistry between Glen Tedey's highly rhetorical Voluntaries, which began the bill, and Alley's new work that ended it. Perhaps it is not surprising that some people left the theatre at the intermission while others were only just arriving (I was there the day after the premiere, and word-of-mouth spreads quickly).

Au Bord du précipice is a wild extravaganza that never lets up for a moment. The character called simply He has an opening solo in a white suit (the jacket worn open to reveal a bare chest), then changed to black leather. His wife, his desire and drugs are all represented by Shein a series of increasingly-rewealing tights; sometimes worn with a huge cloak or strands of scarlet ribbon trailing Young Vic

scarcely ever alone: fans, pushers and a host of other attendants flock the stage. The music, a mixture of modern styles in a recording ("As falls Wichita, so falls Wichita Falls") by Pat Metheny

behind. After the opening, He is.

whole piece, its evocation of the Sordid Sixties rather empty and popular enthusiasm, especially wriggling), and Eric Vu-An as Karole Armitage puts her

high-voltage energy to a far more contemporary purpose both in Massacre on MacDougall Street, which she staged for a French cast, and in The Last Gone Dance, for herself and Michael Clark as guests on one of the GRCOP programmes. Compared with her pieces, the contributions by the group's own choreographers (Jacques Garnier, Magny Marin, Ulysses Dove and Carolyn Carlson in the two shows I saw) are insipid often starting with a good concept, but not backing it with enough movement inven-

tion to hold the interest. The title Massacre on Mac-Dougall Street hints at a respect for Balanchine - Armitage used to dance his ballets in Geneva before coming via Merce Cunningham to her present independent style. Her other piece at the Theatre de la Ville even used elements of rather formal pas de deux partnering at times, although always with a new angle, and there is nothing formal about the relationship between her and Clark, which is

displayed as fiercely aggresive. Dressed by Charles Atlas in outrageous mixtures of colour. shape and pattern, with fre-quent changes of clothes, footwear and even wigs, Armitage and her dancers in both works convey the sort of selfcontained disregard and assurance one sees in many of gave a concert performance of today's young people. The contained quality of it is important in the result what ances in Chicago. For those everyone notices in Armitage's. choreography is its forcefulness, but that makes its effect partly by contrast with a cool, wary stillness, especially in her own

Massacre is danced to recorded music of Rhys Chatham, with whom she worked in her. Drastic Classicism. For The Last Gone Dance Armitage has the composer David Linton on stage, playing a gleaming collecsinge, playing a gleaning conec-tion of percussion in duet with driving energy of his earlier reactings has been toned down pre-recorded tapes. Although the idiom is entirely different, and broadened - the scenes the relationship of musician with Frides are taken much and two dancers is as intense as in Nouvelle Lune at the Opéra.

Perhaps somebody should try putting the two works in tandem on one programme. Although outwardly contrasted, they have a lot in common, chiefly the serious use of a scrupulously polished technique to accomplish something new disregards tradition. Novelty alone, like patriotism, is not enough; amid a rush of more vivid. The entrance of the that develops rather novelties. Armitage and de giants, the decent to and ascent, from Nibelheim, Alberich's Groat offer something more. John Percival of the Nibelings after bringing

Antony and Cleopatra

The school parties packing into the Young Vic to see their set book are greeted by a Voytek set of baroque splendour that seems rather to herald a performance of All for Love. I hope they will not be put off. Keith Hack's production is as successful a demonstration as I have seen of blending and inventing styles and periods.

A headless heroic statue (just spontaneity. So many qualities as apt for this hero as for in this extraordinary play have **Lorenzaccio) dominates a flight to be brought out and balanced of steps down which a cascade the sheer statute of the characof gold spreads from its torso to

RPO/Menuhin

The "Sold Out" sign was up on Friday night when the RPO's

President and Associate Con-

ductor (not to be confused with

any of the five other conductors who at present hold titles with

this orchestra) made a rare

appearance: the name of Yehudi Menuhin draws the

crowds whether he is doing what he does best or whether he

is conducting. I am not such a

spoilsport as to suggest that any concert which involves his

musicianship could be less than

an exalted experience, and in

fact his account of Reethoven's

warm-hearted, enjoyable one.

of the work, translating Menuhin's affectionate gestures into directions which the orchestra could follow. If the

conductor never quite seemed

Chicago SO/Solti

Carnegie Hall,

Orchestra under Sir Georg Solti

lucky enough to have tickets for

the Bayreuth Ring cycle this

summer, the evening was a piquant foretaste. For others in

the audience, it had to be the

. How much has the Solti

conception of the score devel-

oped, since the landmark Decca

recording of 1959 and his earlier

concert performance, in 1971, with the Chicago orchestra? In

truth, not that much. The

more deliberately - and there is

texture and colour appropri-ately, given this first-class ensemble (complete down to six

harps). The slower, expressive

portions were less arresting than:

the big moments, because Solti's sense of phrase cannot

bear the weight of the tempos he

chose.

a greater sense of orchestral

whole Wagnerian meal.

Symphony

New York

"Pastoral" Symphony was a

The RPO's leader did much

Festival Hall

sure whether he was beating in two or four or just encouraging with a generally circular motion, he at least set apt speeds and only a couple of times pulled them about too much; he provided a humane, gentle approach to the work within which the orchestra's competent

playing could function. It follows that this was an entirely unexploratory reading I still live in hope of a first movement which bounces off the strings and a storm sequence in which cellos and basses can he heard.

The first half included Mozart's Concerto for flute and harp, with Jean-Pierre Rampal and Marisa Robles - the former effervescent, hut giving little attention to nicetics of intonation (his main finale entry was wildly off-pitch), the latter nervous but determined in her constant figuration. In each movement the soloists paused to include a little confection of

up the hoard - all were played with ultimate dramatic power, and always invoked the unseen stage. The final pages likewise were brazen and arrogant in their fearsome glitter, that great orchestral machine the Chicago Symphony, powered by its brass, sweeping all before it like a wall of water from a rent dam. It was overwhelming.

No wonder that the cast was largely relegated to a secondary position behind this orchestral torrent. Three of its members will undertake their roles in Bayreuth: Hermann Becht's Alberich, properly malevolent if somewhat raddled at the top of the range; Siegmund Nimsgern's Wotan, very youthful in sound and almost a baritone in his upper register ease; and Siegfried Jerusalem's Loge, craftily characterized but with a smallish voice drowned by the orchestra.

The Fricka of Gabriele Schnaut was forgettable, Mary Jane Johnson made an acceptable Freia and Dennis Bailey had difficulty with the tessitura of Froh. But the giants of Gwynne Howell (Fasolt) and Malcolm Smith (Fafner) were strong, as was John Cheek as Donner, and Robert Tear made a smarmy Mime. Quite the best singing of the evening came from Jan deGeetani's Erda – the most expressive and beautifully phrased Erda in my memory, investing that short scene with a poignant majesty it should but rarely does possess.

Patrick J. Smith

Theatre

Enobarbus's military costumes and a featherwieght lavender tolle confection for Cleopatra which she could have worn to a first night at Covent Garden.

So much for Pippy Bradshaw's costumes. I am less happy about the actors inside them; the distinguished names here are not at their best, and there is some mighty dim work low down in the order.

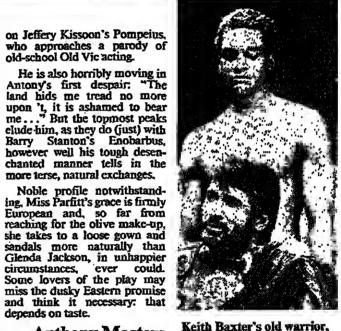

Again and again, the impact of a scene or the reading of a line seems to owe most to the director's intelligence, and loses of crushed and gathered cloth- ters, the intimacy and immedithat expresses itself in some cover the forestage. Antony's of the most emotionally pierc-classical breastplate and tan ing lines in Shakespeare, the leather trousers (impudently rhetoric alternating with diaplanted with a lily up front) sit logue that constantly flickers comfortably beside the imitat- with the subilest bawdy over-ion of Veronese in Caesar's and tones.

There is much more light and on Jeffery Kissoon's Pompeius. shade, in this language than most of the cast seem to be aware. The sense of histronic danger, risking a really big effect (I know schools andiences do not help, sniggering as they do at the sight of a snake), is missing too; and it matters in

this play more than most. Since I last saw him, Keith Baxter (Antony) has become smartly crop-headed and has acquired a fine throaty sonority, invaluable for this old warrior, as well as a beard like the Ghost's in *Hamlet*, "a sable silvered". He gets away with some splendidly butch business, swinging his tall Queen of Egypt (Judy Parfitt) into the air for "Here is it nobleness of life is to do thus" and departing from Sextus Pompeius's drinking session hoisting Octavius (Brian Deacon) in one hand and his host in the other. That is fair, at least,

and think it necessary: that depends on taste. **Anthony Masters**

more terse, natural exchanges.

Keith Baxter's old warrior, with Jeffery Kissoon

Concerts

their own (the cadenzas certainly had nothing to do with Mozart): Miss Rohles's caden-tial whooshes drew delighted gasps from the appreciative house, and even Mr Menuhin seemed quite surprised as he headed for the downbeat. Nicholas Kenyon

Songmakers' Almanac Wigmore Hall

I saw only one red rose on Saturday for Shakespeare and St George: "Let us garlands bring" was the generous response from the Songmakers' Almanac in one of their most enriching entertainments. The obvious, in the form of a

superfluity of sounds and sweet airs, was avoided, as was, generally speaking, the coy and

the didactic. Instead we had six artfully planned acts, with Prologue (Dankworth's "Com-pleat Works") and Epilogue (facry envois from Tippett and Wolf). In between came Germany, Denmark, Scotland, Russia and England, with "A Garland of Fancies" in the middle to enable us to hear Poulenc's and Britten's exquisite settings of "Tell me where is fancy bred". Sarah Walker sang tilem with fitting tenderness and whimsy.

Compliments were variously paid: from Frank Harris ("If Shakespeare had asked I would have had to submit") to Heine, who felt Shakespeare's only fault lay in being an Englishman. To try to prove the point we had Schubert's "Horch! borch! die Lerch" from Sheila Armstrong, and the Antony and Cleopatra "Trinklied" from Peter Savidge.

The biggest compliment peshaps was Graham Johnson's compilation of the Strauss and

Brahms Ophelia songs. Sheila Armstrong, starting with Brahms's unaccompanied How should I your true love know", gave a finely judged portrayal of Ophelia's developing destruction, using tellingly even the weaker parts of her voice. Berlioz's "Death of Ophelia" followed from Sarah Walker, with Peter Savidge providing a postscript from Shostakovich in his dark, declamatory setting of Marina
Tsvetayeva's "Hamlet's Dialogue with his own Conscience".

It was good to be reminded too, in his setting of Sonnet 66, of the historical ubiquity of Art made tongue-tied hy authority" before turning to England and, among others better known, Sarah Walker's perceptive performance of Rubbra's "Take, O take those lips away".

Hilary Finch

Michael Church

Rock An honesty which pierces romance

Joni Mitchell Wembley Arena

Joni sings most affectingly to her friends: Betsy, Sharon, Carol. Her observations have the musing informal tone of letters and conversation, studded with the surprising details which have always lent her songs their special, precise resonance, such as the recent reflection on her friends' children: "We look like our mothers did now/When we were those kids' age".

She has an electric guitar now (a fat-bodied single-cutaway jazz model, to which she has adapted her folky finger style with typical originality) and a Hollywood-slick four-piece backing band. Still, though, the prevailing thrust is of an honesty which consistently pierces and brings down romance on the wing; she wants to be a wild thing, running fast and free, but she is increasingly willing to admit without self-pity to the banal frailties which Case of You".

10 some extent bobble every life, be it ever so grand. Saturday evening's concert followed the path of her most recent album by revelling in the

injection of rock 'n' roll beneath the complicated surfaces of her sotig structures: her guitarist, Michael Landau, provided raging post-Hendrix power chords and solos in "You Dream Flat Tires" and "Wild Things Run Fast". Russell Ferrante (keyboards), Larry Klein (bass guitar) and Vince Colaiuta (drums) sewed up a variety of glistening backdrops, taking their cue from her trademark swaying strum and allowing her voice to range freely through its wonderful variety of timbre. Towards the interval, she shuffled the deck. "God Must

Be a Boogie Man", from the unsuccessful Mingus album, swung on finger-snapping bass and wire brushes on the snare drum; the early "He Played Real Good for Free", still a moving song, was accompanied only by her own piano; "Big Yellow Taxi", in which she rather endearingly muddled up the words, was done folk-club style, alone with her guitar; and she sat at the dulcimer for "A

The big set pieces, one in

later "Refuge of the Roads", autobiography in the picaresque and metaphysical modes. Her recasting of Leiber and Stoller's each half, were taken from the underregarded Hejira: first "Song to Sharon", in which her sustained intensity took the whole concert up a gear or two; The standard intensity is an analysis of Leiber and Stoller's "(You're So Square) Baby I Don't Care" lightened the mood; the marvellous "Chinese Cafe", which is so brilliantly "(You're So Square) Baby I Don't Care" lightened the

"Unchained Melody", brought us back to hushed introspection with the kind of emotional combination-punch she devises better than anyone.

Sinclair may go public

Sinclair Research and Acorn Computers could both so public this year on the back of staggering growth in the home computer market, according to stockbrokers Henderson Crosthwaite. The market has grown from nothing to £90m in two years and the brokers expect home computer sales to grow at 50 per cent compound until 1985 even though the United Kingdom now has more computers per head than any other nation. However, competition and lower costs will trim growth in the value of these sales to around 33 per cent a

PROFITS DOUBLE: Pergamon Press, Mr Robert Max-well's private company which owns 78 per cent of British Printing and Communications Corporation, reported more than doubled profits from £1.4.4m to £29.5m last year. Excluding BPOC, Pergamon improved from £5.7m to £9.7m helped by a £2.2m incurrent to profits of £1.6m on dealings in government stocks.

OPTIMISTIC VIEW: Lord Aldington, chairman of Sun Alliance and London Insurance Group, says the insurance industry's trading prospects in many of its markets continue to Ronald Reagan, reflecting his market forcy. However, in lifelong devotion to furthering be unsatisfactory. However, in the annual report today, he says there are a few signs that more sensible and responsible views are prevailing in falling rates of At Friday's closing price of inflation and in reinsurance \$20%, they are worth about markets.

Sterling 'may rise to \$1.70 this year'

By Our Financial Staff An early Conservative elec-

tion victory would give a big boost to sterling and the pound could rise to \$1.70 against the dollar in the second half of this year, according to James Capel,

stockbrokers.

However, sterling is likely to be subject to bouts of nervousness until the election, the stockbroker says in the latest edition of its International Bond and Currency Review. Its expects greater stability in the oil market after August and the dollar to be generally weak later in the year. On this basis, sterling could strengthen to \$1.60 and up to \$1.70 if the

lovernment is returned. Apart from uncertainties over the election, the months ahead are likely to be nervous. James Capel says the present Opec pricing structure could come under threat up to August

because of seasonally weak demand. A \$25 a barrel oil price is possible and this could push sterling down to between \$1.40 and \$1.45. Thereafter rising inventories

and recovery in the world economy should help to underpin the oil market and sterling could rise against a weakening dollar. But its effective exchange rate could still weaken because the traditional hard currencies will benefit more from the dollar's decline, James Capel say.

The brokers are cautious about prospects for British interest rates. They say short-term United States rates are likely to remain stable for a couple of months but a firm pound could still allow another half-point cut in bank base rates to 9.5 per cent before the end of

Capel expect only a slow world recovery by historical standards, with output rising by 3 per cent on average and inflation by about 5 per cent in the main industrialized coun-

• Further evidence of recovery in Britain is expected from the Confederation Industry, which publishes its April Trends Survey this week. The results are expected to show more companies reporting bigger order books and greater optimism over rising output.

Hammer in salary deal

Dr Armand Hammer, the imerican oil magnate and art collector who made his first million more than 50 years ago, has demonstrated yet again that he has no intention of giving up the gentle art of earning money. Although he is only one month short of his 85th birthday, the good doctor has signed a remarkable employment agreement with his com-pany, Occidental Petroleum, that will guarantee him work and a salary of at least \$600,000 (£390,000) a year until February 1989, when he will be in his 91st.

After 1989, the agreement will be renewable automatically every year, unless either the company of the then nonagen-arian Dr Hammer gives six-month notice that it is time to end the working partnership.

Hammer: the gentle art of earning money.

If he retires, Dr Hammer will still be entitled to a salary encivalent to half his previous year's income until he dies. It will be index-linked to changes m the Consumer Price Index, but only - a characteristic touch this - if the index goes up, not if it falls.
Dr Hammer has been chair-

man and chief executive officer of Occidental since 1957, when he bought into the sleepy \$34,000 Californian oil company as a means, so the story goes, of earning some tax writeoffs in his retirement by drilling a few dry holes.

This ploy, as is now well known, proved a spectacular flop, when Occidental discovered oil not only in California, but subsequently also in huge quantites in Libya and the

Apart from his other sources of private wealth, Dr Hammer believed to be the only capitalist whose office has signed photo-graphs of both Lemm and trade with the Soviet Union -owns 1,160,010 shares in

European governments are to Development.

Negotiations start today on

At present, rates range from 10 per cent on export credits for poor, importing countries to 12.4 per cent for rich countries. However, since these rates were set, world interest rates have fallen about 2 per cent, cutting the element of official subsidy.

The proposed sale could meet opposition from Linfood, the food chain which has in limbo an £82m bid for the entire Fitch Lovell chain. The Monopolies and Mergers Commission has been considering the impli-cations of such a deal. The Commission's report is believed to have gone to Lord Cockfield. Secretary of State for Trade, last

Should Linfood be allowed to proceed with a bid, then it might well object to the proposed sale, though its scope for effective resistance might be

US stake in Minet leads to review

By Andrew Cornelius

The ruling council of the loyd's insurance market is planning to investigate the question of ownership of loyd's brokers by insurance companies at a meeting to be held next month. It follows the disclosure that

a US insurance group has acquired a near 25 per cent stake in Minet Holdings, the British insurance broking firm.

Sir Peter Green, the chairman of Lloyd's, wrote to Mr Ray Pettit, chairman of Miner, earlier this week to give a warning that Minet may not be allowed to place business within the Lloyd's market if St Paul

the Lloyd's market if St Paul Companies, the US group, increases its stake in Minet beyond 25 per cent.

Minet had sought advice on the matter from Lloyd's after St Paul announced that it had increased its holding in Minet from 19.97 per cent to 24.96 per cent.

Mr. Nigel Mobbs, chairman The book value of Slough's of Slough Estates, says he is property portfolio edged up "confident that we will be £19m to £498m, but this reporting a further advance in includes new additions offset by profit" for 1983. The company's a deficit of £12m on revaluantial report, published this morning shows that profits rose from £13.4m to £16.1m last hopefully a temporary, weaker year even though it was a year demand for industrial and commercial premises, reduced in which the specialist inches the question of ownership of Lloyd's brokers has been reviewed on several occasions. He said that the position had not changed since he advised Mr John Wallock, the former chairman of Minet,

Stock prices boom as Wall St waits for bumper profits

Wall Street has been going from record to record, pointing to a strong economic recovery. Last week's report of a rise in real gross national product at an annual rate of 3.1 per cent in the first quarter sharply understates the upward trend in non-farm ac-tivity. When the effect of a drop in farm output – always hard to measure on a seasonally adjusted quarterly basis -between the fourth quarter of 1982 and the first quarter of 1983 is removed, non-farm gross domestic product rose at an annual rate of more than 5 per cent in the first quarter. Wall Street is looking for big profit gains this year and in 1984. Many important corporations are already pro-ducing improved profits, and the hig three in the car industry will-show a profit of almost \$1,000m in the first

IBM's profit rise of almost a quarter has led to specu-lation about a rise in dividend from the computer group or a new stock split. IBM's stock has been showing large gains, which indicates powerful con-victions among investors. While the economy is

gaining more and more mo-mentum, inflation remains subdued. The consumer price index rose at an annual rate of only 0.4 per cent in the first quarter of this year. The gross national product deflator showed a rise of 5.8 per cent at an annual rate when the national income figures were . announced for the first quarter

Even money supply has stopped its frantic boom. On

budget delicit

Friday night, the Federal Reserve announced M1 had fallen \$3,100m in the week to April 13 – a far higger decline than anyone predicted. As a result of this drop, M1, is back to below where it was in the week of March 9. The fact that there has been no growth in money since early March will help to restore confidence in the financial markets and facilitate a drop in interest rates. The markets had become nervous about the m boom set in train in mid-1982. The Federal Reserve Bank

of St Louis pointed out last week that of the decline of 606 basis points in the 30-day commercial paper rate between Fobruary 1982 and March 1983, 512 basis points took place before the end of August

1982, before the recent money boom gained any significant momentum. The bank concluded: "Since November. although M1 has continued to grow at about a 15 per cent rate, short-term rates have remained relatively stable."

If the Federal Reserve

maintains the negligible money growth that has now gone on for five weeks, interest rates will probably fall ac-companied by a weakening of the dollar.

Even so, the dollar may not weaken by as much as would seem justified by the weakness of the US trade balance. This is because the high level of US real interest rates provides a powerful attraction to inter-

national capital.

Mr Martin Feldstein, the chairman of the council of economic advisers, drew attention to the connexion between these high real interest rates, the strong dollar and the federal government budget deficit in a speech in Chicago in which he concluded:

"The only appropriate way to reduce our structural deficit in international trade is by reducing the budget deficit that is the basic cause. If the budget deficit is reduced, the real long-term interest rate will fall and this will reduce the pressure that keeps the dollar so high. Deploring official inter-

vention as a means of achiev-ing a weaker dollar, ho said: "The basic fact is that the value of the dollar can be changed only by modifying tho goals for our domestic econ-

GGThe steady improvement in our results derives from a significantly better performance in the U.K. due to our policy of continued investment in new plant and an increasing awareness of the importance of productivity amongst our employees. As expected, the going has been tougher overseas but we may have seen the end of destocking. The merger of Denver Metals with certain of our South African manufacturing interests has given us a stronger base for long term growth. in our Annual Report I expressed the hope that the Group would continue to make progress. Currently I believe the trend to improved profitability in the U.K. should continue end that it will offset some further decline in our income from overseas. Our overall prospects therefore remain unchanged.99

New centre for US

By Baron Phillips Construction and property group Taylor Woodrow plans to develop a new complex called the World Trade Centre at Tampa, Florida, through its American subsidiary at a cost of about \$55m (£35.2m).

The announcement coincides with a visit from the Tampa "super task force" which is io Londoo this week promoting

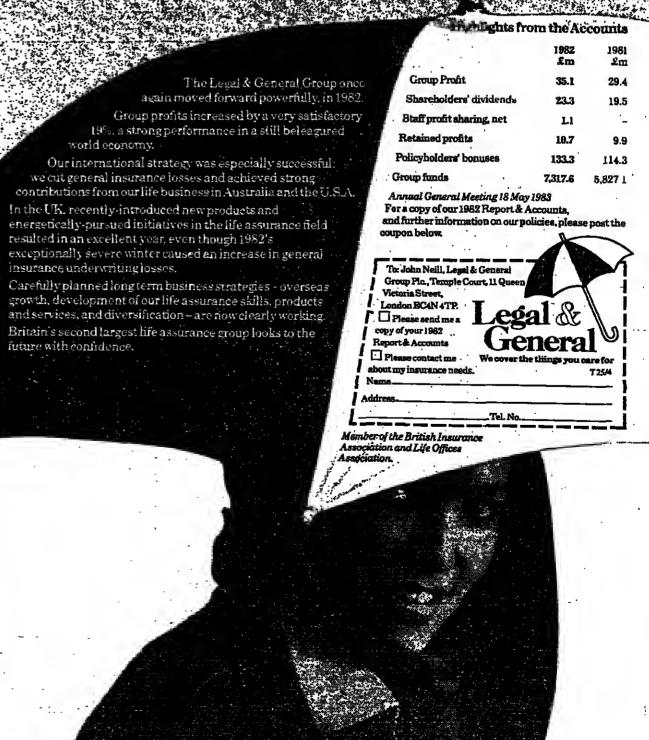

Taylor Woodrow proposes to build the new centre on a site close to the downtown area, the port and Tampa's international airport. Plans include almost 300,000 sq ft of offices, a 300befroom hotel, conference and meeting rooms, retailing and a world trade club.

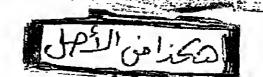

A spokesman for Taylor Woodrow said over the weekend that construction for the centre was expected to begin in

London clubs on different tracks

The distance between Queen's Park Rangers, Fulham and Chelsea, covers 10 stops on the underground map, and 37 points in the second division table. The three West London clubs all went their separate ways on Saturday, yet they could find themselves standing on three different platforms next season.

Rangers will be in the first division; last year's FA Cup finalists

division: last year's FA Cup finalists and the only League club in be assured of promotion so far, they need nnly beat Wolverhampton Wanderers at home on May 7 and gain one point from their other four games to go up for the first time as champions. In 1968 and 1973 they

As champagne corks receheted around their dressing room to celebrate an own goal by Leeds's Hart, a sobering note was introduced two floors above. Jim Gregory, the chairman, responsible for lifting Rappers into relative for lifting Rangers into relative prosperity as wall as into the modern age, announced that he is retiring at the end of the seasop.
There are plans for a consortium,
led by Terry Venables, the manager,

Rangers' away record is second only to another West London representative, Wimbledon, and they have proved that their ability reaches far beyond the confines of their own synthetic pitch. As they are almost sure to claim the Combination league title as well, the necessary reserve strength is available and their future among the

Wnives, when they met a resurgent Fulliant G Poyton J Hopkins, K Lock S' Leicester City. Before the inclure at Ordscoll, R Brown, A Gale, G Davme, it the beginning of December Fulliam Wison, Octoney, (sub P Parker) R Houghton R were: 13 points ahead of Leicester, Lewington.

After Saturday their lead was reduced effectively to one.

One cause of Fulliam's fall can be Referred: H King (Morthyr Tydffi)

Davies scored 15 goals and Coney five. In the last five mouths Davies has added only four and Coney's two were in cup ties.

Coney is undeniable out of form.

He was eventually substituted after missing the most blatant of opportunities 15 minutes from the

One reason for Leicester's rise lies in the suspensinn of May. Mac-Donald moved back to become an Donald moved back to become an impressive central defender, although two late and cheeky headers back to his goalkeeper frightened his manager "to death", and Daly came into midfield. In late April May still awaits a recall.

Gordon Milne believes that Leicester have been able to relax because they have been so far away from contention. Wilson's decisive strike in the 65th minute, after

Peyton had made two notable saves and one that was scarcely credible in a match as entertaining as most in the first division, has changed all

Much depends nn Leicester's reaction to pressure. Unbeaten for 11 matches, they hold the advantage in goal difference. They are at home to Bolton Wanderers and Burnley and away at Leeds United and Oldham. As well as entertaining Carlisle, Fulham must make three awkward journeys to Sheffield Wednesday, Rangers and Derby

County.

Chelses may be in the third division. The club with potentially the biggest support in London sank into the bottom three for the first time this season and, considering necessary reserve strength is available and their future among the elite is likely to be as smooth as the Loftus Road surface.

Fulham will probably stay in the second division. Since November, like Rangers, they have been strong promotion candidates, but their position started to weaken, like the second division. Since November, like Rangers, they have been strong promotion candidates, but their position started to weaken, like the second division, like Rangers and Fulham, lies in their nwn trembling bands.

Facing relegation begs a question of style

Swansea City.....

John Toshack, the Swansen City manager, came close to admitting defeat after a result which almost certainly condemned his team to second division football, next season. "It's not settled yet, but if I were a betting man I would not put money nn us staying up. We needed to get something from this game ",

The final douche in any prospect of a party atmosphere came out of nothing as O'Neill unexpectedly despatched a shot of considerable power-from '30 yards. Grobbelaar's eap was agile enough, but he could not get, near-if. So 'Norwich earned the distinction of bearing Liverpool twice. this exaston.

favourites and champions Hull were given a severe fright by Oldham before winning 24-21. Leeds went five points down at Wigan after s try by Foy and a goal from Whitfield, but they stormed back to belie their poor display at Leigh last week.

Conway, the young scrum half, scored n try and kicked four goals, while Holmes dronned a late goal while Holmes dropped a late goal. Whitfield kicked two further goals for 0 Wigan side who were tackled

out of the game.
Oldham ed 11-9 at half-time ot Winners' Cup.
As it was a week of unsurpassed schievement for Dundee United, it was one of bitter disappointment for Celtic, for so long firm favourites to win the league for an unprecedented third time in a row.

The threat of a breakaway by Scotland's leading clubs receded last night when the Scotlish League agreed to a top level meeting with the ten Premier Division sides.

GOLF: BRITONS HOME AND DRY IN MADRID OPEN

Lyle splashes out to settle his score with Ballesteros

It was a day fit for neither man 15th and 16th, coupled with n five of a chip and purt. Ballesteros struck rofessional golfers trying to earn an off the Spaniard. Lyle finished with his second wildly into a bunker and nor beast, and curtainly not for professional golfers trying to earn an honest crust but, whatever the conditions, what can you do when mean, not Severiano Ballesteros) and Ballesteros himself is striving to and sancareros himsen is surving to retain his Madrid Open golf championship? There was an occasional hint of the sun, but it served only to highlight the misery of the rest of the day as the rain belted down and players contended as best they could with sodden fairways and green that had to be

arrived.

All that was forgotten, however, for visitors from Britain, when Sandy Lyle strode to a magnificent victory. It was his first since last July but probably one of his sweetest, as he had had a score in settle with Ballesteros for that crushing put at the first extra hole that deprived him of the matchplay championship at Wentworth last October.

Now it was Ballesteros who offered the greatest threat to Lyle for much of the long day, getting to within a shot of him at one point, but successive birdies by Lyle at the

o 70, two under per, for a total of 285, four strokes ahead of Ballesteros (73 yesterday). But Gordon Brand senior continued his unex-pected run nf success with a 74 to secure second place, for the second

secure second place, for the second week running on 287.
Lyle stood on 215 overnight, nne under par, two strokes behind Brand. But while Lyle strung together a series of par figures Brand lived dangerously. From a weak teashot m the first (195 yards) he took four for which he immediately. four, for which he immediately atoned with a birdie at the long second, one of the few among the fancied players to make up a stroke

ancied players to make up a stroke at that hole yesterday.

Brand dropped another shot at the fourth and again made good the error with a three at the next. The gap finally closed at the short sixth which Lyle reduced to two while Brand was again frustrated by a short hole. A three at the seventh took Lyle into the lead for the first took Lyle into the lead for the first time and 5 five at the next by Brand

left him two strokes behind.

For a variety of reasons the low lying, ninth was playing more like a five than a four but American Tom

his second wildly into a bunker and literally splashed out to seven feet,
The sodden green defeated his part. ... Lyle's second at that hole: launched with a huge splash, was beld up by another pool in front of

the green and, as was the general:
way in the conditions, his chirapulled up seven feet short and the
putt rimmed the hole. Brand was inthe trees and when he, too, had a seven font putt to save his par ite.

Miss Connachan's stroke of luck

Eight strokes clear of the field with eight holes to play, Jane Connachan eventually won the Helen Holm Trophy by a single shot from the holder, Wilma Aitken, Lewine Mair writes. Her three-round aggregate of 228 comprised scores of 69 and 75 over Troon Porland and a last round 84 over the Open championship links of Old Troon.

Miss Connaghan, out in 37, took the loss of a shot at the 10th in her stride. But, from the moment she lifted her head to miss a little put on the 11th green, everything started

to go wrong.
By the 18th, her margin nver Miss
Aitken was reduced to two and Miss Connachan looked to be in dire trouble when her second, from 8 treacherous lie in the right rough,

scuttled along the ground and nuly just found the fairway.

but on an afternoon when her short game and bunker play were well nigh perfect, she got down in two more in chuch her par and in leave Miss Chanachan with the mappetizing task of having to get down in two from the back of the green to The Sconish champion's first putt

was too strong and, with the rule stating that, in the event of a tie, the saung that, in the event in a ue, the championship would be decided on the last 18 holes, she was now left with "an all nr nothing" putt of five feet and a half. Aiming just inside the right rim of the hole, she strOed the ball home.

SNOOKER: A CASE OF MAXIMUM EUPHORIA

Gritty stuff from Davis

Steve Davis scraped into the last eight of the world professional championships sponsored by Em-bassy in Sheffield late an Saturday night, beating Dennis Taylor 13-11, He had trailed 4-3 and 8-7 after the first two periods of their best of 25 frames second round match.

Taylor went ahead at 9-8 but when Davis won four frames in a row to stand on frame from victory.

Taylor came back to 12-11,

including a superb break of 83 in the 22nd frame, befine Davis wrapped up the match by taking the 24th frame 94-26.

Cliff Thornburn, whn made the first maximum 147 break in the world championships on Saturday night, said: "I am still in shock. Its simply mind-boggling." At one point in the break, be risked disrupting his rythum by turning aside to blow his nose. "I had this terrible vision of making history with a runny nose, he said.

Sidney Friskin writes: The maximum the property of the said.

Sidney Friskin writes: The maximum break of 147 is the fulfiment of every snorker player's dream. It is the pinnicle of his career, whether it is achieved in ordinary match play or in a tournament. All the

came near the maximum hreak last year when made 145 to break the

record for the champinnship. The required sequence of 15 reds and 15

was forced to take a blue instead of a black. Now Thorburn has achieved what Mnuntjoy just failed tn accomplish. When the late Joe Davis made his maximum break in London in 1951,

il was done in an ardinary match: He could not have dreamt at that time some day someone would receive £13.000 for the task.

TODAY'S FIXTURES

Hall scored four trees and Fairbairn a try and seven goals as Hall Kingston Rovers cruised to an easy 35-14 victory over Castleford. Widnes beat St Helens 11-7 at Knowsley Road after trailing 7-0. In next weekend's semi-final round ties Hall KR play Widnes on Saturday and Hull take on Leeds on Sunday.

RUGBY UNION CLUB MATCHES: Newbridge v Maosteg (5.3C); St. Ives v Ebbw Vale (7.15).

Nothing final for Leicester

Moseley .. Leicester...

Leicester will decide their team for the John Player Cup Final tonight, but they will surely be unable to confirm the line-up until much later in the week. Apart from Dodge, their England centre, who had been resting a damaged hamstring two senior forwards joined the casualty list after the win over Moseley at the Reddings on Saturday: Smith, with a recurrence of an old hamstring injury, and

Gillingham, with a twisted ankle. Bristol. their opponents in the final next Saturday, may shake their heads and look wise after resting the bulk of their cup squad, but over the last five years it has not been Leicester's policy to put out the shadow XV in the penultimate game before the final.

Smith's injury occurred when he slipped in the second minute of the game. Gillingham's when he was involved in a maul at the start of the second half. Moseley's doctor was oble to prescribe rest and physio-herapy and Leicester will cross therapy and Leicester will cross their fingers - and anything else they feel may help. It was unfortunately that sort of a

Saturday that Liverpool, their opposents in the final of the

Lancashire Cup on Sunday, were able to go into the match much

But as thiogs turned out, Orrell had gone through the entire weekend's supply of unforced errors

on Saturday, as made no mistakes as they downed Liverpool 26-3.

So they downed Liverpool 26-3.
On the glum Saturdoy, Orrell lost 9-6 to Sale, going down by three penalties to a goal, and so cooceded the Northern Merit Table championship to Sale, who played with an ice-cool, organized defeore and the sort of courage and character they have sometimes leaved.

they have sometimes lacked.
All the points were scored in the

first balf, and a more astute tactical grasp could and probably should have brought Orrell victory. But the

word had toexplicably got around that the full back, Lowden was vuloerable under the high ball, and too mueb quality possession was kicked into his safe hands.

He passed this personal examin-

Sale's three penalties for good measure, two of which were far from

easy. The game's only try, which Langford converted, erased a six

Kelso firmly re-established them-

selves as the best seven-a-side combination in Scotland with an

casy vin over Heriot's at Murrayfield yesterday. It it was less ope-sided than last year's final between

the same teams, wheo Kelso won 38-0, the result was still emphatic.

The Haig Trophy went to the Berders town for the third successive year and it is the second

year running that they have won the

desperately hunting for replacements in the team they sent to the Haig invitation sevens yesterday.

Considering their readiness to help Leicester prepare for the floal by purebasing a leather ball rather than the usual all-weather one. Lady their fingers — and anything else they feel may help.

It was unfortunately that sort of a game. There was nothing obviously malicious, yet all four replacements were used and still Moseley ended with 13 men, a third having been sent of 10 minutes before the end. The game capped what has been a thoroughly unhappy season for the Birmingham elub. leaving them

RUGBY UNION: TWO MORE CASUALTIES IN THE CUP FINAL COUNTDOWN

Smith: latest casualty

had comparatively little to do. He was confident to his approach, however, and will probably deputise for the unavailable Hare with Leicester boping that he shows no further peochant for letting high kicks bounce before collecting them. Leicester were completely out-classed at the line out, but achieved classed at the line out, but achieved of formidable drive in the set scrums Juntil Gillingham's disappearancel against a pack at least as beavy as Bristol. Richards and Tebburt showed a buge appeute for work and, should Smith prove unfit. Tebbutt will be an able deputy.

Moseley showed o commendable

desire to run the ball, but their attack faltered in the centre, hardly surprising after Woodward popped up twice to seize a pass and scamper 50 metres to the first half and 70 in the second for tries. Goodwin received only two passes all afternoon which may account for his frustration when he stepped ont of Evans' tackle and was knocked into the corner flag by Dodson and

He thought he had scored; the touch judge, an experienced north Midlands referee, John Burgum, disagreed and Goodwin hurled an epithet and the ball of Mr Burgum. It was the act of a disappointed young man and deserved punishyoung man and deserved punishment. Fred Howard, the referee, was technically right to send him off, but it seemed a drastic punishment when a stiff and obviously public wigging might have served.

Meanwell, Moseley's final casualty two minutes from the end, kicked two penalties and Gisbourne with a splendid drive scored their try. Leicester's best-earned tries came from Tebbutt and Poulson.

came from Tebbutt and Poulson, their gifts from Woodward (2) and Evans, with Cusworth kicking three points, their highest aggregate io any

MOSELEY: R Meanwell: J Goodwin, C Osborne, C Smith, A Thomas (rep. & Swein); C Arritzen, S Cookson; M Heed, Ø Car (capsain), P Glabourne; 2 Cairle Irgo Astley), J Devidson, R Tuckwood, R Berr, N Jeevons. H Incorpool, I Serri, N Jewerma, L Bases, C Woodward, A Bernwell; L. quantities of nervous energy as they him, and look his slipped pass to went down to Sale at Brooklands on score. Sale's players made a presen-lation to their coach. Des Seabrook after the match. He has coached one of the outstaoding Northern sides this winter, and happens to be a life member of the second – the new holders of the Lancashire Cup. It was 3-3 of the interval vesterday at Blundelisands and Orrel's decision to play the same

side that bad lost to Sale, had already been vindicated, thogh the vast gap that was to open between the teams to the second half was not then apparent. Langford's early penalty had been answered on the stroke of half time by a gorgeous penalty by Killen. But the second half saw o brilliant performance from Williams, the Orrell stand-off half.

Orrell stand-off half,
It was the owesome power of
Orrel's pack that caused Liverpool
to crumble, Williams and Langford
kicked for position, the back row
opplied merciless pressure, and
errors proliferated. Cleary picked up
neatly and dived over from a melee
almost on the Liverpool lioe;
Kimmios, o youthful, shambling
giaot of a lock, forced his way over,
and Langford helped to make a try and Langford helped to make a try for the speedy Wilkinson, Langford converted, and added a point lead. Orrell's powerful pack were getting well on top and, after the real possibility of a pushover try had been averted. Clough made a pressure.

when he dived on the ball when Waterloo failed to cootrol it at a scrum near their line. After Cotter

Woterloo are eojoying a fine woterioo are cojoying a line season io their centenary year and like Coventry last week, this was their first visit to Pootypool Park. From the first scrum on Saturday, when they were forced to retreat at speed ood Pontypool's early powerful charges resulted in a try in the fourth minute, Waterloo seemed destined for a similar fote to that of Coventry. Coventry.

Saturday against Swansea in the cup final, look to be in for a comfortable ond not-too-taxing rebearsal. But, despite their forward superiority, they atruggled for the points and only in the last few minutes did they get the final score to win by a try and three penalties to a goal and two

ht was an ill-tempered opening period. A couple of players should have been sent off. But if the referee was incapable of cooling their tempers, the heavy downpour at the start of the second half, presumably did, It came at an awkward time for Waterloo for they were to the lead at that stage, and the changing conditions probably wrecked their chances of victory

Forgotten lines wreck Pontypool's rehearsal

Pootypool, forced to make two changes - Butler and Huish were unavailable - from the team which will presumably take the field next

had replied with a penalty. Peter Lewis responded with one of bis. Although McEveley and Cain, the props, were in dire straights, Fisher managed to retain his share of the scrums possession. Wisely, Water-loo tried to keep the ball away from the enveloping presence of the Pontypool eight. They were justly rewarded with a superb try. With a handling movement from their own line they turned desperate defence oto attack. From the scrum on the Pontypool

line. Christopherson sliced through the defence to score near the posts. Cotter, who has scored more than 500 points this season, converted. He extended the lead after half-time with a long distance penalty. No one has beaten Pontypool at home this season, and when it began to look that Waterloo might just

make it, the rain came.

In the end their centres, over eager, were twice caught off side.

Peter Lewis, although be had missed with two other opportunities, kicked

A clean pair of heels at Bath

By Peter Marson

For a Bath supporter, and an Englishman, there can be no more acceptable way of passing St acceptable way of passing St George's day than plunging a spear into the beart of the Welsh dragon. The way in which the Englishmen dealt with the pride of the Principality gratified the most patriotic of hopes at the Recreanoo Ground on Saturday.

In years past. Bath's rugby bas sheltered in the shadows thrown by those historic pillars which support this celebrated Georgian city. But the new year has seen Bath's rugby biossom, and this victory by three goals, a try and two penalty goals to a goal and a penalty goal means that the club stands two short strides away from recording the most successful season since their found-

If Bath's rugby is to match the style of those crescents, terraces and squares, the club must beat Old Redcliffians in the Somerset Cup on Wednesday and then Bedford in the season's final match at Golding Road on Thursday week.

Cardiff sooo found that eveo their best endeavours were not going to be good enough. At oo-side, they, like the rest of us, could appreciate bow Bath have averaged over 32 points to their last eight matches

Cardiff's single try, converted by Ring, who also kicked a penalty gonl, was a good one, but born chiefly of Cordle's individualism, while Bath exploited team under-standing to bring four spanking tries for Trevaskis (his 31st), Halliday, Trick and Martin. Trick and Martin.

Trevaskis had to stretch his legs Trevaskis had to stretch his legs to chase a cross kick to the left hand corner to score the first, and following Horton's break, Halliday's strength and determined running made sure of the second try. Later, Horton, Simpsoo and Chikott dove-hailed neatly down the left flank, and with the prop forward passing in the manner of Butterfield, Martin chased his own kick ahead Martin chased his own kick ahead to crown an excellent display with

In between there had been a virtuoso display by Trick, a spitfire among gladiators as he swerved outside Neil O'Brien and accelerated past Goodfellow to score behind the post. Here, Palmer landed his third conversion to go with two penalty goals.

BATH: C.S. Mertin; O.M. Trick, S. Halfidary, J.A. Pairter, B. Trevriskis; J.P. Horiton, R. Hill; O. Chicott, K. Adams, R. Lae, R. Spurrell (capt), M. Haymerst, R.P. Haldin, J. Hall, P. Simpson, CARDIFF: P. Goodfellow; A. Hadley (rep. N. O'Brieri), O. Berry, M. Ring, G. Cordie; W. G. Davles, G. Williams; R. Hawman, L. O'Brieri, I.Edman, O. Golding, J. P. Scott (capt), K. Faster pace proves a winner for Higueras

By Rex Bellamy Tennis Correspondent

Jose Higueras saved five match points before beating Tomas Smid 2-6, 7-6, 7-5 in the singles final of the Stated Express Classic tournameet at Bournemouth yesterday. For the second time to three years, bad weather made it necessary to complete the fiant indoors on a faster surface.

Higueras had never before won a tournament on such a court. For some time be has been telling us that his game has became more that his game has became those compatitively aggressive since he married an American and began ot play much of his tennis on quicker courts than his preferred clay. Yesterday he proved his point, ocuably by hitting six consecutive winning volleys at the crisis of the third see

his passing shors, especially on the backhand, and also made effective use of the lob. Smid kept charging to the net whenever he could and towards the cod of the second set he looked to have the match in his

But at 6-5, he was beater by passing shots on two occasions when he was within a point of winning. In the tie-break be was twice a point up against service. But Higueras bung on, and eveotually, regained a title that he had previously woo in 1978. Five of the last seven singles champions at Bournemouth have been Spaniards.

Twice in three weeks, teenage qualifiers have reached the semi-final round of a Grand Prix tournament - Libor Pimek io Lisbon and Stefan Edberg at Bournemouth. Both won six

Bournemouth. Both won six consecutive matches.
On the other hand, the oldest man to the Bournemouth draw, Jaime Fillol, aged 36, progressed to the last eight and served for the match against Higueras. It seems that most of today's leading players are not good enough to be confident of beating the more talected players of vesterday and tomorrow. of vesterday and tomorrow.

Colin Dibley and Sherwood Stewart shared about £9,000 by beating Mark Cox and Tom Okker beating Mark Cox and Tom Okker 6-4, 3-6, 6-2 in the final of the doobles tournament for players over 35, Both pairs has won all their three matches in the preceding all-play-all series, played to two groups. A superficially off feature was that the left-handed Cox, whose backhand is not his stronger flank, nevertheless played in the deuce court. For some reason Okker simply cannot play good doubles from that part of the court.

Yesterday, Dibley's service games were the most secure and Cox's the least so. The first game of the third

least so. The first game of the third-set affected the momentum of both

are exploited by East

consider the situation. Had be been penalized for "an audible ob-sceoity" and had theo appealed, would a Court of Law have upheld the appeal?

The derivation of the word is disputed. It may be a corruption of "by oor Lady", but has also been associated with "bloods" (aristocractic grandees) and, even more so with blood spilling. Technically it is what is known as an intensive, like "very" or "confounded".

Kurt Nielsel, the Grand Prix supervisor at Bournemouth, says the supervisors have not fixed policy when dealing with word's use on court, because although "bloody" is offensive to many people, to others it is oo more than an emphatic adjective. Niclsen says that consequently much depends on local usage and whether or not the match is being televised.

RESULTS: Semi-firmls: T Smid (Czech) bt V Pacci (Paral, 4-8, 6-2, 10-8: J Higueras (Sp) bt S Edberg (Swe), 6-1, 6-1. Finel: Higueras bt Smid, 2-6, 7-6, 7-6.

ATHLETICS

Ovett back Harmonious win for on road to fitness

By Pat Butcher

Stere Ovett was denied victory in his first international race for eight meaths, when his England team-mate Eamona Martin won yesterday's Oslo 10 kilometre roa they's Ose to knowlette read race, relegating Ovett to second. Martin, from Basildon AC won this event last year, his time yesterday, 28 min, 36 sees, was 18 seconds faster than that of Ovett.

Martin broke oway with three kilometres to run, and never looked back. Orest, who had been in the leading group throughout, said that he was well satisfied with the result after his tojury and illnesses of last year, and did not need to overwork himself at this point by following Martin's break.

Paula Fudge won the women's section in 34.01.2; but the most reassuring run by a British woman was Joyce Smith's insistence that she was only on a training run, will afford no satisfaction to Britain's other womeo marathoners, especially whoo they see that her time of 2.38.05 was six seconds faster than that of Kath Binns, the first British woman in last Sunday's London

maration. Elsewbere, the influence of marathon boom continues to be as baieful to officials as it is becerolent to agents nod running shoe salesmen. At a meeting of the International Amsteur Athletic Federation in Rome on Saturday, the president, Dr. Primo Nebiolo announced that there is to be an investigation into the conduct of the president. orgazizers of the Rotterdam marathon two weeks ago. The IAAF has received complaints from Britain and Mexico over approach-es allegedly being made direct to athletes instead of through their federation.

After the IAAF had withdrawn permission for an Australasian marathon between Robert de Castella and Alberto Salazar, set up Castella and Alberto Salazar, set up by the runners' agents International Management Group, the Rotterdam organizers stepped in to invite the men to their event, which was won by de Castella. The only British involvement was that of the Scot, John Graham, who acted as pacemaker. Dr Nebiolo has prom-ised "severe measures" for trans-gressions of IAFF rules. 10 Sutton Park, Birmingham, the officials of several clobs competing

Io Sutton Park, Birmingham, the officials of several clobs competing la the national 12-stage road relay complained that some of their best men were suffering after racing anarathons. The Loudon winner, Mike Gratton, certainly was not deterred as he turned in a good 14.21 on the short leg for Invicta AC.

But notable absentees were Gerry Helma, second in Loudon, Dave Cannon and Ray Smedley. But Smedley's club, Birchfield Harriers, filed the gap and won after a late battle with their local rivals, Tipton.

Birchfield's first victors in 10

Birchfield's first victory in 10 years was particularly gratifying for Steve Euron, who ran for Tipton in lest year's race, but left after differences with the club. On the peaultimate leg. Euron started for Pirobiold all counds but it is Birchfield 48 seconds behind his old

club, but handed over nine seconds in the lead to set up Birchfield's win

The women's AAA extraordinary general meeting, also in Birming-ham, broke up in some disbelief after the adminstration's legal adviser advized that the custom an practice of denying proxy votes for the last 60 years had probably been illegal. After two and a half hours, the issue on the agenda was never debated. There is to be o postal vote on whether a working party should be set up to explore means of amalgomating with the other coverning bodies.

So, to have denied that Danzatore was working badly only 48 hours before his withdrawal cannot conceivably be regarded as a good exercise in public relations. We all acknowledge and admire O'Brien's professional penjus but his economic professional genius, but his secrecy is becoming obsessive. introduced Ladbroke's have

Lomond into the 2,000 Guioeas beeting at 10-1. Seattle Slew'a halfbrother won a maiden race easily at the Curragh as a two-year-old, but disappointed when only third behind his stable companion, Glenstal, in the National Stakes at the Curragh, He was - so they say -suffering from a throat infection afterwards and certainly proved his well heing when beating the four-year-old Patron in the Gladness Stakes at the Curragh earbethis month, Goryus and Diesis are now joint favourites for the Guineas at 11-4. Wassl is third favourite at 9-2. In direct contrast to O'Bien, both Henry Cecil and Guy Harwood ere enjoying their exposure to the glare of the media at Sandown on Saturday, Cecil's Gucci ahoes were dancing as, the champion trainer

Stakes and of Courad Hilton in the Marcus Beresford Stakes, coupled

Marcus Beresfird Stakes, coupled with that of Diesis's galloping companion. Valiyar, at Leicester put Cecil in a happy mood.

The energetic Harwood was also relaxing in the unexpected suoshine after Greville Starky and Gordian proved to strong for Neorion and Philip Robinson in the last furlong of the Gardian Classic Triat. Whether Gordian is going to follow in the footsteps of such previous winners as Troy, Henbit and Shergar may be open to question, But Stavros Niarchos's Grundy colt certainly deserves full arks for certainly deserves full arks for

The jockeys have been told to go alow for the first furlong or so by the stewards, as the ground by the 10-furlong start was the worst affected by the rain. They certainly carried out their instructions and the race developed onto a three-furlong

Russian Roubles ran unacountab, ly bad and Cock Rohin, Polished Silver, Welsh Idol and Special Leave, all lauoched unavailing challenges. Cock Rohin, 2-1 favourite, was ill at ease in the going and the first a corne of the bridle. It is the first to come off the bridle. It is unwise to make excuses for beaten horses and generally best to take results at their face value. But the ground was so testing and the time of the race so slow, that the only answer must be to bold a watching breif at present.

Gordian may go straight to Epsom without another run. "He doesn't take much getting fit," the trainer said, "and if I decide to give Gordian another race, I would have to find an uncompetitive ooe for him." Gordian's victory certainly him." Gordian's victory certainly paid a handsome tribute to his five-length Dewhurst Stakes conqueror.

This was a marvellous after-noon's racing which had the crowd roaring their beads off with excitement. The enormous canti-lever stand towering over San-down's natural amphitheatre creates a perfect setting for that spectacular steepleebase the Whitbread Gold Com

Cup.
There were still 10 runners in with a chance as they raced towards the pond fence, the third from hame, But as they jumped the second fast Royal Judgment. Prominent King and Drumlargan had singled themselves out from the remainder. Tim Easterby had ridden a superb race on Prominent King, but so too had his fellow amateur. Frank Codd, on Drumlar-

amateur. Frank Codd, on Drumlargan who proved too strong
Drumlargan's victory gave Eddie
O'Grady the second leg of a
magnificent spring double, the
Tipperary trainer having already
won the Irish Grand National on
Easter Monday with Bit of a Skite.
Drumlargan was operated on for a Drumlarean was operated on for a soft palate by Geoffrey Braine in January, He had run well for a long way behind his stable companion at Fairyhouse and was not unfancied on Saturday, certainly not if the cheers around the uosaddling

enclosure were anything to go hv.

A gamble went astray in the Esher Cup when the 5-2 favourite, Shareef Dancer, was beaten by So True, But the coup of the day seems to have been landed to the Tim Doody Road Marking Stakes at Kelso Despite Run in Tunc's starting price of 25-1, his victory was anticipated by a bold course punter who staked 5300 at those odds. Congratulations are due to the successful owner-trainer, Don Eddy, a coin and stamp dealer from Stocksfield in Northumberland. Mr Eddy'a plan to win £250,000 over Arrigle Boy in the Grand National may have ended in disaster, but Ruo in Tune made no

Mendis, the captain, who hit 74, Right Bank proved too smart for the British-trained What Lake in the.

Australia took the wicket of Fernando and Dias, the vice-captime leader, Tajwind, with a furlong

his innings which lasted 151

Many a slip: Wasps whack an early goal before slithering out. Picture: John Evans. canadiens had been working exhausticely long shifts in co-attempt to stretch the lead, by rights

in his career as a head coach, but then the British Championship final sponsord by Heineken, spoiled It, Robert Price writes. Dundee Rockets found the solution to Binns' formula for ancress by beating Dorham Wasps 6-2.

For a whoe, Derham were allowed to hope that rus could contione. to hope that run ceuld controlle. With Katernyuk once egaio formidably solid io goal, they sarvived a number of penalties and the sortained Dundee pressure to emerge form the second period only 2-1 io arrears. Dundee's three

nore than two Britons during the season.

Perhaps more significant and satisfying from a British point of 153 82, 2 M Reynolds (GBL 155.88, 3, P.

they ought to have been decreasingly

Instead, Dondee removed ail doebts at the beginning of the last period with a burst of three geals on 71 seconds. "They just get it right," said Bings afterwards. "For two minutes everything worked."

Nothing much worked for Dur-ham, who had clinched the English title the previous night by bealing Cleveland Bambers 8-2. Against

professional. The Dutch success last week was achieved through disci-

plined teamwork by six men, all member of the Batavus squad.

In contrast, the 24-year-old Doyle

and the others in the British

Professionals team each has a different spoosor and they came

together only for this event. It was perhaps remarkable that they came

his time fully to excline. He is set on regaining his world title at Zurich in

August and he sees the Seelink and

next month's Mill: Race as key phases in his preparation for the

the first time in last week's event was an unqualified success.

The inclusion of professionals for

championships.

defencement they were onable to sustala (beir osual pressure, Agians) the swiftly interchanging Dundee forwards, they could not exert their usual daminaace close to roal. They were playing their fourto game in eight days, and they were op against a team which, in its present incernation, has never lost to them. In such circumstances, 6-2 was a

smitch championship finat Dundes Robrets 6 (R. Wood, 2., A. Wood, Lettend, Halben, Pernytock), Durham Waster, 2. (P. Shith, Tindula), English Shalt Durham 8 (P. Johnson 4, Clements, Bernett 2, P. Smith), Cleveland, 2 (Eatle, McPartland),

CYCLING

Professionals put in their place by amateur

Many people have wondered why amateur team under the manager-an amateur, Albert Wekema, of the ship of Piet Hoekstra, a former Nertherlands, defeated a pro-fessional. Tony Doyie, from Middlesex, io the Sealink Internatioanl which ended on Saturdy in Sheffield after 470 miles and six days of excellent racing.

Doyle, who is best know for

Until Saturday night at Streatham,

Rod Binns had a 100 per ceot record

winning the world 5,000 metres pursuit championship shortly after he turned professional to 1980, duly won the 93-mile fifth stage from pernaps remarkable that they came so close to victory.

Thanks to generous sponsorship by the RMC building materials group, Doyle will earn perhaps £25,000 this year, which enables him to be one of the few home-based professionals who dedicates him follows that the state of the second professionals who dedicates the state of the second period Birmingham through the Peak District. But the 14 seconds he gained on Wekema with an attack io the last, uptill mile was too little,

100 late. It was commendable that Doyle continued his challenge right until the final turn of the pedals in a sunny Norfolk Park and that he was not demoralized after his Dutch rival has scored a renizrkable three victories at Sandown. Bracknell and

Ironically. Wekema is the more exprerienced rider of the pair. This was his sixth Scalink race. His best previous performance came in 1980. when he was third overall behind Boh Downs, the last British winner. The same year Doyle made his only other appearance in the race, finishing twenty-sixth.

Aged 26. Wekema has the sivile and physique to become one of the world's leading riders and it is no surprise to learn that be will be umning professional after competing next month in the Warsaw-Berlin-Prague Peace Race and the Olympia Tour of Holland.

The change is status will not change dramitically his lifestyle. Wekema has been racing for six years in the Batavus spoosored

WOMEN'S HOCKEY Canada lose fair and square

From Joyce Whitehead. Huala Lumpur - Three goals in the second half by Marjolem Eysvogel gave the Netherlands victory in the women's hockey World Cup for the second time when they beat Canada 4-2 in the final on Saturday. The goals were the first the Dutch winger had

scored in the entire tournament. The Canadians had surprised the op seeds by taking a 2-1 lead hut celebrations were cut short by a devastating 20-minutes period in which Miss Eysvogel scored three

splendid goals.

Unbeaten in all their qualifying maiches, the Netherlands showed the skill and power which had swept them through the tournament to climinate the world champions West Germany in the semi-finals. But the Netherlands played courageously, and were deservedly awarded the Fair Play trophy after a Margot Barr.
A)though England dropped from

third seeds to fifth place they scored the greatest number of goals in the (Staffordshiret was the top scorer

FINAL POSITIONS - 1, Netherlands: 2, Carada, 3, Australia: 4, West Germany; England: 6, Unred States, 7, New Zealand: 2, Scotland: 9, Argentina: 10, USSR: 11, India: 12 Wates

@ Canada has made a bid to host the next women's World Cup in 1986. The Canadian team manager. Marina van der Merwe, said that the International Hocky Fedration had been notified. "We are working out the technical details and these should be no difficulty

CRICKET: SRI LANKA FORCED TO FOLLOW ON

Australia pile on the pressure

firm grip on the only Test of their short tour when they forced Sri until the Sri Laokan captain was Lanka to follow on, 243 behiod on caught by Hookes at mid-off from the first innings vesterday. Sri ao attempted drive against Yardley.

Lanka, all out for 271 in reply to Sri Laoka were then 142 for five Australia a 514 for four declared, and Ranatunge, who hit to fours were 71 for two in their second and batted for 168 minutes, further innings at the close of the third day with two days remaining.

and Ranatuoge, with a sparkling 90, led a Sri Lankan revival. They were 46 for four at one state oo Saturday. but after they had reached 220 for five, the last five wickets tumbled for only 51 rues.

tain, ebeaply in the second innings and Sri Lanka, needing a further 172 to avoid an innings defeat, face a difficult task on a pitch taking spin. The Off-spinner Yardley, who took five for \$8, turned the ball considerably and Hogan, the leftarm spruner, also gained help from

Sri Lanka made a deceptively good start when they resumed at 65 for four yesterday morning as Mendis and Ranatunge, aged 19, continued a fifth-wicket partnership vbich produced 96 runs in 87 minutes. Mendis struck 12 fours in

Kandy [Reuter) - Australia took a minutes and the pair played as BL Dias c Border b Lines Sri Laoka were then 142 for five improved the position with De Silva (26) in a sixth-wicket partnership of When the stand was broken. Yardicy and the slow left-arm pair, Hogan and Border, swiftly ended

inoings just before tea. I illee soon broke through when Sri Lanka batted again by having Fernando cought behind for three. Hogan bowled Dias for 10, but the opener. Wettimuny, was unbeaten oo 45 at the close.

ONE YEAR M.A. IN SYSTEMS IN MANAGEMENT

Are you interested in learning how to use systems concepts to tackle a wide range of problems in any type of organisation from small businesses to public services and multi-national corporations? Fitteen years' research, involving some 200 projects, form the basis for this demanding 12-month course. This research has developed. and refined methodologies in which systems thinking provides a means for analysing human activities and identifying the procedural and communication weaknesses which underlie many complex problems. The specification of requirements for operational and management information systems is a particular application. The course, covering both the methodology and its application to the

basic functional areas of organisations, is completed with a five-month project, often based in an external organisation. Applicants normally have either a degree, or a professional qualifi-cation coupled with experience of working in an organisation. A number of studentships and TOPS awards are available for suitable

NON-SECRETARIAL APPOINTMENTS

TEMPTING TIMES TEMPORARY

UNIVERSITY COLLEGE LONDON "New Blood" and Information Technology LECTURESHIPS

Applications are invited for the following appointments funded under the UGC's "new blood" and information technology infictives. The posts are available from 1 October 1963 and for the "new blood" posts candidates should normally be used 35 or under.

"NEW BLOOD" LECTURESHIPS.

Anatomy & Embryology - held of Developmental Biology Expenence in the held of differentiation would be particularly welcome but candidates with interests in other areas will be competend. (Ref. No.1). Chemical & Biochemical Engineering - in the area of particle technology. A chemical engineer or other sustably qualities graduate with research interest and expensive unvolving processing particulate material. (Ref. No.2)

173

Comments of the Party of the Pa

means. Department pays particular attention to inter-relationship of figerature and fistory and seeks candidate with excellent knowledge of German language and theratine able to contribute expertise in Carman social and cultural history since the Reformation. (Ref. NDC)

Mathematics - Find Mechanics, preferably using computational methods. (Ref. NB4)

Offshore Engineering - The London Centre for Manne Technology at University College London has interests which include structural in-tegrity and structural dynamics. Candidates with an interest in these or related areas are invited to apoly. Post in Mechanical Engineering (Puf: MB5)

Paediatrics - Prevention of brain damage in Neonates For research on the early detection of cerebral hypoxia and aschaemia in the new born infant using non-invasive techniques including nuclear magnetic resonance spectroscopy and near infra-red absorption spectroscopy Physics & Astronomy - (1) to the field of position physics. The success-ful candidate will be encouraged to work on the development of an intense low energy position beam initially to be used for the study of atomic collision processes involving positrons. (Ref. NB7/1)

(2) In the area of space astronomy. The successful candidate will be encouraged to unitse space-borne equipment to acquire and analyse data in one or more of the following fields: (i) infra-red astronomy, (ii) 'Ultra-violet astronomy: (iii) 'X-ray astronomy. The choice of field will be determined by considerations including the interests of the candidate and priority developments in the astronomical community.

Statistical Science – with special reference to the evaluation of statistical procedures. Candidates should preferably have a strong background in one or more of the following areas: Theoretical Statistics; Stochastic Processes/Time Somes Forecasting: Stochastic Control Theory.

Taxicology - Laboratory is situated in the Department of Charcal Pharma-cology and has links with both chinical and basic science depart-ments. Carolidates should have an interest in buchernical medianments. Cardidates should nave an interest in outpriential necessities of cell injury in model systems and in patients. Experience in analytical techniques (HPLC and GC) would be an advantage The post will involve leaching in both undergraduate and postgraduate. Toolcology courses, and some time is filterly to be spent in second-ment to Government and industrial laborationes. (Ref. NBS)

INFORMATION TECHNOLOGY emperature (CAD/Graphes) - 2 new M Sc. course joint with Electronic Engineering has been approved. Candidates should have expertise in one or more of computer aided design of VSLL graphes, software engineering or systems software. (Ref. IT/1)

Computer Science; research meress and, if possible; experience integrated caract design; a candidate who is bilangual in hard/soft-ware would be particularly welcome.

Salary for all posts will be in the Lecturer Scale £5.375-£13,505 per annum plus £1,158 per annum London Allowance. Applications (no forms) to Assistant Secretary (Personnel), University College London, Gower Street, London WCTE 687 from whem further particulars may be obtained. Closing date for receipt of applications of May 1983. Please quote appropriate reference mamber in all correspondences.

UNIVERSITY OF **NEWCASTLE UPON TYNE** "NEW BLOOD" LECTURESHIPS

Applications are invited for the following six lectureships funded under the U.G.C. "New Blood" scheme. Applicants should normally be under 35 years of age. The posts are available from 1st October 1983.

Architecture - Energy in buildings (Post Ref. 1)

The eppointee will join a small, multi-disciplinary team whose current research interest is in the efficient use of energy in buildings. A beckground in engineering, mathematics or physics would be deskrable, with substantial computing experience, ideally in the field of simulation studies. A knowledge of Building/Architecture would be an advantage, but is not an

Civil Engineering - Hydraulic Engineering (Post Ref. 2)

Preference will be given to Civil Engineering graduates with special interest in hydrology, particularly in groundwater resources development, and/or in turbulence and momentum transfer in open

Dermatology - Skin Biochemistry (Post Ref. 3)

underlying the action of hormones in the skin and the variation in expression of the effects in different clones of skin cells. The post a suitable for a scientist trained in the techniques of molecular biology and the successful candidate will be expected to set up and run and independent laboratory as well as working in collaboration with skin physiologists in the department.

Geography - Human Geography (Post Ref. 4)

The appointment will be in the Department of Geography but associated with the Centra for Urban and Regional Development Studies, an S.S.R.C, designeted Research Centre, which is attached to the Department. The successful candidate will be expected to develop research on the impact of developments in information technology; this should be relevant to the programme of work on urban end regional change being undertaken in the Centre. Candidates should outline previous research experience and suggest possible future work in the specified area

Geology - Economic Geology (Post Ref. 5)

The appointment will be made in the field of economic geology, with special reference to the relationship between the genesis of sulphide oras end the evolution of carbonaceous matter within the sedimentary record. Experience in ore petrology, geochemistry end

Virology - (Post Ref. 6)

The vacancy is for a Ph.D., or equivalent, with experience of the techniques of nucleic acid analysis to complement existing work on the vuruses associated with infantils diarrhoea and respiratory syncytial (RS) virus in investigating their structure and strain differences. The work is likely to include the use of monoclonal antibodies and, later, cloning selected pieces of nucleic acid (nto

Salary will be on Lecturers' scale: £6,375 - £13,505 per annum lunder review), according to age, qualifications and experience. Further particulars, quoting the post reference, may be obtained rom the Deputy Registrer (FP), The University, Newcastle upon Tyne NE1 7RU. Applications (3 copies), giving the names and addresses of three referees, should be received not later than 31st May 1983.

BRUNEL UNIVERSITY

"New Blood" and Information **Technology Lectureships**

Applications are invited for the following Lectureships available from 1 October 1983 under the UGC's New Blood Scheme. The roles of these appointments will be to contribute substantially to research and to do some teaching in the areas indicated.

New Blood Lecturer in Mathematics (Numerical Analysis)

Applicants for this post in the Department of Mathematics and Statistics should have research interests in the numerical solution of partial differential equations, particularly non-linear equations, and their application in continuum mech-

Hew Blood Lecturer in Non-Metallic Materials

(Plastic composite processing technology)
Applicants for this post in the Department of Non-Metallic Materials should have previous research experience in the missoructure characterisation or the processing of thermo-

Information Technology Lecturer in Electrical Engineering and Electronics

Applicants should have experience in the design of digital systems, prelerably Computer Aided. A knowledge of expert systems end soess for epplications of such in design would be welcome.

to accordance with UGC guide-lines, the age limit for "new blood" appointments is 35, but in exceptional cases an appointment of a particularly well-qualified candidate over this limit may be made. Salarles will be on the Lecturer scale. £6,375 - £13,505 per annum (under revision), but it is not likely that an initial salary of more than £11,105 per annum will be oftered (for new blood posts) according to age, qualifications and experience. A London Allowance of £1,158 per annum is also payable. Applicants are required to contribute to the Universities' Superennuation Scheme.

Application form and further details from the Personner Sec-retary, Brunel University, Uxbridge, Middlesex, UB8 3PH, or telephone Uxbridge 37 183 extension 49. Closing date: 27 May 1983.

university college of swansea

Lectureships

Applications are invited for the lo3owing three vacancies of Lecturer. Applicants should preferably be not more than 35. The research area for each post is shown in Orackets. LECTURER IN MODERN FRENCH

HISTORY (Later eighteenth century to the early beenteth century). LECTURER IN MATHEMATICS (The LECTURER IN SOCIOLOGY (The etlact of high rates of unamp on social life).

The appointments, which will date troin October 1, 1983, will be made at the appropriate point within the Lecturers scale 28,375-213,505 per ernum together with USS/USDP8

Further particulars and apparations forms (2 copies) may be obtained from the Personnel Office, University College of Swansan, Swigssion Park, Swansan, SA2 SPP, to which office they should be returned by Friday, May 20,

HORIZONS

The Times Guide to career choice

Money for art's sake

"If you are interested in art and you turn out not to be a second Hockney, you can always become a designer". That is still the assumption which bedevils most "careers" thinking about art and design. The two subjects are remorselessly linked in colleges, in careers directories and in people's minds.

It is not necessarily a false association but it is a narrow one. Careers in "art and design" are broader than conventional images may suggest. Tn make a living in the "art world" can lead to jobs as diverse as high-powered international dealings or therapy with the disabled as well as actually painting or sculpting. And design is just as relevant to industrial management and large-scale engineering manufacture as it is to the heady world of, for example, haute couture

It is in the field of design, that exciting things are now happening for careers. At long last the overall importance of product design is being appreciated in British industry and nut a second 100 early as a successino of enterprises have gone down in the face of better-designed imports from more design-conscious competition. This seems to be changing. The Prime Minister herself has gone out of

her way in stress the importance of design. The Department of Industry is running a Design for Profit campaign to npen the eyes of management to the benefits which good designers can hring.

In The Times recently, there has been a lively correspondence about the subject, involving educationalists from institutions as diverse as Elon, the University of Salford and the London Business School and Imperial College. All agree on the importance of design, whether in engineering and construction or fashion and advertis-

ing.

The moral is clear. Young people with an interest in art and design need to sharpen their understanding of what these actually mean. The fine artists and craftsmen should reflect on where their urge for personal creativity might lead. Those whn are attracted to design, meanwhile, need to realize the vast scope of their vocation, extending as it does across fields as diverse as record sleeves and motor cars, armehairs and washing ma-

UNIVERSITY OF LEICESTER

EACULTY OF LAW

"LECTURESHIP

IN LAW 'NEW BLOOD'

Applications are invited for a Lecin-reship in the Faculty of Law. The post has been awarded to the Fac-city under the University Grants Communities. "New Blood" schome and is tenable from I October 1985, or as soon as possible there-after. The age of the successful candidate should not normally exceed 56 at the date of the appoint-ment.

Apari-from such teaching duties as may be allocated to him or her, the successful candidate will be expected to engage in research to the general field of Transustional aspects of Social Welfare Law. Research topics of special interest to the Faculty are: (a) transmational employment and social security: tot industrial democracy." (c) the position of employees of multinational emerphises.

Applicants should possess a Graf or postgraduate degree in law and should have research experience. Familiarity with the law of the European Comparative Law is desirable, as well as knowledge of the French Landauer.

Salary, according to qualifications and experience, on the scala £6.575 - £13,805 (under review).

Further particulars from the Registrar. University of Lekspler, University Road, Leicaster, LEI 7784, to whom applications should be sent on the form provided by 51 May 1983.

THE CITY UNIVERSITY

DEPARTMENT OF OPTOMETRY

AND VISUAL SCIENCE

LECTURESHIP

Applications are invited for the post of Lecturer in the above Depart-ment.

Applicants should have a good bondurs degree in Optometry and appropriate professional experience and qualifications, preferably including a higher specialist qualification in contact less practice.

The successful condidate will be expected to be flexible in teaching a variety of subjects. Bothly optometric clinical inglinode, containing in plantes, and to make a significant contribution to recently to the Department. The appointment will be for a period of five years initially, with the possibility of removal.

who will retire on or before 30 September 1984. Would those interested in the particulars of the appointment or wishing to recommend someone for

ebines: Most important, perhaps, many who already see themselves as technologists must become aware of their role as designers as well because they cannot be successful in one function without also being good at

the other. Obviously, there is little uniformity in discussing prospects for careers in art and design. As the message about the importance of design sinks in, it is hoped that the opportunities for industrial designers will grow and flonrish. Artists and craftsmen mean-while are likely to have difficulty in making ends meet unless they supplement their work by teaching and lecturing (and part-time apport tunities are now much reduced).
Alternatively they can use their training to launch into something

Edward Fennell on training and opportunity in art and design

The trend nowadays is that design courses are seen to be highly vocational whereas art courses are nf a more general kind with nn specific career nutlet. This may not be a bad thing. Art students have a marvelinus chance simply in develop their own creativity during, for example, three years of a degree course. As one college of art and design principal said: "No other form of undergraduate study forces you to draw on your own imaginative resources as much as either art nr design - and that is 8 good preparation for a career."

Unfortunately a "good preparation for a career" by no means guarantees a job. A collapsed textile industry, for example, undermines openings firr highly qualified textile and fashinn designers just as much as firr the manual workers of Yorkshire and Lancashire. On the nther band, British designers are being called nn to invigorate the fightback by surviving firms. And artists and designers are much more willing to shout about their achievements.

Nevertheless much needs to be done to improve career prospects for artists and designers alike. As David

Sherlock, principal of Winchester School of Art, said: "We have the best system of art and design education in Europe, perhaps in the world, vet that is not evident in our industry and manufacturing. Job prospects in Britain are limited and many of nur students have to gn abroad to Italy,

France and the US for work".

Confirmation of this comes from many of the Paris fashion houses which rely on British-trained designers for their success. And of the 10 designers whn make up Milan's famous Memphis partnership, two-George Snowden and Gerard Taylor -are British.

Specialization lies at the heart nf the system of training. One-year foundation courses, usually for post THE UNIVERSITY OF ASTON A-level students, give a broad introduction to a number of skills before intense specialization on the subsequent degree. The list of options is long but a few examples demonstrate the range. Manchester Polyrechnie has an industrial design enurse specifically geared to meet the needs nf the transport industry. Middlesex Polytechnic allnws students to concentrate nn graphic infirmatinn design which prepares students for jnbs in televisinn and computer graphics. Manchester Polytechnie's graphics technology course is nrientated towards jobs in printing, phniography and packaging, Leicester Pnlytechnie's engineering industrial design course attracts A-level mathematicians and scientists.

The training is therefore highly specific-probably why nur students have a flying start when they go abroad to work. It is also encouraging that the colleges are able to respond quiekly-courses in computer graphics are the latest example—as new technologies emerge. The only prob-lem is that the college system sometimes has a "hot-house effect" which is remnte from the icy winds of the British industrial climete. There is bags of creativity but it may be a bit short on practicability.

UNIVERSITY OF STIRLING

"NEW BLOOD"

Applications of the Med for the following loctureships, whose primary role in is early years will be no poducity research;

I PSYCHILLOGY Cognitive Neuropsychology Applicants should have substantial research experience in experimental pay chology and clinical neuropsychology and clinical should have substantial research experience in Fish Genetics and be trained and experienced in modern techniques of genetic manipulation, Salary will be on the Lecturer scale £6.378 to £13.505, depending on soe and experience in Further particulars, University of the salary of the particulars, University applications, together with ine names of two referees should be sent before 31st May 1963. The message from most employers is that students must become more aware of the constraints in the industrial system within which they will work. There has to be a better bridge between our young artists and designers and their subsequent employers.

:UNIVERSITY OF CAMBRIDGE DEPARTMENT OF ARCHITECTURE

Applications are invited for two University Assistant Lectureships in the Department of Architecture, University of Cambridge from 1 October 1983, or as soon as possible thereafter. The appointments will be for three years in the first instance, with the possibility of reappointment for two years. The maximum tenure of a University Assistant Lectureship is five years. The pensionable scale of stipends for a University Assistant Lecturer, not ordinarily resident in College, is 26,800 a year rising by four annual increments to 28,510. The successful candidates must have demonstrated abilities in architectural design, education or research. The duties will consist of the teaching of courses for architecture students and studio instruction, and may entail involvement in research programmes. One of the posts requires the ability to teach the design of structures. Further Information and application forms may be obtained from the Secretary of the Appointments Committee of the Faculty of Architecture and History of Art, 1 Scroope Terrace, Cambridga CB2 1PX. Applications should be submitted to him by Mondey, 23 May 1983.

OUEEN MARY COLLEGE

University of London **LECTURESHIPS**

Applications are invited from those who will be under 35 on 1 October 1983 for the following pods established under the national acheme to encourage the appointment of young staff:

PHYSICAL CHEMISTRY: candidates with proven research capability in any area of physical chemistry will be considered but preference will be given to those with intervents to the kinetics and dynamics of excited staff reactions in the gas phase or at the gas-solid interface.

phase or at the gas-cold interface.

MATERIALS: condidates should have a Ph.II in Materiols Science or an equivalent department of the phase should have a Ph.II in Materiols Science or an equivalent department of the phase such as electron interescopy, fracture mechanics, vince-electric districts of the phase such as electron interescopy, fracture mechanics, vince-electric districts of the phase such as electron interescopy, fracture mechanics, vince-electric districts of the phase such in adhesion science and technology.

CIVIL ENGINEERING: candidates should have a good honours degree in Civil Engineering or be Churtered Civil Engineeris and have experience in peotechnical engineering apart from normal teaching duties in Soil Mechanics and related looks; the successful candidate will be expected to devote a substantial part of his/her time to research.

Salary scale: £5.375-£13.505 q.a. (under review), plus £1.188 London Allowance. Further details of each post, including current research interests and lactities, and application forms, are subjiable from The Servelary, Queen Mary College, Mile End Road, London £1 4NS, to be returned by 23 May.

UNIVERSITY OF GLASGOW DEPARTMENT OF VETERNINARY PATHOLOGY LECTURESHIP

IN BACTERIOLOGY Applications are invited from the candidate withesperiance in microbiological research in work on the pathogenesis of enteric diseases to domestic animals. Recent research in the department has identified sevied bacterial causes of entiric disease in callic and pies and the applicant would be required in develop a programme to study the pathogenic mechanisms of these at the collular and molecular level.

Applicants should be 36 years of age or under and should have a Ph.D: a veterminery degree is preferable but not essential.

Salary will be within the range \$6,578 - £13,805 on the Lec-turers scale with placement ac-cording to ege, qualifications and experience. Purifier perticulars are available from Professor W F H Jarrett. FRS, University of Clasgow Veterinary School. Saarnden Roed. Beartden. Glasgow. Q61 1QH.

Applications (9 copies) should be lodged with the Secretary of the University Court, (Room 15). University of Glaspow, Clasgow, Ili2 SQC, diving the names and addresses of three referees, on or before 31st May, 1963.

BIDCHEMISTRY (ref. TLJ)

Applications are invited for rivin lactureships. For one of these preferance will be given to those whose research interests is in the axe of euteryoric gene structure or function, evin a relevant area of cell biology. For the other research experience in a violer area of cell biology will also be considered. **BOTANY: Lectureship in Molecular Genetics**

The applicant should have experience in the field of plant or microbial molecul generics, it is hoped that he size will paracipate in one of the relevant established research areas in the Department planktonic pranchacteria,

PATHDLDGY: Lectureship in Molecular Pathology (ref. TLJ)

Applications are invited from scientists with experience in molecular genetics, whose research interasts lie in the field of veril or euteryooc celt gene expression. It is hoped that the successful applicant will forge collaborative links with established groups within the Department working in wall oncology and immunology.

INDRGANIC CHEMISTRY (ref EB) The appointment will be in the area of organometalist chemistry, with special reference to the use of organomentum metal compoundss in catalysis Som expenence in X-ray diffraction methods would be adventageous

ORGANIC CHEMISTRY (Drganic Gaochemistry Unit) (ref. EB)

The appointment will be made in the area of molecular organic geochemistry Experience in one or more of the following areas would be advantageous computerated mass spectrometry, computerated combined gas, chromotography, mass spectrometry statistics and computer data handling

PHYSICAL CHEMISTRY (ref. EB) PHYSICS (ref. EB)

The position will be for a theorest in the area of *Nonkrear Physics*. Preferences will be given to applicants sharing interests with other members of the theoretical physics group, those interests include Hamiltonian chaps, semi-classical quantum machanics, and defects in condensed matter physics and optics hadronic structure and incommensurate structures. AERONAUTICAL ENGINEERING: Aircraft

Systems and Control Engineering (ref. JPB) by statistics of appropriate control laws for flight at extreme boundaines of the flight envelope, to take advantage at current advances in service organizes (e.g. relaxed stability and active comitot technology and structures (e.g. fibre composite smictures). The simils are to achieve safer and more manosurable and efficient flight in such extreme conditions as high incidence, flight through subclience and in windshear conditions, etc., and will called the needs of both civil and military arcraft.

CIVIL ENGINEERING: Structural Dynamics

(ref. JPB) A young engineer or physicist is required to augment a small electing team of researchers working in the field of earthquake origineering, and suructureal dynamics generally. The particular current research programms is concerned with dynamic segment of protebytes structured to determine the servicin structural properties of natural frequencies, mode-shapes, demong and districturions of strictiness and mass. This research topic is part of the new S.E.R.C. institutes in Civil Engineering research which is due to begin in October 1983 intending applicants are thysited to contact Professor R.T. Sinem, who will be pleased to give further information on assisting lacilities and future intentions.

VETERINARY MEDICINE: Lectureship in

Veterinary Virology (ref. JF) Applications are invited from graduates with postdoctoral research expension aspects of arrival virology. The successful applicant will be injected to develop a research activity in virology in the context of the Department's

POLITICAL AND ECDNOMIC HISTORY (ref. EB) The successful applicant will be expected to engage in research in some aspect of the economic/political development of South Africa in the twentieth cantury and to contribute to teaching in political end economic history with special reference to South Africa.

The salary will be on the scale £6.375-£13.505 per arrium Further particulars may be obtained from the Registrar and Secretary, iversity of Bristol. Senate House, Bristol BSS 17th, to whom applications should be sent by 20th May, 1883 Please quote the appropriate reference.

LECTURESHIP IN

liorizon turns its attentions to the origins of a particularly unity disease that is aweeping through New York's Greenwich Village male population. THE KILLES IN THE VILLAGE (BBC2 9.30pm) is AIDS - Acquired immune Deficiency Syndrome.

Thousands of men, predominently homosexual, have contracted the ease and hundreds have already died. The disease, with symptoms including extreme fatigue, persistent fever and dramatic weight loss, is recognizable when unsightly bruiselike blemishes appear on the skin. How did it originate? Horizon has been to the United States and dug as deep as it is able but although scientists have discovered what it is not caused by they are still a long way from discovering what does use it. The programme includes interviews with sufferers and also victims who later died. Not all are

Steam from the Sellafield cooling towers billowing out over the small coastal town of Seascale near by (Photographs: Brian Harris).

Thirty years on nuclear health fears persist in Cumbria males was significantly lower than expected. Against the background of the Sizewell inquiry, Ronald A huge public relations exercise has been launched to improve the public image of

The Paul Pedersens, father and son, step on to the beach at Ravenglass from their small carrying boxes of lobsters and flat fish across the sands from which the tide is draining rapidly. They have been checking their creels off the Cumhrian coast since 4 am.
"If what them barmy beggars

say is right then I should be glowing like a light hulb", Mr Pedersen junior says. His father adds: "They say the Irish Sea is dangerously contaminated, hut there is nothing wrong with him. As he speaks he brandishes a fat and powerfully clawed lobster at me.

He began fishing among the wrecks and shoals off Sellafield more than 20 years ago. His last full body scan at the nuclear plant showed radiation levels that offered the same risk as smoking two cigarettes a year or driving a car 18 miles a week.

The calculations were made hy scientists of the Ministry of Agriculture, Fisheries and Food and Mr Pederseo accepted them as a full answer to the risks of the supposed experts that fishing in the Irish Sea. the doubts against

fishing in the Irish Sca.

"The only bad effect we notice", he says, "is that every time there is a scare story about

Faux, our Northern Correspondent, visited west Cumbria where nuclear industry has been a fact of life for more than 30 years. He finds that the Sellafield complex of British Nuclear Fuels still generates strong feelings for and against the industry. Nuclear energy is seen to be an essential and acceptably safe source of power by many of the 10,000 people

who work there. Those who do not may regard Sellafield with healthy scepticism but accept that, without it, west Cumbria would beconie an industrial desert.

catch goes down by two thirds. doctor quoted from a standard Then people forget and things reference work: "There is great turn to normal." difficulty in deciding whether Beyond the beach, which in there are levels of radiation return to normal.

summer is the Pedersens' market place, on the landward effect results. The difficulty is norizon the cooling towers of particularly great as regards Sellafield send out plumes of delayed sometic (bodily) effects

The tall, square-top towers mark the nuclear piles that geoetic "time bombs" may be produce the fissile material for British nuclear bombs, It is that ominous side of nuclear energy, emphasized by the famous Windscale leak, armed guards, evidence to back them, secrecy, and uncertainty among which British Nuclear Fuels is campaigning vigorously.

The doubts are found among national rates and the incidence poisooed water the value of our medical practitioners. One of all cancers combined in

nuclear power and its peaceful benefits.

The decision to allow the huilding of Thorpe (the Thermal Oxide Reprocessing Plant) has been accompanied by much iovestment at Sellafield, turning it into probably the biggest building site in Europe. Up to £50m a year enters the

local economy in wages.

But the doubts remain even though many of the doubters. have become resigned to living so close to Sellafield - a name that covers British Nuclear-Fuels's Windscale and Calder works and not chosen, the company insists, to remove the memories of Windscale leaks and contamination.

"Nuclear power has a lot to live down", one Whitehaven sceptic said. "It produced the most violent and destructive: single explosion ever, its sec-ondary evils are invisible and insidious, and, while it is impossible for the man in the street to comprehend in any

Miss Emery: "The danger

supposed to understand are not always agreed."

Mr Bill Badger, of the Friends
of the Earth in west Cumbria,
said that several years after the inquiry the oxide reprocessing plant had still oot been built.

"Waste from the Magnox stations has to be reprocessed and we recognize that Windscale is the ooe place where that cao be dooe safely," he said.
"People assume we want to close the plant, but that is oot

He doubted whether it would

true. It is impossible to shut detail, he gets the firm im-pression that the people who are probably 100,000 people rely.

British Nuclear: Fuels's :re sponse was: "There is no decrepancey. One million times oothing will always be oothing. Compared with any other industry, ouclear power has an enviable and excellent safety record."

Letter from Dallas

Image-conscious city where money talks

History has bestowed two unforgettable memories on Dallas - the assassination of President Kennedy, and J. R. Ewing. Both in their different ways have deeply affected the place and given the city an obsession about its image. Right now, there are a lot of people who wish J.R. would get out of town.

A simple white memorial to President Kennedy stands in the city centre and a lot of Dallasites still resent being constantly reminded of such a shameful day. President Kennedy, after all, had no real connexion with Dallas.

Lee Harvey Oswald supposedly did the deed from a small, cluttered room on the fourth floor of the book depository building a red official looking structure with lots of dark corridors and gloomy little rooms. There is now talk of turning the room into a Kennedy museum, but not everbody agrees. It might create a negative image.

And not everybody agrees that J. R. Ewing and his evil entourage have been good for Dallas. Some people complain that the image of the city across the world is of a heartiess, oil-obsessed town with but one god - money.

In part the image is accurate. The city is booming there is a frenetic page of construction and a reliable sense of excitement. on the long drive in from the airport - nothing but offices going up, highways under construction, factories being built. There is electricity in the air. - the same feeling of extreme optimism that New York evokes. The difference is that New York does it with culture. Dallas does it with

Dallas is determined to be an international city. It brags that its airport is the biggest in the world, higger than the entire island of Manhattan. The other weekend the mayor threw another of his lavish dinners for a group of ambassadors invited down from Washington for several days of pampered luxury, an exercise that is all part of the international image-building.

Of course, their excellencies wanted to see South Fork Ranch, known in real life as the Box Ranch, first home of the Ewings until the real owner got fed up and told

everybody to pack up and go.
The ranch you see on television now is several miles away from the 1,600 rich acres of the Box Ranch, itself about 20 miles out or town

looked a little ridiculous in their blue jeans and Texas hats, all standing in a neat line beneath the first, fierce ath of the season while civic dimi-taries clambered around with great armfuls of cameras and made nice speeches. After the photographs they all gratefully repaired to the swimming pool area to sample huge quantes of barbecued steaks and ice cold beers, while a band played softly in the back.

The city is fractically creating a cultural personality.

A whole new arts district is under construction where quaint little restaurants and antique stores will mingle around the magnificent newly remodelled theatre, a huge remodesed theatre, a huge new museum and the new symphony hall. Dallas decided it wanted some culture so it did the natural, obvious thing it went out and bought.

Once a year the city hose probably the biggest state fair in the land, where they do all manner of crazy things while devouring mountains of traditional delicacies, such as Cokes, "corn dogs", candy floss and pizza slices.

Of course, the civic leaders like you to know their history, to know how the Alamo was fearsomely avenged to the place where the San Jacimo river meets the Buffalo bayon.

There is an aesthetic awareness amid all the panic of building, an awareness kindled in the comfortable embrace of wealth. Sir Henry Moore created the masterpieces of sculpture outside the city hall, itself a building of imposing beauty surrounded by a skyline that is beginning to look a little like New York and

-And so it cootinues, stories of money and the images it can buy. One wonders what the blacks and the other poor folks make of it all from their secluded little homeland to the south of the city, just the other side of the tiny Trinity river. where the images are so dreadfully real and not the least hit clusive.

Christopher Thomas

Nesting is under way. Blackbirds and song-thrushes are on eggs in their deep nests, with just their beak and tail showing above the rim. They sit tight, but fly off with a skittering cry if an intruder comes too close. Wrens are huilding the cock wren makes several domed nests of grass and leaves, and the hen chooses one of them and lines it with soft feathers. She usually lays six minute, red-spotted eggs. New arrivals from the South include house-martins, wheeling and braking above the house-tops with a flash of their white rumps, and grashopper warblers, which have become much more common in neglected, hushy patches of country-side in the last few years. On the moors, blackcock gather for their annual "lek", a communal ritual of fighting and mating: the males spread their tails in a broad fan, and

Trees are still coming into leaf Trees are still coming into leaf rather slowly. Horse-chestnuts are the most striking, with their brilliant green leaves, and their flower-spikes already forming. Oak and beech are sprouting cautiously; but under the oaks, bluebells are coming into their full glory, the colour of summer
